

CORSETS!

Thirty Different Makes to Select From

ALSO THE WATCHSPRING CORSET

With Sliding and Detachable Watch Springs. Superior Whale-bone, Horn, Reed, Cord, or any other compound of Mexican Grass.

This is the most practical and common sense invention of the present period. The Springs are very flexible and lighter and yet more durable than any stiffener heretofore used in corsets.

They are not fixed or fastened permanently in the pockets, but are suspended, yielding to every conceivable movement of the body, whether bending, sitting, or stooping, and cannot penetrate the material of the corset.

These springs are unbreakable, of which any lady can convince herself by simply removing one of the springs and testing the same. With each corset two extra springs are enclosed, which can also be used for dress steels.

The corset is so constructed that it can actually be stiffened or bowed by the wearer at her pleasure. If the corset should hurt on the side, a complaint so general to other corsets, the spring can be removed. This can be accomplished by simply raising the flaps and withdrawing as many springs as the wearer may find convenient.

The WATCH SPRING, owing to the many superior advantages which it possesses, is to-day the cheapest and most durable corset ever offered to the public and one which will be the most acceptable to the wearer.

TEA! TEA!

OUR TEA TRADE IS BOOMING.

DURING the months of November and December our Tea Trade increased so much that we had to send an order to London for another supply, in order to keep us going till we receive our Spring Stock.

We attribute this large increase to the fact that we offered the public the best value in Teas on the Island, and they gave them a fair trial, and were convinced that what we stated was true.

We Won't Sell You any Tea that we cannot warrant. Call early and try a sample lot.

The diphtheria is evidently spreading at B-nshaw. We have already reported one death from this cause. The second occurred this week in the family of Mr. John B. McArthur, a six year old daughter being the victim. It is said that Mr. McArthur has lost 6 children in all by this malignant disease, 5 having died some years ago. The two remaining children are now sick. There are at least six families in the settlement reported to have the diphtheria, including one public house. No precautionary steps have yet been taken by the board of health, and there is great danger of this infectious malady spreading throughout the settlement.

Dyspepsia

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as he had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I can today weigh and I ascribe it to taking Hood's Sarsaparilla."

N. B. If you decide to take Hood's Sarsaparilla, do not be induced to buy any other.
