WHY MR. PEANUT NEVER GOES IN
THE FOREST ANYMORE.

Dear Editor

I would like to respond to the letter from A Society "member" when you join the Business Society you can meet lots of people and attend a lot of great events. I know the society doesn't hold many, if any, dry events however as a 3 year member, I can safely say; any event, not held at the Barn, by the society is not just for legal people since I was present at the wet event were dry people were included sometimes even drinking. The society should market themselves better by posting meeting times, however it seems that you are the only one to blame for not being aggressive enough to search out other society members. I know its hard for a freshman to do this but its a fact of life. The society believes everybody in business should be in it so that is why the complaint about the lack of membership. As it stands, perhaps the society won't make any efforts to have you as a member but I do believe you will be a change maker via your letter. Stay with it, it works.

T.O.P.
