A Feature For Every Friday

Among The Farmers

Federation of Agriculture News

Harvesting Delayed

Recent heavy rains have seriously held up the harvesting and threshing work. Grain that was in stock was badly soaked and the standing grain was broken down worse than ever. About two-thirds of the harvest is cut but very little threshing has been done. Grain is well filled and those who have threshed report a heavy yield and good quality. Up to ninety bushels of mixed grain per acre have been reported.

The heavy rain has softened the ground and ploughing has commenced in several sections. The potato crop was damaged considerably, although no widespread outbreaks of blight have been reported.

Another Delay

Your secretary and executive are getting tired of making excuses for the stalling and delays in getting the potato marketing board into operation. We want to make it clear that the Federation completed these regulations and forwarded them together with the producer nominations to the Provincial Board several weeks ago asking that it be considered immediately and submitted to the Government. This was done. The scheme was approved and four of the five-man Board were appointed.

This apparently did not constitute a legal Board and an official meeting could not be called until the full Board was appointed and the names and regulations published in the Royal Gazette. The private dealers have nominated their member but this is not yet confirmed by the Executive Council. Therefore, an official meeting of the Potato Board has not been called. It is up to the chairman of the Provincial Board to call the first meeting.

Arrangements are being made to call an unofficial meeting of the Potato Board next Tuesday when a program can be mapped out and plans made for this year. We have the assurance of the Minister of Agriculture that the matter will be completed at the next meeting of the Executive Council.

Word yesterday from the New Brunswick people is that they expect to have their Potato Marketing Scheme approved and their Board appointed at this week's Government meeting. There had been some delay in that province in getting a few minor points regarding representation, approved by producers in the different regions.

However, this is now straightened out and their Board will be ready to meet with the Island Board as soon as both are officially constituted. Such a meeting is planned for the later part of next week.

Board Functions

There still seems to be misunderstanding in some districts about the functions of a Marketing Board. Any Marketing Board set up under the Agricultural Products Act, by the producers of any particular product, has the authority to regulate or control the marketing of the whole crop of that product in the area which is defined in the Scheme. It has not the authority to buy or sell as a Board. However, such a Board can and will designate and license dealers to do the buying and selling job. These licensed dealers must abide by certain regulations respecting price, movement, etc., as ordered by the Board in the interests of the industry as a whole. The Potato Board is the first such Board of control to be requested or established by the farmers in this Province.

Strike Effects

The effects of the strike on our farmers has not been added up as yet. Although the trains are rolling

Poultry Plan Approved

Following the plebiscite on poultry and eggs which was taken last winter, several meetings were held regarding the organization of the Poultry Industry in the province to establish a better system of marketing, advertising, etc. for poultry and eggs.

As a result of those meetings a plan based on our Provincial Marketing Act was drawn up and was unanimously approved by a joint meeting of the producers and trade held in Charlottetown last Tuesday evening. It is to be known as the Poultry Improvement Board consisting of seven persons, one representative of the producers in each county, one from the registered egg grading stations, one representative from the hatcheries and one farmer representative from the Approved Flock Association.

The plan is designed to coordinate and improve marketing facilities and promotional work within the whole Poultry Industry. It has no authority, with regard to establishing prices. However, it is aimed at bringing the different agencies closer together and gives authority to these representatives to eliminate much of the inefficiency in the handling and grading of eggs at receiving stations. It also means that Island poultrymen will be in a position to take advantage of any new Government support program that may be available to organized agriculture only in the future.

The plan is being presented immediately to the Provincial Board for ratification.

Potato Growers Meeting

A special meeting of the Potato Growers Association is being called for next Thursday evening, September 7th, to settle the matter of reorganization. It is hoped that there will be a good turnout of producer members to this meeting so that the fate of our old potato marketing organization which is owned and controlled by the producers may be clarified and agreed upon.

Police Memorial

LONDON — (OP) — The King recently unveiled a memorial in Westminster Abbey to London police.

John W. Young Former Islander Passes at 90

Mr. John Walter Young died in hospital in Ottawa last Thursday in his 91st year. He was the father of P. Lorne Young, retired assistant Deputy Minister of Customs and of Earl C. Young, editor, Debates, House of Commons.

Born in Prince Edward Island, he was a son of the late Mr. and Mrs. Thomas Young. Mr. Young was educated at Prince of Wales College, Charlottetown where he later taught school until 1913. He came to Ottawa in 1913 and served in the old Department of Customs from which he retired in 1932.

Surviving in addition to his two sons, are one daughter, Mrs. Frank H. Carson of Rochester, N. Y., and several grandchildren and great grandchildren.

The body rested at the Hulse and Playfair Funeral Home 315 McLeod Street, and the funeral was conducted by Rev. Gerson Clarke of St. Luke's Anglican Church in the Hulse and Playfair Chapel on Saturday at one p. m. Interment was in Beechwood Cemetery.

Men who gave their lives in two world wars. A book of honor commemorates those who died whether while serving with the forces or from enemy action while on police duty.

Dairy Situation

Production of dairy products is down right across Canada. Our Island production of cheese is down about ten per cent from last year. Butter is down about eight per cent for July. Prices are holding firm, although there are indications that some low grade butter may be imported from Upper Canada into Nova Scotia markets and that a quantity of cheese is on its way from Australia and New Zealand.

We have assurance from the Nova Scotia marketing officials that definite butter grading regulations will come into effect in that province at January 1, 1950, requiring that all print butter will be sold on a graded basis. This will protect the prices on number one prints that our factories are offering.

Farmers do not mind competing with dairy products from other provinces or countries providing they are sold on a basis of quality.

Local Fairs

The time for Fall Fairs and local Exhibitions has arrived. The first one will be the Alberton Exhibition next Wednesday, September 6th. Wednesday, September 13th there will be the Mont Carmel and Egmont Bay Fair and the Exhibition at Souris. Those Fairs will be held on the same day.

Then on September 27th and 28th will be the Provincial Ploughing Match at Dundas. This will be a two day affair this year with many new features and attractions.

It was suggested at some of the County meetings that sufficient interest might be aroused in Queens and Kings Counties to organize a Ploughing Match. Apparently there is considerable interest in the Pownal and Mt. Mellick areas for such a match in Queens. A meeting is being planned there for the near future to see what might be done along this line.

We would be glad to hear from, and help any interested pigmen in Prince County with such a project. Other features such as new linespreading methods and a Junior Farmers program might be added.

Announce Capot Is Being Retired

NEW YORK, Aug. 31 — (AP) — The Greentree Stable announced that Capot, the 1949 three-year-old champion and "horse of the year," is being retired because of an aggravated knee injury.

The brown four-year-old son of Menow-Pluquet will be sent to the Greentree farm at Lexington, Ky., for breeding purposes. Capot, winner of the Preakness, Belmont Stakes and Pimlico Special last year and second in the Kentucky Derby, came out of workout Sunday at Belmont Park with a swollen left knee.

The body rested at the Hulse and Playfair Funeral Home 315 McLeod Street, and the funeral was conducted by Rev. Gerson Clarke of St. Luke's Anglican Church in the Hulse and Playfair Chapel on Saturday at one p. m. Interment was in Beechwood Cemetery.

Men who gave their lives in two world wars. A book of honor commemorates those who died whether while serving with the forces or from enemy action while on police duty.
