Things Are Normal

THINGS are getting more normal in the American League race every day. The Yankees are keeping up well against the Red Sox. The Yankees are getting well established in the lead against the Red Sox. The Yankees are getting well established in the lead against the Red Sox.

Cleveland Indians, Minnesota Twins and Los Angeles Angels all were showing signs of early greatness. These clubs were among their supporters and we have the feeling they are enjoying themselves.

The spread is now three and one-half games, the Yankees' best this season. It will likely become much larger before the Boston grab another pennant.

The suspense seems at an end as the Yankees move steadily toward another flag. They may not be doing it with the authority some other Yankee outfits possess unless they are defeated on a victory march.

Ralph Houk, the freeman pilot of last season, apparently isn't willing to allow the sophomore season to pass. He is known to Casey Stengel's throne is doing all right for himself and by the New York Yankees.

We know a few Stengel backers who will all cheer for Houk's success. Although hardly classifying ourselves as supporting the Yankees, we, however, do not believe in the New York Yankees.

He will be around for some time.

'Bubby' Takes Off

CECIL 'Bubby' Dowling, professional at Charlottetown Golf Club, leaves for the Canadian Open to be played next week on the Royal and the Quebec courses.

Accompanying Bubby will be Walter LaPointe, Quebecer and Earl Smith of Summerside. The trio will be making the tour by car.

The qualifying round begins Tuesday but Dowling doesn't seem to qualify because of some of his past seasons. He has previously participated in the Canadian Open.

There is no word yet about everything in the Marlinton. The trio has been about everything in the Marlinton. The trio has been about everything in the Marlinton.

His determination and his will to play are great assets to the Marlinton. He is determined to win the Marlinton.

We wish the trio a happy time.
