NEW YORK

NEW YORK (AP)—The stock market beat a reluctant retreat Tuesday, giving ground stubbornly following its sharp advance recently into high ground for the year.

While most big industrial stocks were clipped for moderate losses generally, the aircrafts bucked the trend. Assorted drugs, photographic issues and tobaccos also went forward. Utilities were fairly steady.

Some of the second quarter earnings were down sharply, especially among the oils which were mostly lower. Stee's, nonferrous metals, rubbers, chemicals and rails also declined.

The Associated Press average of 60 stocks dropped $1.00 to $182.10 with the industrials down $1.80, the rails down 70 cents and the 7tilities off 10 cents.

McIntyre Porcupine, up ⅛, was the single gainer among Canadian stocks on the New York Exchange. International Nickel dropped 1⅝, Hudson Bay Mining ⅝, Canadian Pacific, Dome Mine and Granby Mining each lost ¼, Distillers-Seagrams and Walker-Gooderham each lost ⅛. Aluminium Ltd. was unchanged.

There was little movement among Canadian issues on the American Exchange. Preston East Dome gained ⅛, Fargo Oil lost ⅛. Scurry - Rainbow Oil gained 1-16, Richwell lost 1-16.

TORONTO

TORONTO (CP) — The stock market reversed itself Tuesday after scoring substantial gains in all sections Monday. Trading was at its second slowest pace this month.

Base metals were down nearly one-half and western oils more than one-half. Golds, ahead until the last 30 minutes of trading, dipped a few decimal points.

Golds were narrowly ahead until the close when Dome dipped ¼ at 14½ and Giant Yellowknife lost 25 cents $5.60.

Senior, the big winners Monday when base metals advanced more than two index points, eased today in the face of profit-taking.

Hudson Bay Mining was off 1⅛ at 50 on a combination of two reports. The company said its half-yearly earnings were down 48 per cent from a corresponding period last year and Hudson Bay was name d as a participant in a price war in 1955. A report of the Restrictive Trade practices Commissio n,published in Ottawa today, named the company as a party to a price war aimed at monopolizing manufacture of sinc oxide in Canada.

Western oils were caught in profit-taking that usually hits the section following a gain. Most losses wece fractional.

Index losses: Golds .15 to 8273; base metals .93 to 162.04; western oils .69 to 138.91.

GM Reports 30 PC Profits Cut

NEW YORK (AP) — General Motors Corp., biggest of the world's automotive giants, Tuesday reported a 30-per-cent decline from a year ago in profits for the first six months of 1958.

Net income for the six months ended June 30 was $333,514,249, equal to $1.17 a share. This compared with $481,236,708 of $1.71 a share in the first half of last year.

Sales of GM products for the six months totalled $5,121,261,436 —down 13 per cent from the year-ago total of $5,914,464,073.

Harlow H. Curtice, GM president, and Albert Bradley, chairman, said the decline in sales was relatively less than that of the U.S. auto industry as a whole. They predicted a marked increase in auto output during the fall and early winter.

Begin Contempt Proceedings Against Bernard Goldfine

WASHINGTON (AP) — Contempt of Congress proceedings were launched Tuesday against Sherman Adams' good friend Bernard Goldfine.

A House of Representatives subcommittee recommended unanimously that Goldfine be cited for contempt because of his refusal to answer 23 questions about his financial dealings.

Declaring the subcommittee had an ironclad case against the Boston textile and real estate magnate, Democratic Representative Peter Mack of Illinois predicted the House will issue a contempt citation before Congress adjourns next month. A legal question would arise if no action were taken at this session.

NO WORD ON DEALS

The 67-year-old Goldfine was called before the subcommittee after it was disclosed that Adams, President Eisenhower's chief White House aide, had accepted expensive favors from him. Adams has denied he used influence to get preferential treatment for his friend in cases before the Federal Trade Commission and the Securities and Exchange Commission.

Goldfine answered many questions but balked at telling the investigators about dealings with Boston real estate companies in which he has a majority interest. Surrounded and advised by a squad of lawyers, Goldfine contended the questions were irrevelant.

He maintained they had nothing to do with the subcommittee's inquiry into whether improper pressure had been applied on federal agencies.

In Boston, lawyers for Goldfine issued a statement saying:

"No citizen has any obligation to reveal all the aspects of his personal life for the entertainment of a congressional committee or the public."

COULD BE JAILED

Conviction for contempt of Congress can be punished by a maximum of a year's imprisonment and a $1,000 fine.

But a long legal road has to be travelled first. The full House commerce committee must approve the subcommittee's recommendation and the House must endorse it. Then it is up to the justice department to decide whether a prosecution is justified.

Democratic Representative Oren Harris of Arkansas, subcommittee chairman, said the House would have to act quickly to dispose of the case before adjournment. The commerce committee which Harris also heads may meet today to consider it.

MAKE DEAL WITH CHINA

TORONTO (CP) — A Toronto firm, Sharpe Instruments Limited, announced Tuesday it has closed a deal to supply Communist China with $50,000 worth of Geophysical instruments for mining exploration. President Edgar J. Sharpe said the order was made by the state-operated China National Instruments Import Corporation. "This is an initial order —I have been assured there will be others."
