VISIBLE EVIDENCES OF A WARM SPELL ON THE PLANET.

An Extensive Thaw Observed Which Indicates a Summer Season in the Southern Hemisphere of Our Neighboring World—The Fun of Astronomers.

Among the most interesting observations of Mars during the recent opposition were those relating to the gradual disappearance of the snow cap crowning its southern pole.

It is probable, however, that at its minimum the snow cap was exceedingly small, perhaps only a few hundred miles in diameter.

TUSITALA

In Samoa where ships go by they laid these in their tracks, high, into the star of morning light, Tusitala.

They looked to windward and to leeward, over the warm south and the sea, they saw none other like to these, Tusitala.

Ever those simple hearts that ache shall love their mountain for thy sake, dear dust the North can never take, Tusitala.

Soft with that fragrant smothering blend Our Prince of Beauty, and their friend! There was thy course, and sweet thine end, Tusitala.

His From Edmund Russell. All artistic desire should be related to the body. The correct posture is a straight line from the front to the back, chest up, stomach down, in the line of youth, beauty and health.

Have perfect freedom for the neck; it is to look to look choiced to feel choked. An ugly neck will look wrinkles, gain in grace and expression if emancipated from the collar and given a chance to redeem the past.

Clothes should touch the body as lightly as possible. In Oriental dress, as a cleave, a woman may wear a dress every part of the body under one arm, a cup of tea in her hand and play an accordion on the way.

Women have brought forth their position upon going without corsets and op- pressing them grossly. The object of having off corsets is to remove pressure and to have a healthy and expressive body. There are best-supporting vests which assist this freedom and grace.

Nearly all belts are commonplace and ugly. They contradict all graceful curves and expression of the body. Wide, crumpled scarves, heavy shawls, and heavy jackets are all to be avoided. In artistic dress every horizontal line helps, every vertical line hurts.

The voluminous puffed sleeves are perfectly good for style, but bad for beauty and personality; they efface the shoulder line, one of the most beautiful lines of the body. Beautiful dresses should rise above the commonplace terms "styles" or mere "fashion."

A Canadian climber, the physanthus alba, has received the name of "crucial plant" for its treatment of butterflies. It flowers in the month of August and the butterflies, attracted by the perfume, deposit their eggs on its leaves. The plant pushes its trunk into the ground to slip the honey. A pair of sensitive vegetable pliers in the heart of the flower grips the delicate proboscis, and in spite of struggles to get free the butterfly hangs suspended until it dies. Apparently the plant is nothing but a gift to the death of insects, as it is said, "crucifixion" like the Venus fly-trap. In fact, if the butterflies were allowed to come and go it would tend to foster the species, but the plant is not so kind.

Another way of preventing ink stains is to immediately wash the stained article in warm water and then in milk, letting it soak in the milk for several hours. Another manner of removing all ordinary ink stains is to wash the article immediately in vinegar and water and then in soap and water. No matter what is used for removing ink, the stain must be rubbed well.

Cycling Froverbs. Politeness is like a pneumatic tire, as it cases many a jolt in the journey of life.

The world, like a bicycle, would soon come to a stop, if it were not for the cranks.

Our lives are like roads. Some are smooth and even from beginning to end, and some are all ups and downs.

A pleasant disposition, like the oil in a bicycle, reduces friction and prevents a world of wear and tear.

Photographic Color Printing. According to the Photographic Times the most successful recent attempts at photographic color printing by the chromo-albumen process, require three negatives. One of these is a photograph of all the red, another of all the yellow, and a third of all the blue-violet. In the colored plate or object to be photographed. Plates are made from these photographs, and they are printed so as to recombine the colors and form a fac-simile of the original.

Not Usually Considered Upon. Substances liable to explosion are, as it were, says Professor C. A. Mitchell, in a state of unstable equilibrium and often a slight cause is sufficient to disturb that equilibrium that a fresh arrangement of the particles takes place—in other words, an explosion.

Broken in Health

That Tired Feeling, Constipation and Pain in the Back

Appetite and Health Restored by Hood's Sarsaparilla.

Mr. Charles Steele. His Catarrh, Ont.

"I had a general tired feeling, shortness of breath, pain in the back, and constipation. I could get only little rest at night on account of the pain and had no appetite whatever. I was tired in my limbs that I gave out before half the day was gone. I tried a great number of medicines but did not get any permanent relief from any source until, upon recommendation of a friend, I purchased a bottle of Hood's Sarsaparilla, which made me feel better at once. I have continued its use, having taken two bottles, and I feel like a new man."

I had a good appetite, felt as strong as ever I did, and enjoy perfect rest at night. I have no more pain in my back, and my health is restored. I am now in the best of health, and I feel like a new man. Hood's Sarsaparilla, with Eric's Sarsaparilla, is the best medicine I have ever used. Hood's Pills are prompt and efficient, yet easy to take. Sold by all druggists, etc.
