## MOFFAT'S VEGETABLE LIFE MEDICINES.

[FRESH SUPPLY.]

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs of life, and enduing them with renewed tone and vigour. In many hundred certified cases which have been made, and in almost every species of disease to which the human frame is liable, the happy effects of Moffat's Life Pills and Bitters have been gratefully and publicly acknowledged by persons benefited, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. The Life Medicines recommend themselves in diseases of every description. The first operation is to loosen from the bowels of the stomach and bowels the various impurities and acids constantly settling around them; and to remove the thick masses which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave a train of evils, or sudden diarrhoea, with its immingling. This fact is well known to all regular anatomists, and is examined the human bowels after death; and hence the necessity of these well informed men against quack medicines—quack medicines prepared and heralded to the public by ignorant salesmen and the bladder, and by this means, the liver and gall bladder, the healthy action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its course from the agency of the liver and the lungs, before it reaches the heart, being thus purified by them, and nourishment coming from a clean stomach, courses freely through the system, renews every part of the system, and triumphantly carries the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Acidity, Restlessness, Illtemper, Anxiety, Langour and Melancholy, Costiveness, Diarrhoea, Cholera, Fevers of all kinds, Gout, Dropsies of all kinds, Gravel, Worms, Asthma, Consumption, Scoury, Ulcers, Inveterate Sores, Scorbatic Humors and Bad Complexions, Eruptive complaints, scallow, and other disagreeable complexions, Salt Rheum, Erysipelas, common Colds and Influenza, and various other complaints which afflict the human frame. In Fever and Ague, particularly, the Life Medicines have been most eminently successful—so much so, that in the Fever and Ague Districts, Physicians almost universally prescribe them.

That Mr. Moffat requires of his patients is, to be particular in taking the Life Medicines strictly according to the directions. It is not by a Newspaper notice, or by any thing that he himself says in their favor, that he hopes to gain credit. It is alone the results of a fair trial.

**MOFFAT'S MEDICAL MANUAL;** designed as a domestic health. This little pamphlet, edited by W. B. Moffat, Broadway, New York, has been published for the purpose of explaining more fully Mr. Moffat's theory of diseases, and will find highly interesting to persons seeking health. It treats of prevalent diseases, and the causes thereof. Price, 25 cents (hd.)—for sale by Mr. Moffat's agents generally.

## PRINCE EDWARD ISLAND.

THE Cunard Atlantic Steamers having commenced plying between Liverpool, England, and Halifax, Nova Scotia, a new era is formed in the History of the North American Colonies. This expeditious mode of conveyance will, doubtless, bring to their shores a number of individuals in search of healthful and fertile locations; and the Advertiser, therefore, solicits such persons, having agricultural views, to visit Prince Edward Island, so justly styled by writers "The Granary of British North America." It is situated in the Gulf of St. Lawrence, and is only two days' travel by Coach and Steamboat from Halifax, N. S. This Colony, with respect to salubrity of climate, fertility of soil, and excellent waters, is second to few, if any, in the British Dominions. The capitalist who determines on emigrating, may here purchase wilderness lands from 15s. to 25s. per acre; or improved Farms, in different sections of the Island, at from £2 to £6 per acre, according to situation, and the value of the Buildings erected upon the property. The soil of this Island produces nearly all kinds of grain, hay and vegetables; and cattle, as well as agricultural implements, suitable to the Colony, can be obtained at moderate prices. There are twelve Agricultural Societies, established within the last few years, actively employed in introducing from different countries the most improved breeds of Live Stock, Agricultural Implements, &c. suitable for the farmer.

To the Emigrant, even though but a small capitalist, Prince Edward Island offers many advantages.—First, its general prosperity, which is sufficiently proved by the increase of its exports, and its steadily improving revenue. Second, a healthy climate. Third, a plentiful supply of good water throughout the whole Island. Fourth, the fertility of the soil, and its freedom from all taxes, burthensome to the Settler. Fifth, the convenience of settlement, whereby the ruinous expenses which are sometimes incurred, by having to travel hundreds of miles, after landing, to a place of location, are almost totally avoided. Sixth, a certain remuneration for the labours of the Agriculturist, by a sure market, and a fair price, for all the surplus produce of his farm. Seventh, the labourer readily meets with employment, and receives liberal wages. Eighth, to the British Emigrant it offers the enjoyment of the benefits to be derived from the laws, language, customs and manners of his native land; and he preserves in himself an identity of interest with that of the parent state. Ninth, Prince Edward Island is now only *thirteen days' travel*, by Cunard's line of Atlantic Steamers, from England; and, if a Colony affording regular opportunities of speedy intercourse with the mother country, and possessing the advantages before enumerated, be desirable, the Advertiser, who has spent twenty years in the Island, thinks he may safely venture to invite such individuals as have resolved, or shall determine to emigrate, to pay it a visit; and should they be induced to establish themselves and families here, in preference to a foreign state, they will have the satisfaction to know that their posterity will be seions of the British Empire.

To individuals intending to emigrate from England to Prince Edward Island, it may be well to observe, that Vessels are to be found in London, Liverpool, Bristol, Plymouth, Bideford, Newport, Gloucester, Southampton, Hull, Newcastle-upon-Tyne, Yarmouth, and all the principal ports in Britain, either direct for the Colony, or to Pictou, Nova Scotia; or Miramichi, New Brunswick: these latter ports being only a short distance from Prince Edward Island, and, between which and the Island, a Steam Boat and sailing Vessels are generally running weekly during the period of the navigation's remaining open. The charges of transit are moderate.

For passage, application may be made to Daniel Davis, Esq., Warwick-street, London; Cannon, Miller & Co. Liverpool; J. B. Winters, Esq. Bristol; Messrs. Peake & Son, Plymouth; John Howe, Esq. Bideford; Messrs. Davids & Tapston, Newport; Phillipot & Co. Gloucester.

Persons desirous of purchasing either Improved or Wilderness Lands, are respectfully solicited to apply (if by letter, post paid) to the Advertiser, at his Office, Charlottetown, Prince Edward Island.

WILLIAM DOUSE,

Land Agent.

The House is very comfortable for a small family, and contains kitchen, small parlour, good bedroom, servant's sleeping room, closets, and a cellar underneath. ## LAND FOR SALE.

J. H. PETERS.

N. B.—A good title can be seen at the Office of the Subscriber.

Man! Take care that you get a good Title!!!

THE Subscriber cautions any person or persons against having anything to do with the good title of which J. H. Peters, Esq., speaks in his notice of the 15th inst. Perhaps, on inquiry, they may find a Sheriff's Deed without a Sheriff—a Sale without an Appraisal, and one of the Ex-ecutions (for there were two) an Equity of Redemption, which is this extraordinary sale was intended to satisfy, of which there is no judgment on record; and the amount of sale was probably sufficient to liquidate a dozen Executions, which appears to be a manifest contravention of the Act.

ROBERT MEARNS,

Proprietor of Township 54.

Cardigan, 20th June 1840.

N. B.—After seven or eight years' prosecution, which I have suffered, standing alone as it were—I think this circumstance argues much in favour of the goodness of my title, particularly considering the weight of the parties opposed to me.

R. M.

## NOTICE TO PLUNDERERS.

WHEREAS it has been the practice of the above party (falsely stating that they had permission from me) during the last thirty years, annually, to cut Longers and Firewood on my land, consisting of 200 Acres, situate between the lands of Charles Stewart, and William Stewart, Esqs., Lot 48, the boundaries of which are distinctly defined—and not content with cutting for their own immediate use, have thought fit to give authority to other persons to do the same, and realized a considerable profit therefrom.

This is to notify all persons that I never have given, and do not intend to give to any person, the privilege of cutting down the Trees on the said property, but do hereby offer a reward to the person who shall give such information as will convict the offender or offenders of the like sum as shall be awarded by the Magistrate against the plunderer.

GEORGE BIRNIE.

Charlottetown, Dec. 7th, 1840.

THE Subscribers having been duly appointed the sole Agents of DAVID STEWART, Esquire, for his Estates on Lots or Townships Nos. 7, 10, 12, 27, 30, 46, 47, and Lennox Island, beg to intimate, that they are prepared to lease lands, with a liberty of purchasing, and to sell on the most liberal terms; and that all persons indebted to that gentleman, for rent or otherwise, are hereby required to make immediate payment of the same.

All persons found trespassing on any of the above properties, either by cutting Timber, or in any other respect, will be prosecuted with the utmost rigour of the Law.

## THE MONTHLY REVIEW,

DEVOTED TO THE CIVIL GOVERNMENT OF THE CANADAS.

THE Canadas have been united under an amended constitution—the foundation has been laid for an improved system of government. The success of that constitution will greatly depend upon a correct understanding and a just appreciation of its principles; and the advantages of the new system of government will be essentially influenced by the views and feelings of the inhabitants themselves. At a period so eventful, and under circumstances so peculiar, it is of the utmost importance that the principles of the constitution should be carefully analysed, and dispassionately expounded; that the relations between this and the mother country, and the mutual advantages connected with those relations, should be explained and illustrated; the duties of the several branches of the government, and the different classes of the community, stated and enforced; the natural, commercial, and agricultural resources and interests of these provinces investigated and developed; a comprehensive and efficient system of education discussed and established; the subject of emigration practically considered in proportion to its vast importance; the various measures adopted to promote the welfare of all classes of the people originated and advocated; and a taste for intellectual improvement and refinement encouraged and cultivated.

Such are the objects of the Monthly Review; objects which it is intended to pursue with views and feelings as unbiased and comprehensive as those of the Government itself. Such a publication is a desideratum in the Canadas. The subjects to which its pages will be devoted require, at the present juncture, a more elaborate discussion than is suitable to the columns of a newspaper, and ought to be embodied in a convenient and permanent form. The topics discussed, and the subjects introduced, will become more varied as the immediate objects which have called the publication into existence shall have been accomplished. A monthly retrospect of public affairs, containing notices and observations respecting the measures of the Government, and the leading events and questions of the day, will appear in each number.

The Monthly Review will, for the present, be conducted under the supervision of John Waudby, Esq., late Editor of the Upper Canada Herald, assisted by several able writers in the two Canadas. A general invitation is also given to gentlemen of talents and acquirements to contribute to the columns of the Review. Each number will contain from 60 to 80 pages, royal octavo, double columns, small type, and fine English paper. Each volume will contain not far from seven hundred pages, and furnish about as much reading matter as is contained in three common octavo volumes of five hundred pages each.

Terms—Price, 20s. per year, including postage, payable in advance. As the work is undertaken with no view to emolument, it will be enlarged and improved in proportion to the amount of available subscriptions. It will not be sent to any Subscriber without payment of six months' subscription in advance. No subscription received for less than six months. All Post Masters are respectfully requested to act as Agents. Any Post Master, or other person, forwarding the names of six Subscribers, with the subscriptions, will receive a copy gratis, during the same period. The First Number will appear on the first day of January, 1841. All communications must be addressed to the Editor of the Monthly Review, Toronto, and be post paid.

The Editor is permitted and authorised to add, that the Monthly Review has been undertaken with the sanction, and under the patronage of His Excellency the Governor General; although the writers alone will be responsible for the matter which it may contain.

Toronto, Nov. 4, 1840.

## CARD.

W. H. TAYLOR invites persons from the Colonies, visiting London, to inspect his machinery, now in operation, for cutting wood into staves, laths, shingles, &c. By this invention, for which Patents for Great Britain and her Colonies have been obtained, a very simple machine, with two horse power, can cut upwards of two hundred staves or shingles in a minute, all, whether the feathered shingles or straight staves, as smooth as if planed or drawn, and without loss of wood or even sawdust. Those who have seen the machinery, admit that it is at once simple and efficacious, and likely to supersede in a great measure the present mode of manufacturing those articles. Mr. Taylor's object is to sell his patent for the various Colonies, or grant licences for its use, and he earnestly solicits those who are concerned in the wood trade, to call and satisfy themselves at the Square Shot Tower, Surrey side of Waterloo Bridge, London, November 5.

## CAUTION.

CHARLES WORRELL,

## CAUTION TO LUMBERERS.

ALL Persons found trespassing upon any of the Estates of the Right Honorable the Earl of SELKIRK, in this Island, by cutting timber, or otherwise, will be prosecuted with the utmost rigour of the Law. Tenants requiring Timber for Farm Buildings, &c. must apply to the subscriber.
