WHAT ANIMAL with a bit of "horse sense" wouldn't be elated at being declared a supreme grand champion! With this recognition at the Live-stock Exhibition held yesterday in conjunction with the Summerside Lobster Carnival it is perhaps little wonder that this top choice in the roadster division, owned by Stanley Mayhew of Kinkora, stands up to take a bow from the spectators watching this interesting event.

# Ponies Dominate Classes At S'side Livestock Show

BY GEORGE WOTTON

Ponies dominated the horse classes at the Livestock Exhibition yesterday at Summerside, held in conjunction with the Summerside Lobster Carnival.

Horses and sheep were shown yesterday, and the entire exhibition will be taken over today by the cattle entries representing eight different breeds.

Lorne Ferguson, of Hampton, yesterday won the supreme grand championship in the draft horse division, while the reserve grand championship was won by Alfred Schurman of Summerside.

Stanley Mayhew of Kinkora won the supreme grand championship in the roadster class, with the reserve award going to Russell Quigley of Carleton Siding.

In a class of 10 entries for ponies under 42 inches in height, the top three winners were Wendell Burgoyne of New London; Pope Thorne of West Royalty and George Riley of Malpeque.

Winning ponies over 42 inches were owned by Stanley Mayhew of Kinkora, Pope Thorne, West Royalty; and Wendell Burgoyne of New London.

Mr. Burgoyne and Mr. Mayhew owned the winning mare and foal ponies; and top yearlings belonged to George Riley, Pope Thorne, and Heather Burke of Charlottetown.

George Kitson, Hampshire was judge of the horse and pony classes.

SHEEP CLASSES

In the sheep classes the top awards in all Shropshire and market classes were won by W. A. Moase of New Annan; with William Haggerty of New Annan, a close second, in total points.

The sheep entries were judged by Almond Boswell of Dunsmuir, Prince Edward Island.

Graeme Linkletter, secretary of the Livestock Exhibition Association was announcer of the various classes and the winners, and was assisted in this work by the president, Keith Barrett.

FARMERS DAY

Today the cattle entries total 350 from 65 farms representing areas between Alberton and Charlottetown. The entry list this year is the biggest in the four-year livestock exhibition, and includes 20 new exhibitors this year.

Today has been designated "Farmers Day" at the lobster carnival, and cattle that will be entered in the various classes began arriving at the stadium yesterday afternoon. Breeds that will be seen today include Guernsey, Holstein, Jersey, Beef Shorthorn, Ayrshire, Hereford, Angus and Dual-Purpose Shorthorn.

Judging will begin in the show rings beside the new cattle barn just north of the stadium at 10 a.m. and continue through until 4 p.m. or until judging is completed.

TODAY IS FARMERS' DAY

# S'side Lobster Carnival Passes Half-Way Mark

By GEORGE WOTTON

SUMMERSIDE — The Summerside Lobster Carnival reached the half-way mark at midnight last night in the week long program of events designed to interest and entertain the hundreds of visitors with a variety of events each day

Yesterday 15 records were broken at the Maritime invitation track and field sports day program, and a livestock show had at least 25 ponies competing in the horse classes.

Last evening an exciting harness racing program was held at the raceway, and the stadium audience watched the preliminary judging of the "Miss Prince Edward Island" contestants, the feature acts, a demonstration by Summerside majorettes, and enjoyed an hour long band concert by 19 members of the Miscouche band.

The three judges for the Miss P.E.I. contest are Mrs. Henry W. Wedge, Summerside, a judge at last year's contest, and two ladies from Natick, Mass., Mrs Virginia Winner and Mrs. Ruth Townes.

CHILDREN TREATED

During the afternoon 28 children from the Mount Herbert orphanage were treated to an enjoyable visit to the carnival through a committee of the provincial command of the Canadian Legion under chairmanship of Lester Jenkins of Summerside. These youngsters joined others in having fun on the midway, inspecting the carnival displays in the stadium, and enjoying the delicious lobster suppers served daily in the stadium from 4 to 8 p.m.

This morning two Canadian Navy ships, HMCS Lanark and HMCS Buckingham are scheduled to sail at 10:30 a.m. from Summersides marine wharf where they have added to the carnival atmosphere and their sailors participated in the opening day parade Monday shortly after their arrival.

Today has been designated as "Farmer's Day" at the carnival, and judging of eight breeds of cattle will conclude the two-day livestock exhibition held in conjunction with the lobster carnival.

BABY CONTEST

A baby contest for youngsters one to two years of age will commence in the stadium at 2:30 p.m.; a mammoth bingo at the Royal Canadian Legion Home will get underway at 8 p.m.; while the big $2,500 free-for-all harness race will be one of eight race events commencing at 8:15 p.m. under the lights at the raceway.

This afternoon the contestants in the "Miss Prince Edward Island" contest will attend an informal afternoon tea at the legion home where the judges will meet them individually. In the evening the 17 contestants will appear on the stadium stage for preliminary judging at 8:45, and will be followed by a majorette demonstration featuring the Summerside majorettes.

The feature acts today will be seen in two performances at 8 and 11 p.m. and the Bill Lynch midway will run from 1 p.m. to midnight

The delicious lobster and chicken suppers will be served daily from 4 to 8 p.m. and all of the carnival booths and exhibits will be open for public inspection until midnight.

Tomorrow, Friday, will be highlighted by the selection of the new Miss Prince Edward Island at 9:30 p.m., and full range of carnival events will continue throughout the day and evening.

## Painter Killing Is Re-enacted

BOSTON (AP)—A team of five homicide detectives Wednesday reenacted Tuesday's slaying of a painter who was shot as he worked on the roof of a one-storey welding shop in South Boston.

The detectives were trying to determine the angle at which a .22-calibre slug buddied into the head of John F. Redfern, 40.

Lieut. Edward Sherry explained that the manoeuvre could help narrow the number of nearby rooftops, or windows, from which the unidentified killer fired.

Chemists and ballistics experts were among those on hand, measuring and calculating.

Police picked up another .22-calibre rifle they found in a car filled with teen-agers.

They now have five for ballistic tests.

Several residents of the area reported to police they have heard gunfire in the last 10 days and that they saw pigeons whirling from the roof of the welding shop.

# Two Injured At Park; Laundry Is Destroyed

Two men suffered first degree burns to their arms and face in a fire which destroyed the laundry building at the Cavendish camping group of the National Park at about 3 o'clock yesterday afternoon.

Elwood Cameron, driver of a Speedy Propane gas truck, of Summerside, was taken to the Prince County Hospital, and the second man, Lesley Brown, of Wheatley River, park labor foreman, was admitted to the Charlottetown Hospital.

The two injured men were given treatment at the scene by an unnamed doctor who is reported to be vacationing in the park.

Park Superintendent Alan Ede, reported that the gas truck was making a delivery at the laundry, when an explosion occurred, which was followed by rapidly spreading flames.

He paid tribute to the prompt action taken by campers in the area, in making immediate use of the hoses and hydrants located at the camp site.

PREVENT SPREADING

"Their quick action in attempting to douse the flames certainly prevented the fire spreading to the surrounding trees", Mr. Ede said. He pointed out that backed by the strong winds and coupled with the dryness of the wooded areas the fire could well have attained extremely serious proportions.

As it was the campers prevented the flames from spreading until the park firefighting equipment arrived. This was later strengthened by the arrival of the North Rustico and New Glasgow fire departments.

In addition to firefighting several of the campers undertook to help on traffic control duties, which allowed firefighting equipment to move freely in the area.

WON'T INTERFERE

Mr. Ede said that the loss of the building will not interfere with the operation of the camp site, although it will mean that the campers will now have to find laundry into Charlottetown or Summerside.

He did not give any estimate of the value of the damage and was unable to say whether or not the laundry will be reconstructed right away.

He said that as far as could be learned it was the first accident of this nature which had ever occurred in Canadian parks history where thousands of propane gas deliveries have been made before without incident.

The investigation of the fire, not completed yet, is being carried out by Cpl. E. F. Elliott, Charlottetown RCMP, and members of the park warden service.

# Aquatic Day Is Planned For Tignish Swimmers

TIGNISH — Red Cross swimming and water safety courses commenced in Tignish with an enrollment of 140 children and adults in five different classes of beginners, juniors, intermediates, and senior life-saving.

This is the largest number ever enrolled at Tignish.

The classes sponsored and supervised by the Tignish Sports Recreation Association, are meeting with much success. Instructors Leo Broderick and Lorraine Phee hold classes from 9 a.m. to 4 p.m. daily and from 7 to 8.30 p.m. to accommodate the large classes. More than 90 are beginners

This is the first time adult classes have been held at Tignish. Seven adults have registered, three as beginners and four are in the junior class.

This year the Red Cross swimming and water safety committee has decided to incorporate a new idea into its program, each community and camp on Prince Edward Island will have the opportunity of holding an Aquatic Day during the summer.

This Aquatic Day will provide an excellent opportunity for some spirited competition and friendly rivalry. The purpose is not to break swimming records, but to promote appreciation of sports, water safety and provide a needed break in the swimming course.

The Red Cross has appointed David Miller as a supervisor to help the local chairmen. He will be at the Tignish swimming area Tuesday afternoon, July 23, for the Aquatic Day now planned by the Recreation Association and swimming instructors at Tignish.

Plans are also shaping up for an outdoor cook-out for the members enrolled in all classes of the swimming courses.

Parents and friends will be welcome to attend on that day.

## ARBITRATION

(Continued from page one)

they are opposed to arbitration in any form. The act presumes to deny people the right to strike, and the same act gives rights to organize. There must be some method to settle labor disputes."

"The arbitration proposal will test the sincerity of the Shaw government," he maintained. The meeting decided to delay for 10 days the informing of the public by placard, pending action or lack of action by the government.

FREEDOM STRESSED

"I cannot understand a government that will provide in its labor relations act the right to organize and fail to provide the machinery to bring about a collective agreement, there must be free collective bargaining in a free society—if there is no free collective bargaining then we haven't a free society."

Mr. MacMillan does not agree that a wage increase to the two city hospitals will mean a like increase in employees in every Island hospital. "Across Canada many unionized hospitals in the same city have different rates of pay," he said.

The regional director also takes issue with the million dollar estimate to cover the requested increases, and maintains that the cost would be no more than $50.000, 60 per cent of which would be paid by the federal government.

He also believes that the public has been given misleading information regarding regular yearly increases to hospital employees.

The increases go from the minimum to maximum in two years; and there are no general increases in wages after the first 24 month period, he said.

M.A. Hughes, Saint John, N.B., another national union representative, attended last night's meeting, and will remain in the province for some time.

SPEAKERS NAMED

OTTAWA (CP) — George Brown, deputy leader of the British Labor party, and Ralph Helstein, president of the United Packinghouse Workers (CLC) will be guest speakers at the federal convention of the New Democratic Party in Regina Aug. 6-9, it was announced Wednesday.

PROMISES HELP

RAWALPINIDI (Reuters) — Pakistan would be helped by "the largest state of Asia" if she were attacked by India, External Affairs Minister Z. A. Bhutto told the National Assembly here Wednesday. He declined to say whether Pakistan had a secret pact with Communist China. But he said this was the "new element" to be kept in view when assuming Pakistan might have to face an armed attack from India.

## MAYOR

(Continued from page 1)

tation, told the councillors the purpose of the "Turtle Club" which originated in Vancouver and is now international, is to promote the use of protective helmets as safety devices. Membership in the club is given to those whose lives have been saved by the use of such headgear.

Mr. Campbell said Corporal Wakelin's life had been saved by his helmet when, on May 4, he was thrown from his motorcycle when on his way to a fire. He had sounded the siren and all cars on the street pulled over except one, which made a sharp left turn and collided with the motorcycle. Corporal Wakelin was knocked unconscious and was taken to the hospital for several hours but, because he had been wearing his helmet, had not sustained serious injuries.

Mr. Campbell commended the city for supplying the motorcycle patrol with helmets, and added he hoped the patrol cars would be equipped with seat belts in the near future.

In accepting his award, Corporal Wakelin expressed his thanks to the City Council for their "foresight in supplying the patrolmen with helmets."

Mayor Gaudet added his congratulations to Corporal Wakelin, both for his award, and for the "high esteem" in which he is held by the city.

DRIVING SCHOOLS

Mr. Butler told the councillors that the Maritime Automobile Association were strongly promoting driver training schools for teenagers for a double reason: "(1) to help prevent accidents and (2) to reduce insurance rates."

Mayor Gaudet thanked Mr. Butler on behalf of the community and paid tribute to the city police department for their major part in the earning of the national award. He particularly commended the work of police committee chairman, Councillor William R. MacNeill, police chief Sterns Webster, Inspector A. J. Dowling and the traffic division, and "those of our good citizens who have some regard for safety regulations."

The mayor also expressed the city's pride in John Andrew, who recently placed third in national safe driving contest in Quebec City.
