The Telephone Company

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

- 1st. Speak with the mouth about four inches from the transmitter.
- 2nd. Speak in a moderate tone of voice, not too loud and distinctly.
- 3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.
- 4th. It is possible to talk and be heard when standing back two or three feet from the transmitter, if you speak loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
