NEW YORK

NEW YORK (AP) — Cross trends prevailed on the New York Stock Exchange Monday. Declines outnumbered advances but popular averages made historic peaks.

The rise in the averages was accounted for by strength in a scattering of key stocks. Dy Pont rose 5.

United Aircraft, another pivotal issue, advanced 1⅜ following a report it has developed a new rocket propellant.

A number of other blue chips held firm or posted small gains while among the so-called highflyers there were some wide gains and losses. Xerox ran up 11¼. Polaroid fell 7¾.

The Dow Jones industrial average rose 1.71 to close at another record of 732.31. Standard and Poor's 500-stock index gained .06 at 73.38, another new high.

The Associated Press average of 60 stocks rose .4 at 281.3.

Volume was 5,460,000 shares compared with 5,840,000 Friday.

Sperry Rand was the most active stock, up 1¼ at 18⅜ on 157,700 shares. Second was American Tobacco, up ⅜ at 26⅝ on 147,900 shares—of which 120,000 shares came from a single block. The company reported record earnings.

Radio Corp., bathed in glowing reports about sales of color television sets, was third most active, up 4 at 91 on 119,000 shares. It paced a rally by other TV-set producers. Motorola rose 3⅝, Magnavox 1¾ and Zenith 1⅝.

Control Data was off ½. The company said it has acquired the systems division of Daystrom Inc.

Among Canadian issues traded, Aluminium Ltd. fell ⅛, Distillers Seagrams and Walker Gooderham ¼ and International Nickel ⅛. Canadian Pacific gained ⅝, Dome Mines ¼ and McIntyre Porcupine ⅜.

Prices on the American Exchange were irregularly lower. Brazilian Traction fell ⅛, Fargo Oil 1-16 and Scurry Rainbow Oil ⅜. Canadian Marconi and Canadian Javelin gained ⅛ and Jupiter Corp. ¼.

Total sales: Industrials 123,300, Mines and Oils 309,800

TORONTO

TORONTO (CP) — Profit-taking in certain key issues brought the industrial index down more than three points, but some other issues not on the index made healthy gains in light trading on the stock market Monday.

Algoma fell 1½ to 57½, Moore Corporation 1¼ to 51 and Canada Permanent Mortgage one point to 78½. Federal Grain slumped three points to 75 on 25 shares.

Banks were weaker, Montreal down ⅝ and Imperial Bank of Commerce ¼.

Major gainers were Canada Packers A, ahead 2¼ to 65, B.C. Sugar 1¾ to 44 and Beaver Lumber and Texaco one point each to 45 and 53 respectively.

Base metals softened at close of trading after making gains earlier in the day. International Nickel declined ⅞ and Falconbridge ⅝. Labrador Mining advanced ⅝.

Chimo led active speculative mines, up five cents to 95 cents on more than 87,000 shares.

In senior western oils, Great Plains slipped ¼.

On the Foreign market, Greyhound was down ½.

On index, industrials fell 3.58 to 656.45, western oils 1.04 to 121.74, base metals .47 to 211.49 and golds .35 to 86.39. Volume for the day was 2,461,000 shares compared with 2,917,000 Friday.

New Chevrolets are a lot more truck than your money bought the last time. Here are some of the things that have been done to give you more value for practically the same investment.

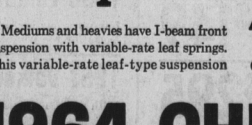
Double-wall construction. This feature of Chevrolet cabs and the Fleetside pickup body has many advantages — here are two. Insulation and sound-deadening material is sandwiched between the two layers of steel in the cab roof to give you more comfort; in the body, the inner wall acts as a buffer against load damage, preserving the outer appearance of the truck.

Other insulation includes full undercoating of the cab floor, and a thick woven cotton fibre pad for the underside of the cowl chamber.

In addition to double-wall construction, cab door openings are larger now. Getting in and out is much easier.

Suspension to fit the truck. You get a much better ride in every size Chevrolet truck today than you used to. Instead of making one type of suspension system do for the whole truck line, we now have different types and combinations of springing designed for your particular needs.

Conventional half- and three-quarter ton models have independent front suspension with variable pitch coils in the rear. Variable pitch coils do not "bottom-out" as readily.

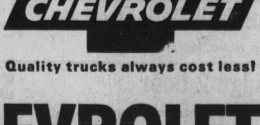


Mediums and heavies have I-beam front suspension with variable-rate leaf springs. This variable-rate leaf-type suspension automatically stiffens as the load increases — and vice versa. It means a smoother, flatter ride regardless of load, and a better handling truck.

The right engine. Chevrolet has been building truck engines since 1918 but never has it been in a better position to give you the type and size you need for

maximum efficiency. Today there are many different capacities of gasoline and diesel Chevrolet truck engines — fours, sixes, V8s.

Stronger frames. Every conventional 1964 Chevrolet truck has a ladder-type frame. Formerly used on heavier trucks only, this type is more resilient, better able

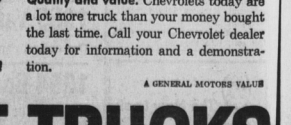


to give with the load and terrain, to stand up under stress. Its simple design also makes it easier to mount special bodies on the truck. Its riveted side rails are stronger.

Greater model selection. This time you're going to find it a simple matter to pick the exact type of Chevrolet truck for the kind of work you do. In delivery trucks, for instance, in addition to regular panels and pickups, there are eleven different sizes of ready-made walk-in vans. All have full-width rear doors as an option.

There are also the Corvair 95 vans with the air-cooled engine in the rear. And the Corvair 95 Rampside with its exclusive side-loading feature. These trucks have more power this year.

Have you seen the '64 El Camino deluxe pickup yet? We think it's the best looking commercial vehicle ever built.



In the medium- and heavy-duty area there are tilt cabs, low-cab-forward and conventional cab units to suit almost any requirement—including school bus bodies of up to 66 passenger capacity.

Dump truck operators now can order a Chevrolet tandem with either gasoline or diesel power.

up down—330 times a minute

Why up and down? Less wear and tear on clothes. Only a Frigidaire Washer's agitator works this way. *All* Frigidaire Washers work up and down. Not sideways.

Why *not* sideways? Because sideways agitators wash by dragging clothes through the water. Back and forth. Back and forth. Too many pulled threads.

Up and down is kinder to your clothes. Safer. Instead of dragging clothes through the water, the Frigidaire agitator *pumps sudsy water through the clothes.* Keeps clothes entirely underwater too. Always circulating. Never letting them ride up.

And it works. Give even the heaviest, dirtiest denims 6600 ups and downs and they come thoroughly clean. But that's easy. The real test is with your dainty things. They don't take kindly to backs and forths. But they come clean *gently* with ups and downs. No drag. Anything you can put in water can be washed in the Frigidaire up-down Washer.

More *facts*: You can use liquid *or* powder washing aids. You can spin water out fast when washing's done, leaving clothes barely damp and saving drying time. Still more facts? See your Frigidaire Washer dealer. See his matching dryers, too.
