- Palmer Road Picnic, Wednesday, August 18th, on church grounds. Dinners served from 12 noon to 7 p.m. Lunch counter after 7 p.m. Come and spend a pleasant and enjoyable day with us.

President of Federated W. I. Stresses Need For Wisdom In Tackling Problems

"The challenge of the future will be found in our ability to understand and to tackle our problems with a social wisdom greater than we have known before. We must do so, or suffer the danger of losing all that we have gained," said Mrs. J. W. Adams, president of the Federated Women's Institutes of Canada when she addressed the closing session of the 41st annual convention of the P.E.I. Women's Institute last night.

Mrs. Adams, whose husband is a native of Prince Edward Island, delighted her audience with her affable and humorous manner. The account of her life on the farm and its many incidents, of which she was able to see the lighter side, soon gave the speaker a warm place in the hearts of her audience who were given much food for thought and some very timely advice.

Mrs. Adams noted the many changes that are taking place on the farm, in the community and in the world, and to the delegates that these changes presented a

great challenge to them. "We are the builders, she said, and went on to remark that civilizations do not crumble or fall because of lost battles or material fortunes. They decay from within, because the ordinary citizen has fallen down on the job."

"The attitude of don't care spreads like a case of social measles and the whole structure of our world, rote and tumbles about our ears," said Mrs. Adams. "There is no private corner where we can shirk our responsibilities. We cannot just look after ourselves. Each and everyone of us is a link in a vital chain. When a link, untended, rusts, the chain breaks."

REFERS TO FOUNDER

Mrs. Adams referred to the life of the founder of the Women's Institute, Mrs. Adelaide Hoodless, and pointed out that the foundation was a solid one. The founder had a problem of her own and she had a burning desire to help other

Paying \$32 a pair for good pigs over 35 lbs. each, \$21.00 over 15 lbs. Extra pay in between. Knud Jorgensen.

1,500 Miners Suspended On Charges Of Terrorism

Mendes-France Arranges Talks

By ALEX VALENTINE
GENEVA (Reuters) — French Premier Pierre Mendes-France Friday arranged to hold separate talks here with Vyacheslav Molotov and Anthony Eden in an effort to reach an Indo-China settlement by his self-imposed deadline of July 20.

Mendes-France will fly here today and confer privately with the Soviet foreign minister tonight or Sunday. He will lunch with British foreign secretary Monday. Molotov and Eden are co-chairmen of the nine-nation Indo-China conference.

Guest Speaker

Mrs. J. W. Adams (above), president of the Federated Women's Institutes of Canada was the guest speaker at the concluding session of the 41st annual convention of the P. E. I. W. I. last night. Mrs. Adams, whose home is in Ethelton, Saskatchewan is married to a native of Springfield, West in Prince County. They have a large wheat farm and raise Hereford cattle.

To Build New Steam Power Plant At Halifax

HALIFAX (CP) — Nova Scotia Light and Power Company officials announced Friday that a new steam turbo generating plant is to be built here at a cost of \$7,000,000.

The new plant is rated at 60,000 horsepower and will boost the company's total capacity to more than 200,000 horsepower. It is the largest generator east of Toronto and the third largest in Canada. It will be in operation by 1957.

The new generator will be built by the English Electric Company of Stafford, England, and is designed to use either coal or oil.

The power company serves the Halifax district, Annapolis Valley, Central Nova Scotia and part of the south shore.

In addition to the newly purchased generator, a 9,000 horsepower plant near Middleton is expected to be finished this fall and a 30,000 horsepower generator has been ordered for next summer.

Vancouver Baking Strike Continues

VANCOUVER (CP) — American bread was ordered for Canadian tables Friday as a strike and lockout paralyzed the Vancouver baking industry. Strikers warned that any attempt to import bread would mean "war" with fast action from other unions.

Thousands of loaves of bread were expected to arrive before Saturday, probably from Bellingham, Wash., 60 miles to the south, and perhaps from Seattle, 150 miles away.

SYDNEY, (CP)—The 1,500 employees of the Dominion Coal Company's Nos. 1-B and 26 collieries were suspended from their jobs Friday night after the company charged they were "terrorizing" one of its officials.

The company said the men will not be reinstated until the union, the United Steelworkers of America CIO-CCL, promises that the "terrorizing" will stop.

The company said men on their way to work on the evening shift hurled coal and insults at the official, a dispatcher, for four consecutive days this week because he reported day shift workers who left the job early.

On Tuesday the shift of more than 40 men were said to have thrown coal at him as they were being transported to the pit face of No. 1-B in pit carts.

The incident was brought to the attention of the mine committee, so the men reportedly contained themselves to abusive language on Wednesday. When this was continued Thursday, the whole shift was suspended.

COAL SPIKES THROWN
The pay-off came on Friday when the new crew working the shift barged the hapless dispatcher with coal and track spikes. H. M. Gordon, company vice-

president and general manager said the men's action was "an attempt at terrorism of the colliery official staff."

"Until definite assurances are given by the local union that there will be no recurrence of such incidents, Nos. 1-B and No. 26 collieries will remain idle."

No. 1-B was closed a year ago for mechanization and many of its 900 workers were idle until last winter. No. 26 was closed from last March until early June because of a fire in the depths that killed two men.

Gasoline Price War In Quebec District

CAP ST. MARTIN, Que. (CP)—Gasoline prices dropped as much as seven cents below the city level Friday as a group of service station owners in communities along the Labelle highway near Montreal became involved in a price war.

One service station offered first grade gasoline at 39 9-10 cents a gallon. Another topped this offer with the presentation of a "surprise package" with every \$3 purchase. A third offered motorists a chance to win a 1953 low-priced model car by handing out drawing tickets.

The war started after a newly installed station hung out a sign offering gasoline at 39 9-10 cents a gallon.

Top grade gasoline sells for 46 cents a gallon in Montreal.

Columbia River Top Flood Menace

VANCOUVER (CP) — The Columbia river kicked up turbulent waters Friday to become British Columbia's leading flood menace.

The interior city of Trail became the main victim of the Columbia as the river level jumped five inches overnight, spilling three inches of water on one street in the downtown district and threatening main-floor levels of homes on Riverside avenue.

Farther south, the Columbia rose 10 inches in 24 hours at Revelstoke, sending water over the Big Bend highway in four places.

500 Cornwall Textile Workers Laid Off

CORNWALL, Ont. (CP)—A cut in production of textile filament yarn has brought a six-week lay-off of 500 Courtaulds Canada Ltd. employees, it was announced Friday.

Drummond Giles, president and general manager of the synthetic fibre plant, said the workers will not return from the annual two-week holiday beginning July 17 until after Labor Day.

The layoff raised the total of unemployed in this city to more than 1,800.

Mr. Giles blamed depressed conditions in the Canadian textile industry for the cut in production affecting a major section of this city's largest industry.

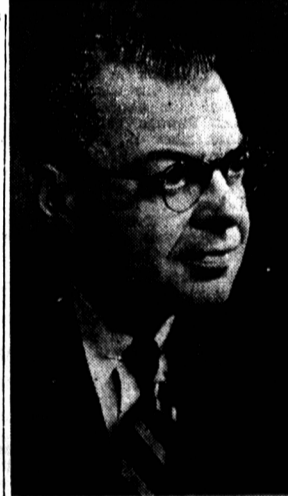

TO ADDRESS SAINT DUNSTAN'S CENTENNIAL ACADEMIC ASSEMBLY

Honorable Paul Martin, Canada's Minister of National Health and Welfare, will be the second speaker at St. Dunstan's College's Centennial Academic Assembly on August 4th. Dr. George N. Shuster, President of Hunter College of the City of New York, a writer and educator of international repute, accepted a similar invitation a few days ago.

Born on June 23, 1903, Paul Martin graduated with honors from St. Michael's College, University of Toronto, in 1925. Three years later he received his M.A. and graduated in law from Osgoode Hall, Toronto. In 1929 he received his Master of Law degree from Harvard and then went on to further study, first at Trinity College, Cambridge University, England, and later at the School of International Studies in Geneva, Switzerland.

Returning to Canada in 1930, Mr. Martin joined a law firm in Windsor, Ontario, and from 1931 to 1934 he was also Lecturer in Political Science at Assumption College there.

Hon. Paul Martin

Wheat Price Troubles Government

OTTAWA (CP)—The government is in a stew over the initial price of wheat.

With the new crop year just three weeks away, the experts are still struggling with the problem of whether to maintain the \$1.40-a-bushel initial price in 1954-55, or slash it in the face of heavy stocks and lagging markets.

The \$1.40 price, based on farmers' deliveries of No. 1 northern to the Lakehead and West coast, has been maintained for the last three years. The payment is lower for lower grades. Experts fear a cut will be a signal to overseas buyers to make new demands for further reductions in the sales price.

The selling price was cut by 10 cents a bushel to \$1.72 a bushel for No. 1 northern last month. This brought opposition criticism in Parliament.

HEAVY DEBT
Experts feel, however, that Canada must be as realistic as possible under current marketing conditions. The Canadian wheat board already is carrying a heavy load of debt—about \$100,000,000—representing payments to farmers for wheat which the board has been unable to sell.

Canada's un sold stockpile is heavy, estimated about 614,000,000 bushels on June 1, about 67,000,000 bushels higher than last year's 547,000,000.

Trade Minister Howe stated at the last session of Parliament that, if necessary, Canada will make another cut in the selling price if the current price interferes with marketing.

His initial price is that paid by the board for farmers' deliveries at the opening of the crop year, Aug. 1. Usually this is set well below the selling price. About the middle of the year, when the board has made sufficient sales to indicate profits, an interim payment of about 20 cents a bushel is made, covering all deliveries since the opening of the crop year.

FINAL PAYMENT
Finally, when the crop year ends and the board settles its accounts it distributes remaining profits to farmers in the form of a final payment.

There was no mid-term interim payment this year, another indication of the tougher marketing problem leading to a decline in cash income to western farmers.

Heroic Boy Loses Foot To Save Two Small Sisters From Death Under Train

TORONTO (CP) — A small boy lost his left foot Friday in a successful effort to save his two young sisters from being run over by a train that trapped the trio on a railway bridge.

Police said James Pettipas, 7,

Had Top Score

Pictured above is Mr. Carl MacDonald, son of Mr. and Mrs. V. A. MacDonald, Winslow, who scored top marks at Bisleigh, England, in a match between Canadian and British Army Cadets. Mr. MacDonald counted a 95 to lead the 16 cadets taking part. Canada lost the match 73 to 713. Mr. MacDonald is a former student of St. Dunstan's College and Prince of Wales College.

one of a family of nine children, was boosting his four-year-old sister, Ruth, to safety when a Canadian Pacific Railway passenger train struck him.

Ruth Pettipas suffered a broken collar bone. The other child, Lynn, was cut and bruised after being pushed out of the way of the train.

First reports said a fourth child, Don Porter, was also in the group and harbor police dragged the Don river in search of his body but found nothing. Later, however, the girls told police only they and their brother were on the track.

The children said they decided to take a shortcut across the trestle to get to a carnival.

Lynn told police:

"My brother saved my sister by hanging onto her feet and she hung over the side. He hung over even when the train ran over him."

Arrested For Intimidation

SYDNEY, (CP)—Ivy Best, 28, was arrested by warrant Friday on a charge of intimidating a witness in the inquest into the death of Mrs. Florence Bridget Taverner.

Police said Best is being held without bail following a phone call to Mary Fortune, a witness at the inquest.

The inquest was adjourned until July 16 when witness Thomas Jefferson Finigan of Port Arthur, Texas, a United States air force private stationed at Harmon Field, Nfld., was charged with contempt at the last hearing July 3.

The strangled body of Mrs. Taverner was found in a lover's lane brook here April 26. The inquest has been adjourned six times.

Assiniboine River Flood Levelling Off

BRANDON (CP) — The flooding Assiniboine river levelled off here Friday and sparked hopes that the worst is over in the city's water-soaked northern outskirts. Undiked areas downstream were warned they might be flooded later.

The river reached a crest of 22 feet, two inches above normal, Thursday night and 24 hours later had gone no higher. Dikes were still holding around the Brandon Packers Ltd. plant, the only industry in the area.

The river smashed through earthen dikes at three points during the week, forcing 60 families to leave an area 35 blocks long. Another 25 families remained in their homes although some were nearly isolated by flood waters. Only five families moved into emergency accommodation offered by the city.

STEADILY RECEDED
West of Brandon the river was steadily receding.

Archie Olson, first vice-president of the Brandon Chamber of Commerce, issued a statement saying news stories of the flood had been reported causing tourists to bypass Brandon. He said no main highways were affected and tourists would not be inconvenienced.

Police Make Arrest In N. B. Shooting Case

ANDOVER, N.B. (CP)—Police said Friday night they have picked up a man for questioning in connection with the shooting of Walter Hansen, 72-year-old fuel dealer in this western New Brunswick town.

Hansen was shot to death in his two-storey home Friday night. His 52-year-old wife was severely beaten and suffered a superficial bullet wound. She was unconscious when taken to hospital and police said she has not yet been able to name her assailant.

An Andover neighbor said he heard the shots about 10 p.m., investigated and discovered Walter Hansen dead in the kitchen while his wife lay unconscious in an upstairs hallway. He told police he saw a middle-aged man in a brown suit run from the house and disappear.

In addition to the minor bullet wound, Mrs. Hansen suffered a skull fracture and lacerations. Hospital authorities said she had regained consciousness "only momentarily" and had not been able to name the assailant.

Walter Hansen was a fuel dealer.

TORONTO (CP)—Minimum and maximum temperatures:

| | Min | Max |
|-----------------|-----|-----|
| Dawson | — | 75 |
| Vancouver | 54 | 62 |
| Edmonton | 51 | 63 |
| Calgary | 50 | 70 |
| Saskatoon | 65 | 82 |
| Regina | 64 | — |
| Winnipeg | 57 | 74 |
| Toronto | 56 | 75 |
| Ottawa | 53 | 70 |
