

Cleartone HEARING AID

Here is the ultimate in hearing aid design and engineering. The Cleartone "700" is the closest approach yet to hearing aid perfection. It is the smallest hearing aid ever produced to capture the power of a 22½ volt battery. You'll be amazed to see how very small it is—smaller than ever before thought possible. You will appreciate the clearness and extra power designed to aid the most difficult cases. Now you can hear sounds more clearly . . . without distortion . . . without strain. Now you can wear your hearing aid hour after hour easily, comfortably . . . without fatigue. Match the Cleartone "700" with any hearing aid available today. Put them all to the same tests. You'll agree that the Cleartone "700" outperforms them all.

We carry most all sizes of Batteries and repair most aids. Please send make of Aid and number of Battery when ordering.

Welcome Party

A very enjoyable evening was spent recently at the home of Mr. and Mrs. John Smith, Miminegash, when eighteen of the neighbours gathered to extend a welcome to Mr. and Mrs. Alfred Smith and their children who had arrived recently from Reading, England, to make their future home in this community.

Mrs. Smith at once proved herself a very gracious hostess and she and her husband had many interesting instances to relate concerning their trip from England to Canada which, due to poor weather, took ten days.

An address was read by Mrs. Keir Murray and presentation of an all-wool blanket, on behalf of those present was made by Miss Ivy Costain.

Mr. and Mrs. Smith expressed their pleasure for this opportunity to meet their neighbors and graciously thanked all present.

An enjoyable lunch was served by the ladies and the party was brought to a close by singing "For They Are Jolly Good Fellows," and wishing Mr. and Mrs. Smith happiness and success.

GUILDFORD, England—(CP)—Police of this Surrey town didn't think it was funny when somebody reported a collision at the railway station. Fire engines, police cars and ambulances sped to the scene to find everything normal, but no sign of the practical joker.
