## Mortgage Sale.

TO be sold by PUBLIC AUCTION, on  
THURSDAY, the sixteenth day of Feb-  
ruary, A. D. 1882, at the hour of twelve  
o'clock, noon, at the Court House in  
Summerside, in Prince County, under  
and by virtue of a Power of Sale con-  
tained in an Indenture of Mortgage bear-  
ing date the eleventh day of December,  
A. D. 1879, and made between Patrick  
Cluney of the one part, and Edward  
Jarvis Hodgson of the other part,—

ALL that tract, piece or parcel of land  
situate, lying and being on Lot or Town-  
ship Number Three, in Prince County, in  
Prince Edward Island, and bounded as fol-  
lows, that is to say: Commencing at a stake  
fixed in the Bank at the shore of Lot Three,  
at the south-east angle of the northern margin  
of one hundred acres of land now in the pos-  
session of the said Patrick Cluney; thence  
west to a line running north and south, being  
the east boundary of lands held by Matthew  
Cahill, James Ahearn, Thomas Waid, and  
others; thence south such a distance that a  
line running east to the said shore and along  
said shore to the place of commencing, will  
contain an area of fifty acres of land, a little  
more or less.

Also, all that other tract, piece or parcel  
of land situate, lying and being on Lot or  
Township Number Three in Prince County  
aforesaid, bounded and described as follows,  
that is to say: Commencing on the shore of  
Lot Three in the south east angle of one  
hundred acres of land, bounding next on the  
south line of land now in the possession of  
Thomas O'Rourke; thence west for the dis-  
tance of one hundred chains; thence south  
for the distance of five chains, or as far as  
a line running east to the said shore, and along  
the said shore to the place of commencing,  
and will contain an area of fifty acres of land, a  
little more or less, being one moiety or half  
part of one hundred acres of land now in pos-  
session of the said Patrick Cluney.

For further particulars apply at the office  
of Messrs. Hodgson & McLeod, Solicitors,  
Summerside.

Dated this 12th day of January, A. D. 1882.

EDWARD JARVIS HODGSON,  
Mortgagee.

NOTES OF HAND, POSTERS,  
HAND BILLS, DODGERS, &c., &c.,

On Short Notice, in Good Style, at Cheap Prices,

## Public Meeting at Rollo Bay.

According to appointment by public  
notice, a meeting of the inhabitants of  
Rollo Bay and vicinity was held in the  
Schoolhouse in that place, on Thursday  
evening, the 26th inst., for the purpose of  
considering the question of improvement  
to the breastwork on the western side of  
Souris Harbor.

The meeting, consisting of about fifty  
electors, was called to order at 7 o'clock,  
when Richard Keefe, Esq., was elected to  
the chair, and the undersigned appointed  
Secretary.

Alexander Chaisson, Esq., first addressed  
the meeting. He sincerely sympathized  
with every farmer in the District that had  
to haul his produce two miles further than  
he was accustomed to do—over a bad road,  
in the short days of autumn, and generally  
to be delayed nearly a whole day in the  
cold before he could get clear of his load  
and return to his home. He felt it to be  
clearly the duty of the Dominion Govern-  
ment to have our shipping facilities im-  
proved in the west side of the Harbor, and  
hoped that our representatives in Parlia-  
ment would give their immediate attention  
to this matter—and thus remedy a most  
serious and unbearable grievance to every  
one in this section of the country.

Thomas Kickham, Esq., at the request  
of the chairman, next took the floor. He  
was entirely in accord with the views of  
the speaker preceding him. He very  
clearly showed that if something was not  
done—and done immediately, to repair  
and extend the old breastwork, this portion  
of Souris Harbor would, in a year or two,  
be worse than useless for shipping pur-  
poses. He greatly regretted that this  
matter had not been attended to before,  
and thought it too bad that the large  
amount of labor and capital already ex-  
pended on this side of the Harbor should  
be allowed to become a total loss to the  
country—especially as this meant loss and  
inconvenience to the inhabitants of Souris  
vicinity, and to the people generally for  
miles around. He believed that the Do-  
minion Government would see it to be their  
duty to place a few thousand dollars in the  
estimates of the present year to improve  
and complete the much needed public work.

Richard Keefe, John McPhee, Simon  
McLaren, and John Kickham, Jr., Esqs., each  
gave their views at some length on the ques-  
tion under consideration. They were all  
of one opinion respecting the great and ur-  
gent necessity of having this part of Souris  
Harbor attended to without delay; and  
thought it would be an unpardonable over-  
sight on the part of the Dominion Govern-  
ment to refuse a few thousand to carry  
out the wishes of so many interested  
people with respect to this important  
part of Souris Harbor.

Mr. J. R. Coffin, being present, was  
called on for a speech. He very greatly re-  
gretted the absence of our Dominion  
representatives, as he believed that no pub-  
lic question could be effectively discussed  
without having our representatives face to  
face with the electors. He did not blame  
them, however, in this instance, as the  
weather was so stormy—indeed, to him,  
the wonder was that so many were present  
under the circumstances; and this, of  
itself, manifested, better than anything  
else, the intense interest taken by the in-  
habitants around, in the matter before the  
meeting. It was admitted on all sides that  
this work should be performed at once. The  
only difference of opinion that might  
possibly exist, would be as to whether it  
was the Local or Dominion Government  
that should do the work. He was strongly  
of the opinion that the work should  
be performed by the Dominion Government,  
both on account of promises made by our  
foremost politicians to this effect, and also  
on account of the facts that the Dominion  
Government pays for buoying the channel;  
that they own a railway wharf adjacent  
thereto; that they collect customs therein,  
and that they take under their special care  
the lights, buoys, beacons and wharves in  
this and other parts of Souris Harbor, and  
especially because the railway leading to  
their wharf on this side of the Harbor, did  
at the time of Confederation become their  
property, and under the British North  
America Act, fairly interpreted, was by  
them forever to be kept in continual and  
efficient repair. On these and other grounds  
he felt that we were justified in calling on  
the Dominion Government, through our  
Representatives, to accede to our modest  
wishes, by granting us money sufficient to  
have the work referred to performed at an  
early day.

The following resolution—moved by  
Alexander Chaisson, Esq., and seconded  
by Simon McLaren, Esq., was carried  
unanimously:—

Whereas, the Breastwork on the west side  
of Souris Harbor, formerly built by private  
subscription and aided by a grant from the  
Local Government, previous to Confederation,  
has been suffered to go into disrepair, and, as  
a consequence, the channel is yearly becoming  
shallower, and so rendering navigation diffi-  
cult to vessels usually loading there.

And Whereas, this state of affairs subjects  
the inhabitants of this vicinity, and also a  
very large section of the country, both north  
and west, and embracing a large portion of  
Lots 42, 43, 44 and 55, to very great incon-  
venience and expense, both as regards the  
export of their produce and their general  
imports, particularly lime and limestones, for  
agricultural purposes.

And Whereas, the Dominion Government  
has now assumed the absolute control of our  
Harbors and improvements therein.

Therefore Resolved, that this meeting, here-  
by express the very great necessity of the  
immediate attention of the Dominion Govern-  
ment to the work of raising and extending  
the aforesaid Breastwork, and do hereby call  
upon our present representatives in Parlia-  
ment to use their most strenuous exertions  
towards getting a grant sufficient for this  
purpose at the coming session of the Dominion  
Parliament, in order that the said work may  
be commenced early the coming spring, and  
completed without any unnecessary delay.

A report of this meeting was ordered to  
be forwarded to the King's County Adver-

tiser, and THE EXAMINER AND ARGUS for  
publication.

A hearty vote of thanks was tendered to  
the chairman, and one of the most unani-  
mous meetings ever held in this part of the  
country, was brought to a close.

SILVESTER McDONALD,  
Secretary.

Rollo Bay, Jan. 26, 1882.

## Modern Dental Surgery.

METHODS OF NOTED METROPOLITAN PRACTI-  
TIONERS—RUBBER PLATES CONDEMNED.

(From the New York Scientific Times,  
4th inst.)

In the last issue of the Times was a refer-  
ence to the use of anesthetics in connec-  
tion with modern dental surgery, showing  
what important progress has been made in  
this branch of science since 1846. Equally  
great achievements have been recorded in  
connection with the application of artificial  
dentures for the mouth—a branch in which  
metropolitan practitioners particularly excel.  
Among those who are honorably promi-  
nent in connection therewith is Dr. Chas. L.  
Strickland, (successor to Dr. Griffiths) of 377  
Sixth Avenue. This gentleman has been en-  
gaged in the study and practice of dentistry  
for nearly a quarter of a century. The funda-  
mental principle of Dr. Strickland's practice  
in restoring lost teeth is the avoidance of any  
material containing mercury, lead or other  
poisonous substances which the ordinary  
rubber plates, at present in use, are alarmingly  
adulterated with, frequently causing much  
constitutional disturbance, such as head-  
ache, sickness of stomach, dyspepsia, as well  
as extreme tenderness of the mouth and  
adjacent parts. To obviate these serious ob-  
jections, and rectify them when existing, Dr.  
Strickland combines two substances of absolute  
purity and freedom from any mineral poison  
whatever, by means of which he constructs  
artificial teeth, of high artistic character,  
restoring all the natural functions of the  
mouth, however much impaired by either  
age or disease; the greatest durability is  
ensured, so that they are practically in-  
destructible, and in an ordinary case one  
set will serve a life-time; and lastly, but  
not least, the cost is such as to place them  
at the disposal of the most economical. We  
found the doctor a man of liberal and scientific  
attainments, possessing all the cour-  
teous attributes so requisite in one prac-  
tising such a delicate art as that of dental  
surgery.

## The Church.

In Worcestershire so great is the distress  
among many of the Established clergy who  
derive their income from glebe lands, now  
depreciated owing to the agricultural de-  
pression, that a fund is being raised for  
their relief.

Canon Knox-Little, who on his elevation  
to a canonry of Worcester, was expected to  
resign the living of St. Alban's, one of the  
most advanced Ritualist churches in  
Manchester, now, it is stated, declines to do  
so. A movement has been made to  
procure him for Ritualistic practices, and  
he declares he will "stand to his guns."

The Right Rev. W. S. Wigger, Roman  
Catholic Bishop of Newark, has declared  
anew the decision promulgated twenty  
years ago by Bishop Bayley, afterwards  
Archbishop of Baltimore, regarding the  
burial of incorrigible drunkards, wife beat-  
ers, and liquor dealers who sold to drunken  
men. This decision is that all such should  
be refused Christian burial. Incorrigible  
drunkards, the Bishop says, are those who  
habitually drink to excess and refuse  
to reform their lives when admonished  
by their pastors. Even though in their  
last moments they receive the last sacra-  
ments of the Church so as to help their  
souls, still would their bodies be debarred  
from consecrated ground. The rule  
applies to persons of both sexes, and will be  
rigidly enforced, the Bishop says.

The tobacco crop of Cuba will be a small  
one and of inferior quality.

One ton of bran to an acre is the best  
restorative of exhausted wheat fields.

The United States national debt was re-  
duced nearly \$13,000,000 during January.

Ice harvesting in Ontario is beginning to  
be brisk, owing to an expected demand  
from western cities.

A Montreal despatch says the Hudson  
Cotton Factory Co. have purchased a lot of  
land for \$10,000 beside their mill, to build  
offices on. Evidently the Company is prosper-  
ing.

Trouble is expected from the Indians  
near the cattle ranches at Fort Calgary, in  
the North-West. The Mounted Police at  
that point are being reinforced from Fort  
Walsh.

The official report shows the number of  
families burned out by the Michigan bush  
fires, last September, to be 3,075, and the  
total loss \$2,251,565, or an average of \$732  
per family.

A peculiar disease has broken out among  
horses in Wasco county, Oregon. The first  
symptom is the swelling of the legs, their  
breaking and running like bolts, which  
cover the entire limb, causing the hair to  
fall off, leaving the flesh raw and the an-  
imals very weak. The disease baffles the  
veterinary surgeons, and is increasing to an  
alarming extent.

Mr. John Dillon writes as follows to Mr.  
Forster, chief secretary for Ireland: "I  
have received your message, that if I desire  
to go to the continent the gates of Kilmainham  
prison are open to me. I do not know  
why the message was sent to me, as I have  
made no communication to you. If any  
representations have been made by my  
friends, they are without my consent or  
knowledge. I must request that you will  
not address to me any further communica-  
tions."
