GEORGE MACLEOD (Union Bank),
Agent for Prince Edward Island
June, 1877—

The Peace Congress.

England has carried her first point, which was a demand for the admission of Greece to the Congress of the Powers now sitting at Berlin. Greece is to be admitted with a consultative voice in all questions affecting Greek interests. This is all that could reasonably be demanded for that country, for Greece was not one of the signatories to the Treaty of Paris, and therefore could scarcely claim to have a voice in any Congress for its revision. But she had a right to demand that, in matters in which her interests were affected, she could be consulted, and in this demand she was backed up by the influence of England, and the result was that Greece has been admitted. This is a great triumph for British diplomacy, and a proof that British influence is paramount at the Congress. —St. John Telegraph.

Tariff Changes.

The Vice-Consul General of the United States in Australia is advocating certain changes in the tariff of the United States and of the colony, in order that the United States may control all the trade of Australia. We read as follows:—

"An increase in the wool trade with the United States would result in an increase in the importation of manufactured articles and products thence to Australia. At present nearly all American products are subject to high duties in Australia, enhancing the cost and diminishing the demand; but the Vice-Consul thinks that a reduction of American wool duties would lead to a reciprocal reduction of the Australian duties on manufactures, lumber, tobacco, tinned meats, fruits, hardware, tools, and very many other articles which he mentions. Were the Australian tariff lowered on those articles, the United States could practically secure the monopoly of the trade in them of all Australia."

Crop Prospects in Great Britain.

The *Mark Lane Express*, in its review of the corn trade during the past week, says:—

"Scarcely any improvement has taken place in the weather for the past week. Showers have been so frequent that the intervals of warmth and sunshine have been too brief to dry the saturated soil upon which the standing crops are all suffering from the continued wet and cold. With cold winds, heavy rain and occasional night frosts the cereals have made very little progress of late on any soil, barleys having suffered considerably, and it is admitted on all hands that the excessive humidity of the past six weeks has seriously compromised the agricultural prospects. Until within the last few days the growing crops in Scotland did not suffer to the same extent as in England; now, however, matters have changed for the worse. Floods have occurred in many of the Lowland districts, doing vast damage. In short, dry, sunny weather is wanted now more than ever throughout the kingdom if the luxuriant crops of grass and clover are to be secured in anything like good order."

POLITICAL NOTES.

St. John, N. B. News, a "Reform" paper:—"It is in order to note that the Lieutenant Governor's act, in dismissing a Ministry commanding a majority in the Provincial Assembly, has been constitutionally condemned by the Quebec people. On that point there is no room for dispute."

The vote in the United States House of Representatives, on Monday, on the bill for the payment of the Halifax award may be regarded as conclusive that Ben Butler and his miserable associates will not be able to disgrace the nation. The *New York World* calls strongly upon the Democracy not to allow the honor of the Republic to be smirched in their hands.

The Grit leader is just now engaged in lustily whistling to keep up his own courage and that of his supporters in the country. He professes to have great faith in the result of the next election. The weaker he finds himself the louder does he whistle. The other day he was satisfied to come back with a small working majority; he is now boasting that he will come back as strong as when he goes to the electors. Mr. Mackenzie believes nothing of the kind. He well knows to-day that he is a beaten man.

Mr. Patterson, the Beanerages of Brant, told his hearers at the North Norfolk nomination that for the entire increase of the public debt under the present Government Sir John Macdonald's Ministry was responsible. No doubt they must also be held responsible for the steel rails purchase, and Mr. Mackenzie's public works jobs, and Mr. Cartwright's deficits, and Mr. Blake's staying powers, to say nothing of the modern developments of Socialism, the late iron-clad disaster in the English Channel, the atrocities in Bulgaria, and the Kafir war. Make it strong and hot while you're at it, Mr. Patterson.

"Atlas" in the *London World*: "Meeting Nilsson at the Hungarian tavern at the Paris Exhibition the other day, listening to the Tziganes, and drinking tokay, I learned that she was taking holidays, having declined all engagements in England and abroad, even refusing to sing in Paris. 'For when I sing,' she said, 'I can do nothing else, and cannot venture on sight-seeing for fear of cold and sore throats; and so I know nothing of either England or France, though I am so often there.'"

THE WORKSHOP.

The practice of pressing on the edge of a razor in stropping soon rounds it. The pressure should be directed to the back, which should never be raised from the strop. If you shave from heel to point of the razor, strop it from point to heel; but if you begin with the point in shaving, then strop it from heel to point.

A cement that will resist water and a moderate degree of heat, and that will also be useful in joining small pieces of marble and alabaster, may be made as follows:—Add a half pint skimmed milk, mix the curd with the whites of five eggs well beaten, and sufficient powdered quicklime sifted in, with constant stirring, so as to form a paste.

Wooden taps and faucets are prevented from cracking by putting them in melted paraffine and heating them there at a temperature of 212° Fah., when the taps are taken from the bath and cleaned from the adhering paraffine by rubbing with a dry, coarse piece of cloth.

Lime slaked with sour milk and diluted with water till it is about the consistence of ordinary whitewash, forms an excellent coating for woodwork, protecting the same against the weather for several years. The casing of the milk in combination with the lime forms a permanent film, which dries so quickly in warm weather that heavy rains falling directly after it had been laid on will scarcely affect the work.

To clean soft mahogany or other porous wood scrape and sandpaper in the usual manner; then take a sponge and well wet the surface, to raise the grain; then with a piece of pumice stone, free from stony particles and cut the way of the fibres, rub the wood in the direction of the grain, keeping it moist with water; let the work dry, then wet it again, and the grain will be much smoother and will not raise so much; repeat the process, and the surface will become perfectly smooth and the texture of the wood much hardened.

Paper-hanger's paste is made as follows: Beat up four pounds of good white wheat flour in cold water—enough to form a stiff batter, first sifting the flour; beat it well, to take out all the lumps; then add enough cold water to make it the consistence of pudding batter; add about two ounces of well pounded alum; pour boiling water, direct from the fire, gently and quickly over the batter, stirring rapidly at the same time, and when it is observed to swell and lose the white color of the flour, it is cooked and ready. This will make about three-quarters of a pail of solid paste. It should not be used while hot, but allowed to cool, when it will go further.

PERSONAL.

Joaquin Miller is in England. Persia's Shah has leased a villa in the suburbs of Vienna for the summer.

John B. Gough has gone to Europe, where he intends stopping two years.

Mr. Chas. Reade's sister, who has just died, was a god-daughter of Warren Hastings.

The Premier and Mrs. McKenzie celebrated their silver wedding at Ottawa last week.

Both branches of the Quebec Legislature will present Lord Dufferin with farewell addresses on Saturday.

Signor Cairoli, Prime Minister of Italy, is exerting himself to bring about an international exhibition at Rome in 1881.

Robbins, an American, has been arrested at Toronto, for circulating Bradlaugh's work, "The Ernests of Philosophy."

Senator Bruce, the only colored man in the United States Senate, marries a white lady next month, and goes to Europe on a wedding tour.

The Judges of England attended divine service at St. Paul's London, on June 2nd, on which occasion, says the *London Times*, a splendid nosegay was presented to each Judge.

Chief Justice Allen, of New Brunswick, has accepted the position on Ontario and Quebec Boundary Commission, rendered vacant by the death of ex-Governor Wilnot.

English visitors are severely criticised in Paris for appearing at the grand opera and other theatres (where full dress is usual) attired in gray suits, red cravats and felt hats. Mer Majesty opera in London is rigorous towards Frenchmen in etiquette.

Mr. Edmund Beckett writes to the *London Times* that "one doesn't learn much at church congresses, but I did learn the value of the rule limiting speeches at the only one I ever attended. All the men who were worth hearing could say all they wanted in a quarter of an hour, and those who were not were very beneficially extinguished by the President's bell."

The Shah of Persia was in Berlin at the time of the attempted assassination of the Emperor, and left the castle in which he was lodged to enquire personally about his wounded host. This is how he did it:—A member of the German diplomatic service was coming down from the palace, and was stopped for a minute by the impassable crowd. Just then somebody whispered in his ear in broken French, "Monsieur! can you give me any news about the Emperor? Je suis le Shah de Perse!"

At a mass meeting of members of the various Orange Lodges in Ottawa it was decided to make the anniversary celebration this year an unusually attractive one. There will be a procession of the Orangemen, Young Britons, 'Prentice Boys, and True Blues in the forenoon, and a picnic on the show grounds in the afternoon, at which Liberal prizes will be offered for games, etc. A large number of the members of the Orders in Carleton, Russell and Ottawa counties have signified their intention of joining in celebration, and it will probably be the best held at the capital for some time past.
