

Wholesale Prices Show Different Trend In '66

OTTAWA (CP) — Businessmen are experiencing mid-winter price increases which are sharply different from the trend of wholesale prices just one year ago.

Last winter the Dominion Bureau of Statistics' wholesale price index, based on 1955-59 prices equalling 100, rose eight-tenths of a point to 246.8 in January from December.

The bidding:
North East South West
1♣ Pass 1♥ Pass
2♥ Pass 4♥

Opening lead—king of clubs. There is a right way of doing things, and a wrong way. Sometimes the wrong way works as well as the right way, but that does not prove that the wrong way is right. In bridge, you are generally better off to stick to the right way.

This hand illustrates the point—Let's say you're declarer at four hearts and West leads a club. After studying dummy you realize that two spades and a diamond must be lost in any

case, and that the outcome of the hand depends on whether or not you lose a trump trick. Generally speaking, when four to the queen of a suit are missing, you do best by playing the A-K and not bothering to finesse. But the mathematical advantage of this method of play is only slight, and in the present case you should not be willing to stake the result of the hand on such a narrow advantage.

Strangely enough, you can solve certain problems of play by more or less ignoring them, and that is exactly what you should do in this case. Instead of trying to guess whether to finesse or play for the drop of the queen, you should avoid a direct confrontation with the problem and let the play follow its own natural course.

The way to make the contract is by not leading trumps. Take the club lead with the ace; ruff a club; play a diamond to the king and ruff the last club.

Next cash the ace of spades and exit with a spade. After East-West cash their two spades and a diamond, you are left with the K-J-10 of trumps while dummy has the A-8-7. Regardless of which defender is on lead, or which suit is returned at this point, you are bound to make the last three tricks without bothering to finesse.

De Gaulle Reported Aiming At Full Alliance With U.S.

By HAROLD KING PARIS (Reuters) — President de Gaulle is aiming for a straight alliance with the United States—with a hot telephone line between his Elysee Palace and the White House in Washington—to replace French membership of NATO, informed sources said here.

They predicted the general will raise the subject in his press conference Monday with out fully disclosing his plans. The sources expected a pointed reminder from the French leader that by 1969, when the present NATO treaty expires, radical changes must be made or France will leave the 15-country alliance.

De Gaulle warned last September "by 1969 at the latest, the subordination known as integration within NATO will cease as far as France is concerned."

The president's objections to NATO are twofold: The integration at general staff level represented by Supreme Headquarters, Allied Powers, Europe under U.S. Gen. Lyman L. Lemnitzer places too much restriction on French military policy.

The consultation machinery in a 15-country alliance is too clumsy and too slow. A Franco-American alliance of mutual aid and defence could provide for a telephone line between the French and American presidents to speed decisions at moments of high crisis.

Diplomatic and military experts here consider France would need bilateral military treaties with other powers, especially West Germany and Britain, under de Gaulle's plan.

DAILY CRYPTOQUOTE — Here's how to work it:
A X Y Z L B A A K E
L O N G F E L L O W
One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
