

# Hockey Battles Soon

Commissioner Vince Mulligan of the I.B.H.L. has announced that the upcoming ball hockey season is fast approaching and any team which would like to enter please contact Mr. Mulligan before March 17th at 3:00 p.m.

It looks to be an interesting season again as the Marion Hall team looks to defend its title which it stole from the Eagles

last year. The Eagles seem confident this year because of the rumors that most of the Marion Hall team has moved into Bernadine Hall and thus will not be able to play because it interferes with their knitting and sewing classes.

Many of the intramural hockey teams are expected to enter this years tournament which would help to make the whole

league a lot better. Korakin under the direction of Francis McCarville, is also expected to field a team. They should be able to field a team now that the potato season is over. Let us not forget Tony Carrol and his troupes. It has been said that last year Tony fell on the ice during one of the games. Nobody said anything, but the ice made some awful cracks.

Remember entries must be in before 3:00 p.m. on March 17 and brought into the Gym for Mr. Mulligan. The draw will be announced later in the week with play commencing March 23.

## Biology

### Conference

#### Held

by John Gallant

The thirteenth annual Atlantic Universities Undergraduate Biology Conference was held at UPEI on March 6, 7, & 8.

Ninety undergraduate students and professors from around the Maritimes attended the proceedings which saw the presentation of nineteen papers. Friday evening was registration and a reception in the Barn. Saturday was a busy day, with thirteen papers being presented, along with a very interesting lecture delivered by Dr. Kenneth Mann, director of the Marine Ecology Laboratory at the Bedford Institute of Oceanography. Saturday evening a dinner/dance was held and a good time was had by all.

Sunday morning six more papers were delivered and the prize for best paper was presented to Brad Munt of Mount Allison U.

Kevin Cash (Acadia), Donna Scott (Mount Allison), and Mary Doyle (St F.X.) received honorable mention from APICS for their papers.

Allan Miller, from our own department of Biology delivered a paper on Forest Fertilization on PEI. We commend him for a job well done.

The conference was a big success. The members of the organizing committee wish to acknowledge the support and assistance of Beaver Foods who provided the catering services, the maintenance staff for helping us get ready for our guests, the audiovisual department who set up and fixed up our equipment and the Student Union for providing the Barn. Thank you all very much.

Next year's conference will be held at St. F.X. and we wish them all the best.

Biology Club of UPEI

WE'D  
LIKE TO  
SEE YOU  
AFTER  
SCHOOL.

**B**ecause we want to tell you about Our Bank's Professional Graduate Loan Plan. It's a special Commerce loan to help you get your career started. We know how important it is to you to have a sound group of financial services to meet your professional and personal needs. There's a Commerce Professional Graduate Loan Plan for graduating

students going into the practice of Medicine, Dentistry, Chiropractic, Optometry, Law, Architecture, Chartered Accountancy, Veterinary Medicine, and many other professions.

So stop in to Our Bank soon. We'll welcome you at more branches than any other bank in Canada. And we can help you finance your future.
