WORK PROGRESSING SATISFACTORILY ON HIGH SCHOOL AT NORTH RUSTICO

Designed and built for service and utility, the modern school edifice is usually free of outward adornments and presents an appearance of permanence and solidity. The new high school now under construction at North Rustico, situated on a hillside overlooking that progressive business centre recently raised to the status of an incorporated village, is so designed. The new structure fits nicely into an area group of buildings consisting of the Church, the parish hall, the convent and parochial residence, all identified over many decades by the name which will be given the new high school—Stella Maris—"Star of the Sea."

The high school is designed to provide higher education for students in an area considerably beyond the confines of North Rustico, of which that village is the natural centre and the most densely populated by children of graded and high school age.

Occupying the site of the old school building, which had previously been a canning establishment of the Portland Packing Company, hauled up from Rustico Harbour in 1938, work on the new building was started on July 7 and will be completed early in the new year.

MODERN LAYOUT

The layout consists of two "L" shaped wings which converge on the main entrance facing the south. A new type construction provided for the wings to be laid on six inch cement slabs, without excavation. The grade school wing is 146 feet long and contains six class rooms 31 by 22 feet. The high school wing is 120 feet long, with four class rooms also 31 by 22 feet. Both wings are 38 feet wide. The high school rooms will be equipped for chemistry, physics, biology with a modern fully equipped laboratory in keeping with recognized standards in a school of this type.

At the centre of the building, immediately inside the main entrance, the home economics an-

sewing rooms will be located, as will also the music room, the library and a teachers room. Folding doors between the music room and home economics may be opened back to provide for an assembly hall large enough for minor gatherings. Larger assemblies will be taken care of in the new Parish Hall now nearing completion.

The centre portion of the building, under the main entrance is the only part excavated, and here, in addition to the furnace room, with oil burner steam heating equipment, a manual training area has been arranged for. A large playroom is also provided for in this area.

The high school will be fitted with fluorescent lights and otherwise lighted with block glass fitted window frames throughout. The interior walls are painted gyprock

and fire-stops are being placed at intervals in the corridors. Cloak-room facilities equipped with hangers throughout the corridors, take the place of individual lockers. The exterior is finished with white asbestos cedar green shingles. A large recreational centre has been laid off immediately north of the new high school, with provision and equipment for supervised play at various school age levels. The school grounds will be graded and landscaped as early next spring as conditions will permit.

The teaching staff will consist of seven sisters of the Congregation of Notre Dame and three lay teachers.

The work is progressing according to schedule under the contractor R. Earle Gallant with a crew of twelve men. W. W. Downie, representing the architects, Downie, Baker and Ahern of Halifax, after making a periodic inspection last week expressed himself as well pleased with the material, workmanship and progress to date. Rev. Eric Robin is pastor of Stella Maris parish.

Miscouche

—Mr. and Mrs. Eddie Doucette of Halifax, N. S., are spending their vacation in Miscouche, at the home of Mrs. Doucette's parents, Mr. and Mrs. William Perry.

Mrs. Urban Gillis of Miscouche recently left for California, U. S. A., where she will spend some time visiting relatives and friends.

Mr. and Mrs. Gus MacKinnon and daughter, Margaret, recently arrived at their home in Miscouche after having spent the past month visiting in Cincinnati, Ohio.

Aloysius DesRoches, who is in the Royal Canadian Navy, recently visited in Miscouche at the home of his brother, Gerald DesRoches.

On October 8, a field-day was held at Marian Academy, Miscouche. Prizes and ribbons were awarded for different races.

Mrs. Herbert MacKinnon of Cincinnati, Ohio, recently spent several days in Miscouche at the home of Mr. and Mrs. Gus MacKinnon.

The Guardian Page 13 Wednesday, Oct. 13, 1954

Frank Gaudet of Charlottetown, was in Miscouche on October 10, visiting at the home of Mr. and Mrs. Alban Gaudet.

Lorraine McNeill, who is attending Prince of Wales College, Charlottetown, is visiting in Miscouche at the home of her parents, Mr. and Mrs. Leonard McNeill.

As the desert camel-rider once said, "There's always a hump ahead."
Yes — even the folks who claim life is a merry-go-round have their ups and downs.
Regardless of who you are, along life's road you'll find unforeseen problems, emergencies or opportunities... times when tucked away reserves are a mighty handy thing to have.
To build such cash reserves — easily and safely — more than a million Canadians each year invest in Canada Savings Bonds.
Canada Savings Bonds are available now — for cash, or in weekly or monthly instalments — at your bank, investment dealer or through your company's Payroll Savings Plan.
And what's important — your Canada Savings Bonds are always immediately cashable at full face value plus earned interest... a tucked-away reserve of cash for any time that you may want or need it.
Be ready for future ups and downs. Save safely — pile up your savings — with

Canada Savings Bonds

Available for cash or in easy instalments through your Banks, Investment Dealers, Trust Companies, or through the Payroll Savings Plan where you work.
