

SANG FOR NORTH MILTON

Their rendition of "Early One Morning" as arranged by Diack followed by a selection of their own choice won first place in Class 35, with a score of 86 for

these eight ladies representing North Milton Women's Institute. **FRONT**, left to right, Mrs. Chester Matheson, Mrs. Harvey Coles, Mrs. Gordon Rodd, Mrs. Garth

Hooper; **BACK**, Mrs. Preston Neill, Mrs. Alton Rodd, Mrs. Clifford Chandler, and Mrs. Eric Laird. The ladies were trained and directed by Mr. Raoul Raymond.

Economic Recession Begins To Hit The Convention Trade

VANCOUVER (CP) — Business men say the convention trade is feeling the pinch of Canada's current economic recession. They note the fate of a convention which was to have gathered leaders of industry from across Western Canada and the Western United States to Vancouver this week to discuss industrial science, especially as related to creation of new products and industries. The fourth Western Area Development Conference sponsored by the Stanford Research Institute of Menlo Park, Calif., later was cancelled because a minimum attendance could not be mustered. Organizers hoped there would be 300 businessmen here for the meeting but could not even get the minimum of 100. **CUT DOWN EXPENSES** W. C. Mainwaring and J. C. Ingram of Western Development and Power Limited here, who

were making many of the conference arrangements, say the main reason for the disappointing number of registrations is the fact that big companies are cutting down on convention expenses. Among subjects on the agenda were: New products for wood, the industrial outlook for rare metals, electronics in industry, the petrochemical industry in western Canada and peaceful use of atomic energy. Manager Tom Cox of the Vancouver Convention Bureau says the cutback in convention expenditure is evident in a decline in party-giving rather than in reduced attendance. Delegates tend to arrive at the opening of business and leave as soon as it is finished, he said. Mr. Cox sums up the general trend as a move back to the educational and business side of convention activities.

Little Rock Graduates Negro

By KEITH FULLER
LITTLE ROCK, Ark. (AP)—To the strains of a solemn march, 650 Central High School seniors will file across the football field next week to receive their diploma. For the first time, one of them will be a Negro. His presence will represent integration in Little Rock. U.S. troops and an expenditure of nearly \$5,000,000 went into that accomplishment. The graduation exercise will unfold in the stadium where the 101st Airborne Infantry had field headquarters when it guarded the presence of nine Negroes at the school last fall. Today, only a few national

guardsmen loiter about the school. To the delight of the guardsmen, their "baby-sitting" job will end May 29 when school closes for the summer. The long unanswered question is whether they, or men like them, will be needed again next fall to guarantee the safety of Negro students. **MAY GET ANSWER** A federal court judge may answer the question summarily when he rules on the school board's petition to have its gradual integration plan postponed until 1961. His ruling may come June 3. If the court holds that integration — launched last fall with fights, tension and racial hatred — should proceed, the seven remaining Negro students say they will go back. President Eisenhower said the troops would return only if circumstances forced

Shutdown At Liverpool Off

LIVERPOOL, N.S. (CP)—President B. J. Waters of the Mersey Paper Company said Thursday a one-week shutdown of the company's mill here, announced earlier, now is unlikely. Mr. Waters said resumption of shipments and manufacturing schedules and additional orders "will likely require the paper machines to operate at capacity during the period in which the original shutdown had been scheduled. The company announced earlier Thursday suspension of operations from June 30 to July 7 because of a decline in newsprint consumption. Mersey is a member of the Bowater International Pulp and Paper Organization.

GET U.S. HELP
BONN (Reuters) — The ministerial council of Euratom has agreed in principle to accept an American loan to buy American reactors and American help in a research program by the European agency, a West German atomic ministry spokesman said Tuesday.
