Eisenhower To Give Up European Post By June 1

By ROGER D. GREENE
WASHINGTON, April 11 — (AP) — The White House announced today General Eisenhower will give up his European post by June 1, five weeks before the Republican national convention meets to nominate its candidate for the presidency.

Gen. Eisenhower

At his own request, the General will wind up his mission as Supreme Allied Commander in Europe and return to inactive military status free to enter personally into the thick of the battle for the Republican nomination.

Groundwork Completed
Eisenhower made it clear in letters setting forth the reasons for his resignation that he feels the groundwork has been completed for the defence of Western Europe against the threat of Soviet aggression.

"As of now, I consider that the specific purposes for which I was

Coming Events

- **Seeds! Send for Free Catalog. Arthur Vesey, York.
- **Bedque Flour Mills will clip-per-clean your grain.
- **Highfield W. I. Pantry Sale, S. A. MacDonald's today, 2:30 P.M.
- **Dance in Cardigan hall, Easter Monday night. Lunch served.
- **Dance in Tracadie Hall, Easter Monday night, Byrnes Orchestra.
- **In stock oil cake and soyabean meal. McGuigan & Boyle.
- **Dance, Sunnyside tonight, modern and old time. Burns' Orchestra.
- **Dancing, Legion Hall, Souris on Saturday, April 12th. Clifford Peters' Orchestra.
- **Box Social, card and crokinole party, Marshfield Hall, Monday, April 14th. In aid of hall.
- **Victoria Rink Saturday. Join the Easter parade of skaters to-night for a farewell skate.
- **Dance in St. Mary's Parish Hall, Souris, Easter Monday, April 14th. Chaisson's Orchestra.
- **Dance in Emerald Hall, Monday, April 14th. Blue Haven Ramblers Orchestra.
- **Dance, St. Peter's Legion Hall, Easter Monday night. Cloak checking and canteen service.
- **Dance, Fort Augustus Hall, Easter Monday, April 14th. Sponsored by C. W. L. Good music.
- **Card Party and Dance in Kelly's Cross School, Easter Monday night.
- **Farmers, ask about the Shur-Gain Feed Finance Plan. For particulars contact your local feed mill.
- **Just arrived, Floor-Ever, non-porous plastic tiling. See the beautiful shades now in stock. Simpson's Agency.
- **Easter Monday evening Dance at Mt. Stewart Canadian Legion Hall. Rollie MacKenzie's Orchestra. Admission 40 cents.
- **Card party at Stanley Bridge school, Monday, April 14th. Sponsored by Women's Institute. Proceeds for rink.
- **We still have a large supply of goods at greatly reduced prices at the big clearance sale of W. O. Myers, Stanley Bridge.
- **Booking orders for Strawberry Plants, Dunlap, \$1.00 per hundred, \$7.50 per thousand. Otto Curtis, Bedque.
- **For Snapshots that will not fade, mail your Films and Negatives to Garnham Photo Studios, Charlottetown.
- **Booking orders for Strawberry Plants, Dunlap \$1.50 hundred, \$10.00 thousand. Premier \$1.75 hundred \$12.00 thousand. Parker Jewell, York.
- **We have a full line of clover, mangled, corn and registered Laurentian turnip seed. Order now. All seeds cash. J. Russell Driscoll, Mt. Herbert.

18 to 23 Persons Of 69 Survive Landing At Sea

SAN JUAN, Puerto Rico, April 11 — (AP) — A Pan-American Airways plane carrying 64 Easter holiday tourists and a crew of five crashed today in the sea outside San Juan harbor shortly after taking off for New York. First reports said there were between 18 and 23 survivors.

The plane was piloted by Capt. John Burn, 37, husband of singing star Jane Froman, whose life he had saved in a thrilling rescue from a similar plane crash at sea in the Second World War.

Among the survivors were Burn and his four crew members. A brother of Mr. Brendan O'Grady, Professor of English at Saint Dunstan's University has been flying as Co-pilot for Captain Burn during the past six or seven months. He was not aboard the stricken plane yesterday.

Coast Guard seaplanes searched that area of the blue Caribbean after dropping life rafts. One plane landed on the water and sent out boats to pick up survivors while three others circled overhead to direct operations.

At least 14 dead were recovered and rescuers continued to bring in more bodies and survivors. Other members of the crew were officer William Thomas Hutchins, 30, of Peckville, Pa.; Third Officer Jack R. Laubach, 34, of Bloomsburg, Pa.; and Purser Alford Perez, 37, of New York.

Huge New Uranium Plant Planned In The U.S.A.

WASHINGTON, April 11 — (AP) — The Atomic Energy Commission announced today it is planning a new \$1,000,000,000 plant to produce uranium-235, a key atomic substance in war or peace.

Sites in the Ohio River valley are being studied, it said. The plant will require about 6,000 acres of land, the A.E.C. said, will need about 4,500 operating workers and will cost 1,800,000 kilowatts of power when running at capacity.

This major development in the United States' Atomic Energy program is included in expansion of plans now being drafted by the A.E.C. for submission to Congress. President Truman has said a five-year expansion to cost somewhere around \$5,000,000,000 is in the works.

A. E. C. said the new plant will process "gaseous diffusion" uranium for separating fissionable uranium-235 from uranium as it occurs in nature. At present the gaseous diffusion process is the only one known to be in use in the U. S.

However produced, U-235 is a key substance either for making bombs or for powering atomic engines and devices used in producing radioactive isotopes for medical and other research.

As far as is known, it is still needed to help "trigger" the more powerful hydrogen bomb now under development.

If Congress approves the new project, it will take from 3 1/2 to five years to build the plant.

Unemployment And Labor Shortage Found Side By Side In Britain

LONDON, April 11 — (Reuters) — Thousands of jobs going begging while thousands of textile workers are idle — that is Britain's employment position today.

Labor Ministry returns show that in Lancashire's cotton textile industry more than 100,000 workers — one-third of the industry's total labor force — were working short time or were wholly unemployed this week because of the world-wide slump in demand for textiles.

Many thousands of workers in Yorkshire's textile industry are wholly or partly out of work for the same reason.

Yet there are 250,000 job vacancies in the engineering, aircraft and other industries further south, in the Midlands and elsewhere.

A large part of these vacancies are for skilled workers badly needed for defence contracts. Most of the textile workers have grown up in the mill towns and do not want to move away. They hope to ride out the slump.

News In Brief

- WASHINGTON, April 11 — (AP) — Phil Murray's C.I.O. Steelworkers' Union brandished a new strike threat tonight over the seized steel industry as government contract talks were recessed until Monday.
- MUNSA, April 11 — (Saturday) — (AP) — Allied negotiators looked to the Communists today for the next move towards a Korean armistice. They expressed the opinion that the Red delegates might be awaiting instructions from higher authorities.
- VICTORIA, B. C. April 11 — (CP) — A light earthquake shock was felt in Victoria today. Many residents here felt the shock, but no damage was reported. Other districts on Lower Vancouver Island and the Gulf Islands reported the tremor.
- NEW YORK, April 11 — (AP) — Western Union said today there has been a "mass return" of its striking employees and that telephone service is now restored in 37 cities and towns. These points originally 95 per cent of the country's telegraph service, the company said.

Little For P.E.I. Under Marshland Rehabilitation

OTTAWA, April 10 — (Special) — J. Angus MacLean, Joint Conservative member for Queen's, filed a question with the House of Commons today asking: "What projects are being carried on in Prince Edward Island under the Maritime Marshland Rehabilitation Act?"

He further asks how much has been spent by the Federal Government on each project to date. Answers are expected on Monday, April 21.

It is expected that replies to Mr. MacLean's questions will reveal the extremely small share of marshland rehabilitation that has been carried out in Prince Edward Island as compared with works completed and in progress in both Nova Scotia and New Brunswick.

This year, the Federal Department of Agriculture will spend a total of \$1,655,520 under the Maritime Marshland Rehabilitation Act, an increase of \$446,720 over 1951-52. Of the total, \$10,000,000 is devoted to the acquisition of land and buildings, the balance being allocated to salaries, materials and general expenses.

In 1951-52, the Department spent \$882,808 in marshland rehabilitation in the Maritimes, with \$624,000 assigned to acquisition of lands and buildings.

House Of Windsor Name Perpetuated

LONDON, April 11 — (Reuters) — The Queen today perpetuated the House of Windsor as the ruling family of Britain.

An announcement in the official London Gazette said she will retain the name of Windsor, instead of using Mountbatten, her marriage name. Her children, too, will be Windsors.

The Windsor family — though not the name — is traced back to Egbert, King of Wessex, who died in 838.

Cyril F. Hankinson, editor of the authoritative Debrett's Peerage, said tonight this is the first time a British monarch had perpetuated a dynasty by this means, although proclamations had been used to end them.

Boston Vice Consul Notes Remarkable Record For PEI

OTTAWA, April 11 — (Special) — Prince Edward Island tops all provinces of Canada in exports of farm produce to New England, according to figures assembled by Roger R. Parliour, Canadian Vice-Consul at Boston, and published in the magazine "Foreign Trade" issued this week-end.

In 1951, shipments to New England points totalled 914 carlots compared to New Brunswick with 317; British Columbia with 59 and Nova Scotia with 27.

Of the total Canadian vegetable and fruit exports to New England, Prince Edward Island shipped 333 carlots of potatoes, the bulk arriving by rail and the balance by truck.

"Particularly Popular" — Of potato sales in New England, Mr. Parliour writes: "Canadian potatoes seem certain to continue in demand in New England because of their competitive price and good quality. The distinctive reddish tinge of the Prince Edward Island potatoes has proved particularly popular with New England consumers."

Upwards of 90 per cent of the turnips arriving at the Boston market in 1951 were from Prince Edward Island and the preference for this type of turnip remains strong, the vice-consul writes. Of turnip shipments, 537 reached Boston by rail and 38 by truck.

As to fruit shipments, strawberries are making their way from P. E. I. and New Brunswick to New England points after the harvests in New England itself and southern points are over.

Forsees Expansion — Mr. Parliour says that undoubtedly sales to New England of many varieties of Canadian farm products can be expanded. He reminds shippers that they must be prepared to meet the high standards of their competitors in many parts of the United States if they are to command favorable prices. This involves careful packing, sorting, and shipping so that the goods reach their market in perfect condition.

He adds the significant sentence: "Because many perishable fruits and vegetables are normally shipped to New England markets on consignment, it is in the best interests of the Canadian shipper to supply a top-quality product which will command premium prices and enhance the good reputation of Canadian agriculture."

Major Ice Movement Is Forecast

A major ice movement from the vicinity of this Province maybe experienced if last night's forecast of a northwest wind holds true, Captain Charles A. Shaw, observer of the aerial ice patrol said last night.

A steady wind from this direction has been long awaited, and if it develops will push countless tons of ice from the eastern shoreline of this Island into the Cabot Strait.

Recent patrols have noted little change in ice conditions in the surrounding area, and if this wind originates it will provide the first major change in the overall picture.

Thursday's flight took them from their base down the steamer track back to Cape Ray and then over to the eastern coast of Cape Breton. The crew were in the air for approximately 5 hours and 30 minutes and covered roughly 750 miles.

Two Companies Reduce Tire Prices

TORONTO, April 11 — (CP) — Reductions in tire prices of from 12 to 15 per cent were announced Thursday by Goodyear Tire and Rubber Co. of Canada, and Firestone Tire and Rubber Co. The companies announced they not only passed along the budget tax cut but made further reductions of five to seven per cent.

Five Million Dollar Increase In P. E. I. Farm Cash Income

OTTAWA, April 11 — (CP) — Canada's farmers hauled in a peak cash income of \$2,825,000,000 during the calendar year 1951, the Bureau of Statistics reported today.

At the same time it reported a sharp drop in farm prices during February which may lead to a decline in farm income for the year if the trend continues.

All provinces showed increases over 1950, with Ontario leading the money parade with \$793,700,000, up from \$693,700,000. Cash income by other provinces with 1950 totals in brackets: New Brunswick \$49,400,000 (\$46,900,000); Nova Scotia \$45,200,000 (\$39,400,000); Prince Edward Island \$28,800,000 (\$21,800,000); Saskatchewan \$628,800,000 (\$408,300,000); Alberta \$470,400,000 (\$368,000,000); Quebec \$433,400,000 (\$361,000,000); Manitoba, \$26,700,000 (\$19,400,000); British Columbia \$119,300,000 (\$100,300,000). Figures for Newfoundland were not included.

Missouri River Flood Sets All-Time Record

OMAHA, Neb., April 11 — (AP) — A crushing, rolling mass of Missouri River water, fresh from a smashing assault on South Dakota's capital City of Pierre, pointed tonight toward Sioux City, Ia., its next big target.

Farther downstream, in the heavily-populated Omaha-Council Bluffs metropolitan area of Iowa, revised estimates promised a monstrous 30-foot crest next Thursday.

Claim Rebellion In Bolivia Is Success

LA PAZ, Bolivia, April 11 — (AP) — The bloody revolt that started at dawn Wednesday in this two-mile-high tip capital was proclaimed a success today by Hernan Siles, civilian rebel chief. He said he will form a new government.

Rebel forces storming El Alto airbase reported they dealt a decisive defeat to government troops. The rebels began their march up a winding mountain road to the airport Thursday morning and were in control of the base five hours later.

Before the fall of El Alto, cadets from the Bolivian Military Academy entered the city in an effort to wipe out rebel strong-points but were met with tenacious resistance.

Montreal Native Says 110 Years Old

WISCONSIN RAPIDS, Wis., April 11 — (AP) — "Uncle Mike" O'Connor, a native of Montreal, is 110 today and he isn't quite the man he used to be.

No more daily trips downtown to sell his home-made leather belts and suspenders the way he did when he was 100. No more swinging Indian clubs and taking ice-cold showers the way he did at 105. And no more walking from one wing of the Wood County Infirmary to the other as he did at 109.

Today's he's content to be able to walk from his bed to his chair and back with the aid of a cane. Uncle Mike has lived at the infirmary for the last two decades. Records at Traverse City, Mich., show that he gave his age as 37 when he was married there in 1890.

Ice Blocks Ship From Montreal

MONTREAL, April 11 — (CP) — The fast Norwegian motorship Thorsgaard failed today in a bold bid to be the first ocean-going vessel to reach Montreal when rough ice conditions forced her to return to Quebec City.

The Thorsgaard, favorite in the annual race to reach this port, slipped at Quebec City at 5:30 a.m. EST today and got as far as Grondines, 41 miles from her goal, before being forced to turn back.

Meantime, moving up the St. Lawrence toward Quebec City are the Canadian Pacific Steamers the freighter Beaverford, the British freighter Manchester Merchant and the Dutch Prism Willem Van Oranje.

Britons Spend Less Gambling

LONDON, April 11 — (AP) — Britons cut down their gambling by an estimated \$50,000,000 last year.

The churches committee on gambling estimated today Britain's British hopefuls invested \$600,000,000 on horse and dog tracks, football pools and fun fairs in 1951.

There was a sharp decrease in horse and dog betting but money invested in football pools rose by \$5,000,000. Horse race betting was down \$25,000,000 and dog tracks wagering was off by the same amount.

Need To Switch Jobs

Government officials say that if Britain is to fulfill her rearmament program and produce more of the heavy engineering and other capital goods needed for export, some means of inducing workers to switch their jobs has to be found.

The shortage of skilled labor has created a "surplus" of unskilled labor. If more skilled workers could be found, their work could produce employment for many more unskilled workers in the same factories.

As one means of overcoming this, the government is expanding its training facilities for engineering workers and cutting down training in other trades.

Find Natural Gas In Antigonish

HALIFAX, April 11 — Discovery of natural gas in Antigonish County, which could well be followed by the discovery of oil, was announced Thursday by the Nova Scotia Department of Trade and Industry.

The announcement came from Professor D. J. McNeil, geologist in charge of drilling operations in connection with salt and limestone deposits at South Side, Antigonish Harbor, about 10 miles from the town of Antigonish.

Although he termed the find "encouraging," he warned against undue optimism as the discovery may not be of commercial significance.

Index Drops

The bureau estimated that during February, the index for farm prices of agricultural products dropped 11.6 points to 272.4 from 284.0 in January and 12.8 points from 285.2 in February, 1951.

Lower prices in the index, based on 1935-39 prices, equalling 100, were noted for livestock, poultry, eggs and potatoes.

During 1951, with the world demand for Canadian grain brisk and with the United States markets for Newfoundland were not included.

High Tide Today at Charlottetown

High tide today at Charlottetown at 12:13 A. M. and 11:46 A. M. High tide on the North Shore at 6:34 A. M. and 7:31 P. M. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 5:34 A. M. and sets at 6:54 P. M.
