Cleveland's Election.

CLEVELAND'S election may be taken to mean that the comparatively few persons who hold the balance between the two parties in the States have decided that the McKinley tariff must go. It does not mean that the majority has gone against protection, for Mr. Cleveland expressly stated in his letter of acceptance that he was against any radical change from protection to free trade, and assured the electors that nothing would be done or permitted by him which would imperil the great manufacturing interests which have been built up by protection. That which may be hoped for and expected—as soon as the Senate can be brought into line—is a readjustment of the United States' tariff in the direction of the freer admission of raw materials. It is probable, for instance, that wool will be placed upon the free list. Whether or not potatoes and eggs, horses and sheep and other things in which we are most interested, will have free entry to the United States' markets is more than doubtful, though it is probable that some reduction in respect to them will be made. As for unrestricted reciprocity or reciprocity upon lines acceptable to the British people who possess Canada, we see little prospect of either. The revenue requirements of both the United States and Canada stand in the way of any large measure of the operation of which will involve loss of revenue. When Cleveland was in office five or six years ago, there was emitted a considerable volume of talk about reciprocity; but his administration did nothing whatever, and refused to even listen to the proposals of Sir Charles Tupper when representing the Government of Canada at Washington. Indeed, the recent talk of the States about reciprocity has all been carried on by the Republicans; and it was in favor of reciprocity with the South American States, etc.—not with Canada. It will be remembered that Mr. Wiman, when here, spoke as if the chances for reciprocity depended upon the election of Harrison—but he, conveniently, left out of sight the fact that reciprocity with Canada is no part of the Republican plan. On the whole, we incline to the opinion that an abatement of the heavy duties imposed under the McKinley tariff, apart from considerations of reciprocity rather than in connection with reciprocity, will follow the election of Cleveland. The Democrats will readjust the tariff in accordance with their pre-election pledges, and with what they believe to be the interests of the United States, rather than out of regard for reciprocal trade relations with Canada, or any other outside consideration. The latest reports indicate that Cleveland's victory has been sweeping and complete. There can be no doubt that Cleveland's strong and manly personality has made a great impression upon his countrymen. His former administration was pure and good. We have no doubt that his personal qualities contributed largely to the splendid victory which he has won. His opponent is also a man of excellent reputation; but he has not made such a heroic figure before the public as Cleveland.

PRESIDENTIAL ELECTION.

Democrats Victorious.

CLEVELAND PRESIDENT.

A BIG MAJORITY.

NEW YORK, Nov. 9. The latest returns indicate Cleveland's election. He has carried New York by 40,000 majority; Indiana by 10,000; Connecticut by 3,000 and captures Republican Illinois by 20,000 majority. The Peoples Party has created havoc among the Republicans and Weaver, their candidate, wins Kansas, Nebraska, Nevada, Colorado, North Dakota and Oregon, besides polling a big vote in the other States. Cleveland has a plurality in Chicago of 30,000. Russell has been elected Governor of Massachusetts by 12,000 plurality. Harrison has carried Pennsylvania by 85,000. Tennessee goes Democrat by 45,000; Georgia the same by 70,000 majority; Washington and Virginia by 25,000. LATER. BOSTON, Nov. 9. The returns are coming in slowly, but they indicate clearly Cleveland's election. A careful estimate of the votes of the electoral college indicate as the probable result: Cleveland 270, Harrison 150, Weaver 22. The number necessary to a choice is 223.

General Telegraphic News.

OTTAWA, Nov. 7.—Three tons of tree seeds were gathered in the Northwest Territories this fall. It will be distributed to settlers and will give a great impetus to the forestry of the Northwest. More Michigan farmers have been located in the territories.

HAVSBILL, Mass., Nov. 7.—1,300 employees in the Byrom Noyes Shoe Company's turn work department left work this afternoon because of the firm's refusal to sign the new price list, giving an advance of 2 or 3 cents per pair. They claim the company pay that much less than other manufacturers in the city for making the same goods.

MONTREAL, Nov. 7.—The whitewashed count is evidently after the English vote. In an interview to-day he said: "My impression is that Mr. Chapleau will become lieutenant governor. He is a gifted man, who would do honor in the position. Seeing that we cannot have an English speaking lieutenant governor at present, the next best thing is to have a lieutenant governor with an English speaking wife. Mrs. Chapleau is one of the gems of our society."

MONTREAL, Nov. 6.—A complete census of wealthy men in this city shows 36 worth from one to a half million; 62 worth from a half to a round million, and 100 from a quarter to half a million.

OTTAWA, Nov. 6.—Efforts are being made to induce the Imperial Government to allow shipments of cattle to leave this side on the 21st. Robert Bickerdike, a leading cattle shipper, cabled the Board of Agriculture yesterday, asking for an extension of the cattle schedule from the 1st to the 28th, but a reply came that the date had been well considered and would be maintained.

WASHINGTON, Nov. 8.—The following is the text of President Harrison's thanksgiving proclamation:

"The gifts of God to our people during the past year have been so abundant and so special that the spirit of devout thanksgiving awaits not a call, but only the appointment of a day when it may have a common expression. He has stayed the pestilence at our door; He has given us more love for the free civil institutions in the creation of which His spirit presided; He has given us a deeper reverence for law; He has widened our philanthropy by a call to succor the distressed in other lands; He has blessed our schools and is bringing forward a patriotic and God-fearing generation to execute His great and benevolent designs for our country. He has given us great increase in material wealth and a wide diffusion of contentment and comfort in the homes of our people; He has given His grace to the sorrowing.

Wherefore, I, Benjamin Harrison, president of the United States, do call upon all our people to observe the seal of the United States to be affixed. Done at the city of Washington, this fourth day of November, one thousand eight hundred and ninety-two, of the independence of the United States the one hundred and seventeenth.

By the president, JOHN W. FOSTER, secretary of state."

OTTAWA, Nov. 8.—Mr. Saunders has notified the Nova Scotia collection of green fur for the world's fair, to leave Wolfville in a refrigerator car, which proceeds to Nappan and thence to Montreal, where the Quebec collection will be taken on board. When the fruit arrives at Chicago it will be placed in a bonded warehouse of cold storage until near the time of opening the exposition, when it will be transferred to cold storage on the fair grounds and used from time to time as required to keep up the display which Canada makes. The different provincial collections of small fruits in glass bottles will be sent later.

OTTAWA, Nov. 8.—The Secretary of State has received from the Catholic minority of Manitoba another petition, signed by hundreds of influential Catholics, including Archbishop Tache, asking the Governor General in Council to make an order to the effect that their right to separate schools be restored. A change of base has

been made in this petition, it being claimed that clause 2 of the B. N. A. Act applies to Manitoba as well as to the other provinces. Part of this clause does not appear in the Manitoba Act, and the petitioners claim that the B. N. A. Act, applying to Manitoba the same as the other provinces, takes away from the provincial authorities right to abolish by act of the legislature the system of education established by the previous provincial act.

Football To-Morrow.

A match game of football is to be played to-morrow at Victoria Park between the Town of Picton team and the Crescents of Charlottetown. On the 24th May last the Crescents went over to Picton and played a draw with the Picton team. The return match to-morrow will probably decide the question of superiority. A good game will, doubtless, be played, as the Crescents have been hard at practice of late. Following are the names of the Crescent team:

Full Back—Addison Miller. Half Backs—G. I. Foster, G. Robinson, J. Rundle (Cap), J. Sullivan. Quarter Backs—W. Ferguson, L. McMullen. Forwards—F. W. L. Moore, D. McDonald, D. Gaudet, F. Handrahan, J. McDonald, W. Daly, J. Gallant, H. Campbell. The game will begin at 2.30 o'clock sharp.

LETTERS TO THE EDITOR.

The Great Hotel.

SOME QUESTIONS.

Sir,—Has the committee done anything towards securing assistance from outside Charlottetown towards the hotel fund? I heard a few days ago that certain men of means in Summerside are very favorable to the scheme and would contribute to the fund. Should not these men be canvassed, and not only these, but all such men in different parts of the Island? Are our capitalists all in Charlottetown; and does the benefit accruing from the scheme extend only to the capital of the Province?

Charlottetown, Nov. 9, 1892.

MR. EDITOR,—

DEAR SIR,—Allow me a small space in your valuable paper to make a few remarks about the Wonderful Cheap Men, who will, on Saturday, open their new wing with wonderful attractions in the shape of a handsome present for everyone who buys one dollar's worth of goods in the new department.

The boys started business eleven years ago in the then small store, with only one small room up stairs, and as business grew they had to add 24 feet to the back of the store, and also adding room after room up stairs until they occupied the entire two flats directly over the store, and business kept on increasing until they had to procure an extra room over D. A. Bruce's store, but still they found their place too small for their ever increasing trade; and in order to accommodate their customers with greater satisfaction and a larger range of goods to select from, they have had a wing added to their already large establishment, which will open on Richmond Street, thus making an entrance on Queen Street and Market Street.

I would strongly advise everyone who may require anything in the way of dry goods and clothing to call and have a look through their immense stock.

The new cash carriers which have been placed in their store are well worth seeing.

It is a pleasure to see the customers who are so well served and so well pleased by the public what can be accomplished by push, enterprise and low prices. They never consider it any trouble to show goods, even when you do not want to purchase. Be sure you call and have a look at their new premises.

Yours truly,

ONE THAT HAS BEEN THERE.

Letter From Mr. Desmond.

Sir,—I see by your account of the inquest on the body of the late Henry Clarke that a "colored man named Desmond" reported to our worthy Marshal that Clarke was lying in a vacant tenement house on Powell Street very sick. Now, sir, if the Marshal means me he is laboring under a mistake; for I know nothing of the sad affair till I heard of Clarke being in the Charlottetown Hospital sick, and have not seen him since he was at the wake of the daughter of our venerable friend DeCourcy. The reason I write this note is to find out who this "man Desmond" is, as I am under the impression that I am the only agent bearing that cognomen; and if there is any other I would like to know him, as he will very likely prove a relation of mine. THOMAS DESMOND.

Back-ache.

Back-ache is caused by sick kidneys. Dodd's Kidney Pills will remove it. By their peculiar action on the kidneys they impart activity and benefit the system by purifying the blood. You cannot have pure blood with disordered kidneys; health's existence depends upon their natural condition; they are the governors of the system; continual disorder results in kidney consumption, which is Bright's disease. 4
