DEPARTMENT OF HIGHWAYS

NOTICE re PARKED VEHICLES on HIGHWAYS

The presence of parked vehicles on a highway constitutes a serious threat to the safety and efficiency of snow plough operators.

The co-operation of the public is requested to eliminate this menace by observing the following safety measures during the Winter months.

1. Don't park on the highway.
2. If you are forced to abandon a vehicle, be sure it is protected by lights.
3. If your car is buried in snow, be sure to return to it before the plough gets there, to mark its position and to avoid having it accidentally damaged.

Minister of Highways.

NOTICE

The practice of moving snow from private property, such as service stations, onto the highway is dangerous and may cause accidents.

The public are asked to refrain from this practice in the interests of safety.

CONCERNING SNOW-PLOUGHING and RURAL MAIL BOXES

Now that our snow ploughs are again engaged in the struggle to keep roads open to traffic, the matter of mail boxes comes to the fore.

While it is a fact that these boxes have no legal right to be installed on a highway, it is recognized that they do serve a useful purpose and are indeed part of our rural way of life.

But what happens when snow banks form on our road sides right where the boxes are usually placed? Obviously it is not possible to move the snow at high speed and spare the boxes. If we go slow we can avoid the boxes, but as we only raise the snow banks when we plough slowly, we are adding to our troubles instead of curing them.

If we are going to have open roads, they must be ploughed efficiently and that means as fast as the ploughs can safely operate.

I believe the answer lies in removing the offending mail boxes and replacing them with cheap temporary ones. If this is done, you will not only avoid damage to your regular mail box, but you will also have better Winter roads.

Your co-operation in this matter will be greatly appreciated.

J. PHILIP MATHESON,
Minister of Highways.
