Designed to Educate Young Men
for Business.

OUR SYSTEM is conducted on Actual
Business and Scientific Principles, and
embraces all subjects necessary for a thorough
COMMERCIAL Education. Our facilities for
teaching these are the most complete that have
ever been devised. Theory and practice are
combined, and the whole course rendered so
interesting and practical that the dull student
cannot fail to be largely benefited. The
course of study is short, practical, useful and
reasonable; it is just what every MAN needs
and will use, no matter what his calling or
profession is to be.
The youth commencing a business life with
only industry and integrity as his capital, the
clerk engaged during business hours, but
desirous by evening study to repair the
defects in his education, each have the advan-
tage offered by our sessions occupying DAY
AND EVENING. Morning Session, 9.30 to
12, and 2 to 4 p. m. Evening Session, 7.30
to 9.30.
Diplomas granted to such as pass satisfac-
tory examinations. Students may enter at
any time. No entrance examination required.
Business men and others are cordially invited
to call and examine our system.
Teach your sons what they will practice
when they become men.

CORRESPONDENCE.

We do not hold ourselves responsible for the
opinions or statements of our correspondents

Bank of P. E. Island.

To the Editor of the Examiner.

SIR.—Much has been written of late upon
this question, and it is gratifying to know that
an active interest is manifested. If, unfor-
tunately for our people, the Bank goes into
liquidation, the lauded property, at present
recognized as a considerable portion of the
assets, would be forced upon the market and
sold at a sacrifice—we may safely affirm that it would
be sold at fifty or seventy per cent. below cost.
By resuming business and holding such prop-
erty for a few years, the value would be
greatly enhanced. The wisdom of this course
is apparent.

A though not fully endorsing every scheme
advanced by your correspondents (ergo
"Equity") I am satisfied that a compromise is
at present necessary, and in the best inter-
ests of the people.

We may well dread the enormous sums of
money which will be squandered, should
liquidation be decided upon. The lawyers,
vulture like, would surround the carcass of
the defunct institution, and gorge themselves
to their utmost capacity. This being done, I
fear that the balance left the Bank's creditors
would be infinitesimally small. It is in the interest
of all that the directors promptly con-
sider the suggestions offered. Depositors and
other creditors will no doubt, unhesitatingly
consent to a fair compromise.

As the adjourned meeting will be held on
Thursday next, 20th inst., a draft state-
ment to this effect should be submitted to
those present, and the appointment of an
active committee made, so that no time will
be lost in bringing matters to a satisfactory
termination.

Ch'town, April 17, 1882.

To the Editor of the Examiner.

DEAR SIR—I fully endorse the senti-
ments of "Great Seal," whose letter
appeared in a late issue of your paper. I
happened to overhear a conversation, on
the street, some time ago, which I will give
as correctly as possible, hoping that it may
prove interesting.

Mr. A—"Well, Donald, what do you
think about this seal affair?"

Donald—"I dunno; what seal affair?"

Mr. A.—"Why, didn't you hear that they
are so numerous to the north and east of
the Island, here, that the smaller, in order
to escape the crush, make for the shore?"

Donald—"Wall, Wall! I never heard it.
Tell us."

Mr. A.—"Why, yesterday, when Mr.
Elisha Morrow, of North Lake, went out
to the pump, the first thing to meet his
gaze was a seal, which he found by track-
ing had come ashore at the entrance to
North Lake, and made straight for the
habitation of man, to make his mute com-
plaint."

Donald—"Wall, that's queer. By golly,
there must be a lot 'un round here, too."

Mr. A.—"Yes, it's strange, but true."

However strange and uncouth this con-
versation may appear, yet it is true that such
was the case; but whether the inference,
drawn from the circumstance, be
correct or not, remains an open question.
In conclusion I hope that some means may
be taken to open up this new industry—
new for P. E. Island—thereby removing
the grievance of the

Souris, April 15, 1882.

LITTLE SEAL.

FRIDAY night seems to bring its fire in
Souris. Its citizens were startled on Sat-
urday morning last to hear that, during the
previous night, the steam mill property
and furniture factory of Wright Bros. was
burnt to the ground. The loss incurred by
the destruction of the property, machinery,
tools, and a large quantity of lumber, is
estimated at \$10,000. No insurance.
Every precaution was always taken against
fire, and on the Friday mentioned the
building was thoroughly swept, and besides,
the only part in which a fire was that day,
viz., the engine room, was the last to be
consumed. This shows that the fire was not
accidental, but the work of some black
hearted incendiary, whatever may have
been his object or motive. We deeply
sympathize with these enterprising and re-
spectable young men, whose honorable
conduct made them respected by all classes
and creeds. The country will greatly feel
this loss, and we feel as if just retri-
bution will yet overtake the midnight ruffians who
caused this ruin and trouble.—Com.

On Good Friday night, the 7th inst., a
barn, the property of James McLau-
hlan, Esq., Souris, was discovered to be in flames.
Nothing could be done to save it, and it
was totally consumed, together with a quan-
tity of hay and straw. A horse also
perished in the flames. It was insured.

LONGEVITY IN GREECE.—After a com-
parative study of national longevity, a
German statistician has reached the con-
clusion that Greece offers a better chance
for long life than any other country, and
that extreme old age is more often attained
in the Orient than in Western Europe.
Several instances of wonderful longevity
are given, of which, perhaps, the most
striking is recorded by the Chief Physician
of the Greek army. He states that he was
recently called to attend a priest who was
born in 1758, ordained in 1797, and who
had served one parish, the Commune of St.
Brazil, for 81 years. He had never before
been ill, and at the age of 120 cultivated
his patch of ground with his own hands.

On Tuesday evening Montreal was visited
by a terrific hailstone and lightning storm,
such as never were seen there before.
Thousands of dollars' worth of glass was
destroyed, and numerous injuries were in-
flicted upon man and beast, none however
fatal. Grapevine, a small town west of
Montreal, was almost annihilated, one
house was turned entirely over and the in-
mates badly injured. There are rumors of
loss of life and property elsewhere.

Newfoundland Seal Fishery.

The seal fishery of Newfoundland, which
at first had a gloomy outlook, has proved
an unprecedented success.

A telegram from St. George's Bay (on
the 11th.), on the west coast of Newfound-
land, states that the sealing fleet is having
unprecedented good fortune among the oil
fields of the Gulf of St. Lawrence. Four
vessels are reported to be loading within
sight of the highlands of St. George's, and
were crushed. One of them has been
secured by the shoremen and safely landed.
The mail steamer "Newfoundland" is still
missing since Friday. One hundred and
thirty icebergs have come in sight of Cape
Race, most of them being of enormous
dimensions, and have passed away south-
ward.

The Dundee sealing steamer Artie, Capt.
Adams, has just arrived with 24,000 seals,
old and young, which is regarded as a very
heavy trip. She reports favorably of nearly
all the fleet. The Aurora has 9,000
seals; Thetis, 15,000; Proteus, 10,000; Ran-
ger, 9,000; Walrus, 7,000; Esquimaux, 9,
000; Narwhal, 9,000; Resolute, 9,000; Bear
7,000; Falcon, 9,000; Eagle, 9,000; Commo-
dore, 10,000.

The following steamers arrived at St.
John's previous to the 11th inst., Leopard,
6,500; Panther, 9,500; Wolf 5,000; Hector,
2,500; Neptune, 4,000; Nimrod, 9,000.
The Artie also arrived, bringing in 24,000,
and reports the Aurora with 9,000; Thetis,
15,000; Proteus, 10,000; Ranger, 9,000;
Walrus, 7,000; Esquimaux, 9,000; Narwhal,
9,000; Resolute, 9,000; Bear, 7,000; Fal-
con, 9,000; Eagle, 9,000; Commodore, 10,000;
a total catch as far as reported of 168,000
seals.

I. N. L. Convention.

The Irish National Land League met
at Washington last week. On the 13th
passed resolutions setting forth in strong
terms the grievances of the Irish people;
recognize this as an American as well as an
Irish question; express profound sympathy
for tenant farmers in Ireland; endorsing
desire of Irish people for National existence
and pledge lawful support to that end;
advising continuance of passive resistance
and unflinching adherence to policy left by
imprisoned leaders; express gratitude to
the ladies of Ireland for their noble work
and pride in the Christian forbearance of
the Irish people under their exasperations;
charging the British Government with
responsibility of all crimes of an extraordi-
nary nature occurring since the imprison-
ment of the chosen leaders and while not
asking the release of any citizen who
violated any just law, demand, not as a
favor, but as a right, the immediate trial
or unconditional release of American citi-
zens confined without accusation in foreign
jails. The following are the officers for
the ensuing year:—

President—James Mooney—Buffalo.
First Vice—P. A. Collins—Boston.
Second Vice—Thaddeus Flanagan.
Secretary—John Hines—Buffalo.
Treasurer—Rev. Lawrence Walsh—Con-
necticut.

The Convention Adjourned.

How an Artist Treated his Visitor.

To the Editor of the Salem (Mass.) Register:
I would have accepted your kind invitation
to visit you in your new quarters with
pleasure before this, had not my old enemy,
Mr. Rheumatism, pounced on me so sud-
denly. He arrived last Friday, and with-
out stopping to send up his card, rushed in
and grasped me by the hand with such a
grip that in a few hours my hand and wrist
were so badly swollen and painful that I
felt as though one of Mr. Hache's coal
teams had run over me. Mr. Rheumatism
has been a constant visitor of mine for
several years; always swells and puts on a
great many airs and makes himself at home,
devouring my substance and leaving me
poor in flesh and pocket. Last winter
he came and staid two months. I then
made up my mind that the next time
he came I would change his diet,
as he has always gobbled down everything
set before him. I was somewhat at a loss
what to feed him with, but finally concluded
to give him three square meals a day of St.
Jacob's Oil—morning, noon and night.
This fare he is disgusted with, and is pack-
ing up his trunk and will leave by to-morrow
or next day; says he cannot stop any longer
as he has pressing business elsewhere. He
is a treacherous fellow, and I have no doubt
he intends visiting some of our Salem
friends; if he does just give him the same
fare that I did and he won't stop long. J.
S. LEFAVOUR.

The United States is governed by lawyers.
In the Senate there are 57 lawyers, 5
bankers, 3 each of merchants, railroad
officials, professional politicians, manufac-
turers 2 miners, 2 general business, 1 editor,
and 8 farmers. In the House there are
195 lawyers, 10 professional politicians, 17
merchants, 12 editors, 11 farmers, 10
manufacturers, 5 physicians, 3 railroad
officials, 2 each of civil engineers, miners
and mechanics, 1 ceryman, 1 capitalist,
and 1 metallurgist. A good many of the
lawyers are also "professional politicians,"
and such become unsuccessful as lawyers.
They get office because they are brought up
to speak in public.
