## Wants Mature Criticisms Used

TORONTO (CP)—The director of the Canada Council told a graduating class of music students Thursday to "develop a proper understanding and appreciation of the function of criticism."

Dr. A. W. Trueman, who delivered the convocation address at the graduation exercises of the Royal Conservatory of Music said:

"It appears to me that a desirable development in this country would be the rise of legitimate and mature criticism. . . . We need professional critics of high standing in greater numbers and we need, of course, a developed discrimination on the part of the general public."

Mr. Trueman, former head of the National Film Board and onetime president of the University of New Brunswick, told the students that in their capacity as music leaders in their communities they should "create a more discriminating taste in musical circles."

## R.C.N. Excells In The Arctic

OTTAWA (CP) — Rear - Admiral Roy Gano, commander of a United States military air transportation service task force has credited a radio communications team of the Royal Canadian Navy with providing "the best communications yet experienced in the Arctic" during the 1957 DEW Line supply operation.

Naval headquarters said Thursday the 10-man team, headed by Lieut. H.C. Clark of Vancouver operated a radio station at Frobisher, Baffin Is., from July 1 to Oct. 15.

The navy established the temporary station to facilitate communications while the annual seaborne supply of Eastern Arctic DEW line sites was in progress.

It had been found in previous years that ships operating in this area frequently had difficulty in getting messages cleared, although they were able to receive messages from mainland stations.

The message was received from the U.S. admiral shortly before the station was closed down when the supply operation was completed.

## Seek Quebec Liberal Leader

QUEBEC (CP)—A general convention of the Quebec Liberal Federation, for the purpose of reorganizing the party and naming a leader, was announced Thursday.

The convention will be held in Quebec City next March 21 22. It will be the first Quebec provincial convention since 1950.

The announcement was made by Georges Lapalme, provincial leader since that year, who declined to state if he will be a candidate again.

"I have nothing to say," was his only comment when the direct question was asked by newspaper men following the announcement in his office in the legislature buildings.

In his brief announcement he said the convention will deal with the provincial leadership, with a party program and reorganization.

Later in the legislative assembly, Premier Duplessis said he hopes Mr. Lapalme will be confirmed in his post as Liberal chief.

## DAILY MARKET QUOTATIONS

### SUMMARY

**Toronto**—Market lower in light trading.

**Montreal**—Market moved down in moderate trading.

**New York**—Market lower; steel and rails give ground.

## CURRENCIES

MONTREAL (CP) — The U.S. dollar Monday closed at a discount of 3⅞ per cent in terms of Canadian funds, unchanged. Pound sterling $2.69½, up 1-16.

## TORONTO

TORONTO (CP) — The stock market drifted lower Monday amid light trading, much of which was profit-taking.

The base metals index eased two points. Western oils lost a point on index and golds were down nearly as much.

Financial institutions were strong among industrials following the one-half per cent reduction to six per cent in interest rates by the Industrial Development Bank of Canada.

A number of key stocks lost as much as two points for profit appeared after the sharp rise Friday.

International Nickel lost three points among senior base metals but most interest among mines was centred around uraniums, which absorbed some stiff losses. Gunnar was off 1¼ at 13¼ while several lower-priced issues moved down in a 35-cent range.

Western oils had more losses than gains but price changes were narrow in most cases. Trading in this section was extremely dull.

Index losses: Industrials 2.60 to 403.27; golds .96 to 69.30; base metals 2.01 to 153.30; western oils 1.07 to 130.99.
