FOUR KILLED IN TRAFFIC ACCIDENT

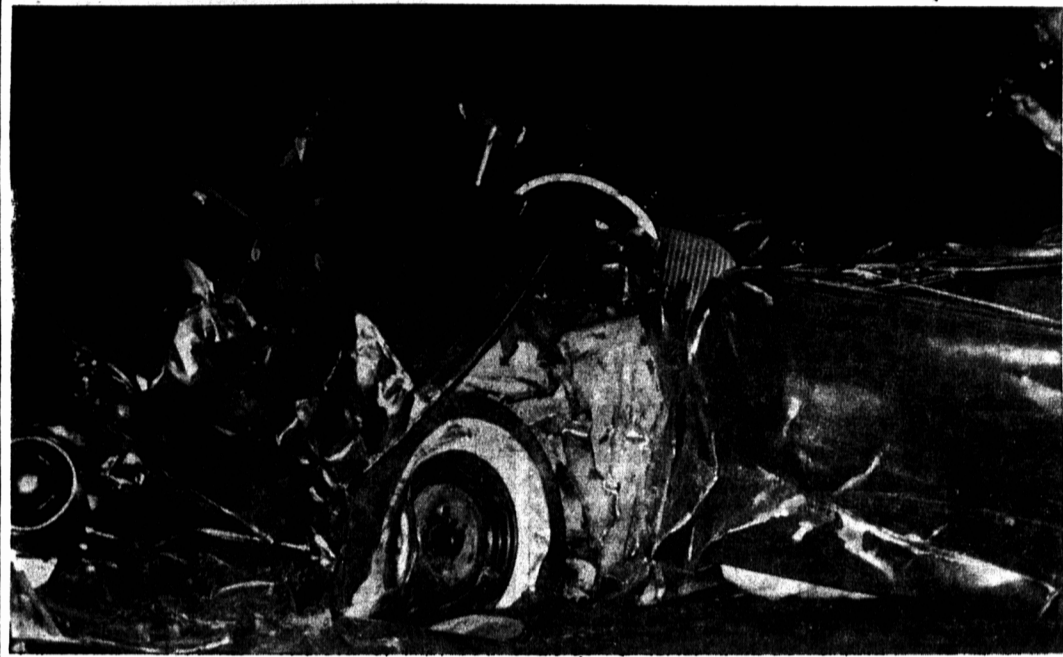

Hurricane Connie Is Poised Off The Carolina Coast

HATTERAS, N.C. (AP) — Hurricane Connie, a mighty threat to the Carolina coast and the rest of the eastern seaboard, drifted just offshore Wednesday night. A 9:30 p.m. EDT (10:30 p.m. ADT) weather bureau bulletin placed the centre of the big tropical storm 190 miles southeast of Myrtle Beach, S.C., the vacation spot where last year's hurricane Hazel came ashore to cut a swath of destruction as far as southern Ontario. Connie was moving at only six miles an hour or less toward Myrtle Beach.

The latest weather bulletin said highest winds were estimated at 120 miles an hour. This was a drop of 15 miles from the peak estimates but small consolation to persons likely to be in the path of the big blow. Anything over 75 miles an hour is considered a hurricane.

MARKING TIME
Highest coastal winds were placed at 35 miles an hour with gusts to 40 miles. Little change is expected for the next six hours, the bureau said.

"Since the final destination of the hurricane is not yet known and since its proximity to the coastline makes it a definite threat to the coast once it starts accelerating in forward movement," the weather bureau said, "all interests from Jacksonville northward to

WRECKAGE OF CAR IN LAST NIGHT'S ACCIDENT

Pictured above is the wreckage of truck last night about a half mile west of Clyde River. Miss Betty Bernard, a passenger in the truck was killed instantly. Patrick Murray Sr., Leo Murray and 10-year-old Walter Murray were the victims in the automobile. The whole top of the car was torn off. The truck ended up on its side. The truck had a water tank used for wetting down newly laid asphalt.

Car And Truck Collide Near Clyde River

A truck and car collision about a half mile west of Clyde River on the Trans-Canada Highway last night claimed the lives of four people and sent six to the hospital with injuries.

Known dead are Betty Bernard, 15 year old daughter of Mr. and Mrs. Raymond Bernard of Hunter River, Patrick Murray, Sr., his nephew Leo Murray and Walter Murray 10 year old son of Mr. and Mrs. Patrick Murray of 59 Spring Park Road.

In the Charlottetown Hospital are Mrs. Ella Murray and her six year old daughter Margaret. Patrick Murray Jr., is in the Prince Edward Island Hospital along with three other people believed to be from the State of Maine.

The accident occurred about 10:40 last night when the Maine car said to be carrying seven adults and two children collided with a three ton water truck driven by James Bernard, brother of Betty Bernard. Details concerning the accident were vague last night but it would appear that the 1954 Ford car, bearing Maine license plates and traveling east, came in contact with one of the many piles of gravel which are on the shoulder of the Trans-Canada Highway, west of Cornwall, causing the driver to lose control.

The passenger car was completely demolished and the truck was turned over on its side. Identification of the other injured could not be made at a late hour last night.

Coroner Dr. L. E. Prowse who went to the scene of the accident, was unable to obtain positive identification of the bodies and delayed calling an inquest until 4:00 p.m. today.

The road at the scene of the accident has been newly paved and the gravel referred to had

HALIFAX, (CP) — The Dartmouth ferry commission Tuesday approved plans for eliminating car ferries from the Halifax harbor service in favor of vessels designed to handle pedestrians only.

The changeover is expected to cost more than 250,000. The commission's action follows reports of steadily declining ferry revenues since traffic began moving across the Angus L. Macdonald toll bridge linking Halifax with Dartmouth earlier this year.

Halifax Ferry Service Changes

OTTAWA, (CP) — Maj.-Gen. F. F. Worthington, federal civil defence co-ordinator, said Wednesday Canadian civil defence officials are keeping a sharp eye on the progress of hurricane Connie.

He said the course of the hurricane is being plotted carefully with the co-operation of the Dominion weather office and the United States civil defence organization.

Advance warning would be sent to communities which might conceivably be in danger.

Gen. Worthington said Canada today is better prepared to cope with a major disaster than it was at the time of hurricane Hazel last fall.

Civil Defence Keep Eye On Connie's Path

TORONTO (CP) — Mayor Nathan Phillips said Wednesday Toronto policemen have been ordered not to fire their guns except in self-defence or when a criminal is known to carry a firearm.

Mayor Phillips said Chief Constable John Chisholm has issued a directive to all Toronto policemen ordering them to "exercise the utmost care" in the use of weapons.

The move arose from an incident nine days ago in suburban East York township in which police said, two student nurses died after police wounded the driver of a stolen auto, sending the vehicle hurtling out of control. Constable Bruce Priestman of the East York force has been charged with criminal negligence.

Toronto Police Told To Use Care With Guns

BOSTON (AP) — New England's polio outbreak continued to spread Wednesday as the six-state case total mounted to 1,323 cases. Only 249 were listed in the area on this date a year ago.

Massachusetts, where 112 new cases were reported Wednesday, accounted for 1,038 of the New England cases. Hard-hit Boston had 370, almost one-third of the state's 1955 total.

Thirty-one Salk vaccine-inoculated youngsters have been stricken in New England this year. However, no Salk involvement has been reported among New England's 44 polio fatalities.

The latest death was that of a 10-year-old New York boy who was stricken at a camp in the Berkshire hills of western Massachusetts.

Some New England camps have barred visitors pending a drop in the high polio incidence.

Dr. Roy F. Feemster, director of the Massachusetts health department's division on communicable diseases, said polio is "taking hold" in communities adjacent to Boston, and has spread more than 50 miles to the northwest.

Suburban Quincy reported 13 new cases, only six fewer than Boston. Braintree, another suburb, listed six new cases.

ALL TOTALS HIGHER
The New England totals to date with corresponding 1954 figures: Massachusetts, 1,038-98; New Hampshire, 56-14; Maine, 28-13; Vermont, 19-6; Rhode Island, 47-13; Connecticut, 135-105.

Second-round Salk vaccine shots are under way in several New England communities, although health agencies in Massachusetts, New Hampshire and Vermont have advised that further inoculations be deferred until fall.

Britain To Take Wraps Off New Jets

FARNBOROUGH, Eng. (Reuters) — Britons will get a chance to see for the first time some of the RAF's newest jets, still on the secret list, at the Farnborough Air Show Sept. 5.

The public will inspect many planes on the ground but some of the latest craft will be viewed only in flight over the royal aircraft research centre here, the Society of British Aircraft Constructors announced Wednesday.

Among planes on show will be Canada's stub-winged Avro CF-100, first straight-winged warplane to exceed the speed of sound.

High tide today at Charlottetown at 3:09 a.m. and 4:23 p.m. at Rustico at 10:50 a.m. and 11:45 p.m. Summer tide 18 minutes later than Charlottetown.

Sun rises at 5:09 a.m. and sets at 7:27 p.m. Standard time.

Death Toll In Explosion May Reach 18

ASHTABULA, Ohio (AP) — Grim-faced firemen were hauling bodies from the wreckage of six buildings torn by an explosion and fire Wednesday night at nearby Andover, and there were reports the death toll might reach 18 persons.

At a state highway patrol station in Warren, Ohio, patrolman Leroy Peach said he had a radio report from the scene that there were at least 12 dead and 15 injured.

An Associated Press photographer, Julian Wilson, said a fireman told him the blast was caused by gas which had accumulated in one of the six buildings which were demolished, a two-story frame structure housing a restaurant and a dairy store.

Just before the explosion, the village was swept by a fierce storm which cut off communications and electrical power. The telephone company said its service would not be restored until today.

Andover lies about 20 miles southeast of here, near the Pennsylvania line.

Three Held In Death of Miner

STELLARTON, N.S. (CP) — Three men were remanded in custody Wednesday when they appeared in court here charged with the fatal beating of a 73-year-old retired miner who died in hospital at Halifax.

Art Hoeg, Reg Davidson and Fraser Dykens appeared before Magistrate W. A. Richardson. They will appear again next Wednesday.

James Hall was found unconscious by the roadside near here July 29. He died while in a coma. It was believed his assailants were after a sum of money he was known to have been carrying.

"We learned last year when a number of cars were crushed by falling trees," he said. "There were no hurricane deaths or injuries in the 1954 hurricanes. Radio-equipped patrol cars carrying first aid and emergency equipment will tour the streets."

CAN'T FEEL YET
The weather office said it was impossible to tell what the hurricane may do. "If it turned north-west and continued in that direction over land it would die and we wouldn't feel a thing, not even the tailwash," an official remarked.

"But if it gets up far enough to be caught in the southerly blow, we'll get it."

The weather office said it was impossible to tell what the hurricane may do. "If it turned north-west and continued in that direction over land it would die and we wouldn't feel a thing, not even the tailwash," an official remarked.

"But if it gets up far enough to be caught in the southerly blow, we'll get it."

Federal By-elections May Show Public Opinion Trend

OTTAWA, (CP) — Four federal by-elections Sept. 26 may provide a sample of public reaction to such parliamentary issues as emergency powers and the sale of wheat and butter to iron curtain countries.

The ridings, three in Quebec and one in New Brunswick, are all traditionally Liberal. Two have been held by Liberals for 30 years or more. The contests are to fill four of six vacancies in the 265-seat Commons caused

U.S. Soldiers Use Hoses, Tear Gas Against Koreans

SEOUL, Korea (Reuters) — U.S. soldiers used fire hoses and tear gas bombs Wednesday to repel about 600 South Korean demonstrators trying to storm the living quarters of the neutral nations truce supervisory commission at Wolmi island, near Inchon.

The latest in a series of violent demonstrations by South Koreans against the commission since last weekend's demand by the South Korean government that the commission leave the country by Saturday lasted only five minutes. No casualties were reported.

Meanwhile, U.S. Far East commander Gen. Lyman Lemnitzer, who is also United Nations commander in the Far East, flew to Seoul from his Tokyo headquarters following a threat of renewed warfare from Gen. Chung Il Kwon, chairman of South Korea's joint chiefs of staff.

Lemnitzer told reporters at Seoul airport he plans to confer with South Korean President Syngman Rhee today on the critical situation.

Mouse Throws This City Into Darkness

ACQUA, Italy (AP) — A mouse threw this city of 15,000 into darkness Tuesday night. It got into the control room of the city power plant, nibbled on a wire and caused a short circuit. Repairmen found the electrified nibbler with a wire still in its mouth.

Report Mystery Visitor Myth

VANCOUVER, (CP) — A team of RCMP investigators said Wednesday there was not "a grain of truth" in reports that a mystery caller had visited the home of police superintendent Harry Whelan shortly before he was found shot to death Aug. 5.

The report of the mystery visitor was in circulation 48 hours after the early morning shooting. Police officials said at that time that Whelan had killed himself.

An estimated 400 off-duty policemen—more than half the force—attended Whelan's Masonic funeral Wednesday, and more than 1,000 other citizens gathered at the funeral chapel.

Kills Snake, Lands In Court

LONDON (Reuters) — David Frampton killed a snake that frightened his mother-in-law and David wound up in court Wednesday.

When the mother-in-law screamed last month that there was a snake in the garden, David picked up a piece of wood and killed it with one well-placed blow.

The 4½-foot long snake belonged to Mr. Stella Ling, who lives two houses away. She keeps snakes as pets.

For "maliciously" killing her "pet," she hauled David into court.

The judge let David off. He said there was not sufficient proof that David knew the snake was harmless.

Spain Builds Her First Jet Aircraft

SEVILLE, Spain, (AP) — Spain has built her first jet plane—the Saeta (the dart)—it was announced Wednesday. The plane, built by Spanish personnel directed by technicians of the Messerschmitt patent, will be tested Aug. 15.

OTTAWA (CP) — George Hees, national president of the Progressive Conservative Association, begins a western organizational tour next Monday. His office here announced Wednesday that Mr. Hees, member of Parliament for Toronto-Broadview, also plans organizational visits to Maritime and Quebec constituencies in September and October.

HEES PLANS TOURS

OTTAWA (CP) — George Hees, national president of the Progressive Conservative Association, begins a western organizational tour next Monday. His office here announced Wednesday that Mr. Hees, member of Parliament for Toronto-Broadview, also plans organizational visits to Maritime and Quebec constituencies in September and October.

CONSIDER NEXT STEP

The commission itself, which is composed of Polish, Czech, Swiss and Swedish members, met at Panmunjom in a marathon session to decide what action it will take.

Rhee broadcast to the nation, urging his people to refrain from violence in supporting his ultimatum to the commission in which the Korean government accuses Communist members of "spying."

Wednesday's demonstration outside the commission's billets was short-lived. Demonstrators, wet to the skin and weeping, left in disorder. There were no casualties, but a South Korean army source claimed that 17 Koreans were seriously injured and 19 slightly hurt Tuesday night when American military police used tear gas bombs to disperse about 20,000 demonstrators in Pusan.

"ONE HUNDRED THOUSAND WELCOMES"

"One hundred thousand welcomes" reads the Gaelic poster suspended behind the official party who presided at the opening ceremonies at the 52nd annual Highland Games held at the Driving Park yesterday afternoon and evening. Vice Admiral Lachlan D. Mackintosh is seen at the microphones during his address to the big crowd that was in attendance.

From left to right they are: Angus MacLean, M.P., Lieut. Col. A. W. Rogers, His Worship Mayor J. D. Stewart, Hon. Dougald MacKinnon (representing the provincial Government in the absence of Premier A. W. Matheson), Lieut. Governor T. W. L. Prowse, and Chief of the Caledonian Club, George V. Fraser. (Photo by W. Taylor)

Colorful Gathering Of The Clans Successful Event At Exhibition Grounds

Large crowds were in attendance both afternoon and evening at the Annual Scotch Gathering of the Prince Edward Island Caledonian Club held yesterday afternoon followed by a Scotch concert held in the Coliseum last night.

The Gathering was honored by the attendance of Vice Admiral Lachlan D. Mackintosh, C.B., D.S.O., of Mackintosh, Inverness-shire, Scotland, Chief of the Mackintosh Clan. The Clan Chief, along with the official party was piped to the stage by the Dugan's Highland Pipe Band of the Dugan's Girls Pipe Band of Westville and the Stellarton Girls Pipe Band.

Included in the official party were His Honour Lieut. Governor T. W. L. Prowse and his aide, Lt. Col. A. W. Rogers, E.D.; Hon. Dougald Mackintosh, representing the Premier; Angus MacLean, M.P.; George V. Fraser, Chief of the Caledonian Club and W. MacLeod.

Mingled among the large gathering could be seen a large number of tourists who had a field day of their own taking pictures of the colorful events. The Chief of the Caledonian Club, W. MacLeod, was introduced by Chief

George Fraser who made note of his outstanding naval career, adding that he had reached the ultimate in becoming Chief of his Clan.

Admiral Mackintosh said it was a very great honour that had been afforded him in being asked to preside at the Scotch gathering. He was happy to see that Highland games which originated in Scotland when one of the Kings wanted to institute a speedier postal service, were being carried on in Scotch settlements of Canada with such enthusiasm.

Chief Mackintosh read a number of congratulatory telegrams received, one of which was from the Secretary of State for Scotland and another from the Amateur Athletic Association of Scotland.

An interesting story about the origin of the Highland fling was related by the chief. A long time ago in the highlands of Scotland a father was trying to teach his son how to play the pipes when he noticed a stag leaping gracefully from rock to rock. The son began to imitate the movement of the stag and raised his arms about his

Maritimes Breathe Easier As Connie Is Delayed

HALIFAX (CP) — Residents along Canada's east breathed easier Wednesday as hurricane Connie remained stationary off the southern coast of the United States.

The weatherman said the sudden halt in the storm's jaunt up the eastern seaboard gave the Maritimers "at least a 36-hour danger-free period."

No hurricane warnings or alerts have been issued and a spokesman said they were unlikely until "danger is imminent."

The Yachtsmen here are betting on the hurricane's fickleness and are leaving their boats in the open until the weatherman hoists the red flag. No boats were lost and only a few damaged when the Maritimes were hit by hurricanes Carol and Edna last year.

ARMY CURTAILS EXERCISE
However, the army's Exercise Rising Star, due to end Saturday at Camp Gagetown, N.B., will be cut short 24 hours to prevent the 14,000-man first Canadian Infantry Division from getting caught in the blow.

The navy said ships in the Atlantic have received a general alert to take normal precautions in the event the storm begins moving northward from its position 225 miles southeast of Myrtle Beach.

The ridings, three in Quebec and one in New Brunswick, are all traditionally Liberal. Two have been held by Liberals for 30 years or more. The contests are to fill four of six vacancies in the 265-seat Commons caused

by Senate and other appointments and by deaths.

Date of the by-elections in the Quebec South, Temiscouata and Belchase and the New Brunswick riding of Restigouche-Madawaska was learned Wednesday from the office of the chief electoral officer. An official said nominations will close Sept. 12.

By-elections in two other vacant seats, Toronto Spadina and St. John-Bererville-Naperville in Quebec, will be held later, perhaps in October.

Coming Events

Your Saturday night Jamboree — Forum.

Horse races at Hazelbrook, Saturday August 13.

Dance Corran Ban Hall Friday August 12th. Refreshments.

Regular Stock Car Dance Tuesday night Covehead Raceway.

Ring in new Hope River Burching Hall, Thursday, Aug. 11.

*Dance in Millview Hall every Friday.

Dance in Dixon's New Barn. For June Bridge, August 12. Canteen

Dance Sinnott Road School, August 12.

Annual chicken supper Mt. Ryan Hall, September 7.

Seven Mile Bay chicken supper and bazaar, Wednesday, Aug. 24th.

*Dance, Iris School every Thursday. Good music. Refreshments.

Ice cream social and hot dogs, New London School, Thursday, August 11.

Inman Picnic Saturday August 13 at Anglican Youth Centre, Cranford.

Cake sale at Holman's Store on Friday August 12 at 1 p.m. Sponsored by Holy Redeemer C.W.L.

Opening dance, Saturday night, Town Hall, Georgetown, 9-12. Burns Orchestra.
