Per half do. 8.20  
Per quarter do. 4.20  
Per dozen quarts. 1.50  
Per dozen pints. .80  
Delivered in any part of the city, steamers or trains.

# IT'S OUT

THE NOVEMBER Prince Edward Island Magazine

A particularly good number. Some exceptionally interesting articles, and the cover picture, "A P. E. Island Road," and the frontispiece, "Marchbank's Mills," are both very pretty views.

These are the contents:

- Near Marchbank's Mills, Hampton, P. E. I.—Frontispiece.
- The Malpeque Oyster at Home, (illus.)—Rev. J. M. Withycombe.
- Wolves in Sheep's Clothing (illus.)—Lawrence W. Watson.
- Our Educational System.
- Charlottetown Fifty Years Ago.
- Aspen Poplars—J. S. B.
- A Journey from Port LaFleur to Trois Rivières—John Caven.
- The Ambitious Man—John McLaren.
- A True Fish Story—Carl.
- Two Dreams—H.
- Book Notes.

For sale at all the bookstores and newsstands. Five cents the copy. Subscription one year 50c; six months 25c.

# THE ARMY OF HEALTH.

The Army in the Philippines Insignificant Compared With This One.

If all the people in the United States, Canada and Great Britain who make daily use of Stuart's Dyspepsia Tablets could be assembled together it would make an army that would outnumber our army of one hundred thousand by at least five to one.

Men and women who are broken down in health, are only a part of the thousands who use this popular preparation, the greater number are people who are in fair health but who know that the way to keep well is to keep the digestion perfect and use Stuart's Tablets as regularly as meal time comes to insure good digestion and proper assimilation of food.

Prevention is always better than cure and disease can find no foothold if the digestion is kept in good working order by the daily use of Stuart's Dyspepsia Tablets.

Mr. Thomas Seale, Mayfield, Cal., says: "Have used and recommended Stuart's Tablets because there is nothing like them to keep the stomach right."

Miss Lelia Dively, 4627 Plummer St., Pittsburg, Pr., writes: "I wish everyone to know how grateful I am for Stuart's Dyspepsia Tablets. I suffered for a long time and did not know what ailed me. I lost flesh right along until one day I noticed an advertisement of these tablets and immediately bought a 50 cent box at the drug store. I am only on the second box and am gaining in flesh and color. I have at last found something that has reached my ailment."

From Mrs. Del. Eldred, Sun Prairie, Wis., "I was taken dizzy very suddenly during the hot weather of the past summer. After ten days of constant dizziness I went to our local physician, who said my liver was torpid and I had overheated my blood; he doctored me for two weeks without much improvement; I finally thought of Stuart's Dyspepsia Tablets (which I had used long before for various bad feelings) and the first three tablets helped me.

They are easily the best all-round family medicine I ever used."

The army of people who take Stuart's Tablets are mostly people in fairly good health, and who keep well by taking them regularly after meals. They contain no opiates, cocaine or any cathartic or injurious drugs, simply the natural pepsines and digestives which every weak stomach lacks.

Stuart's Dyspepsia Tablets are sold by druggists everywhere in the United States, Canada and Great Britain.

# "IN THE NAME OF PURITY."

Sir,—A vote for the Farquharson government and its candidates is a vote for Pineau. It remained for the men in power to sully the fair name of Prince Edward Island, at home and abroad, by the most contemptible tactics known to political life. They purchased the people's representative, Poor Pineau is now out in the cold—lugged off the platform by his former constituents—and it remains for the decent voters of the Province to put Farquharson out in the cold—to hiss him out of our public life, which he has debased and degraded. The purchaser is worse than the purchased.

# When it Hurts To Cough

The cough that hurts, the cough that gets tight in the chest is daily getting deeper and deeper into the bronchial tubes and is making directly for the lungs, to become pneumonia, inflammation of the lungs or consumption.

Such coughs are sometimes referred to as "graveyard coughs," because they usually bring their victim to that last resting place.

Dr. Chase's Syrup of Linseed and Turpentine has long been known as Mother's favorite remedy for croup, bronchitis, coughs and colds. It gains in popularity every day and now has by far the largest sale of any similar preparation.

It loosens the tightness in the chest, allays the inflammation, cures the cold and prevents pneumonia, consumption and other lung troubles. 25 cents, all dealers', or Edmansons, Bates & Co., Toronto.

# Dr. Chase's Syrup of Linseed and Turpentine.

H. L. Dickey, M.D.

(Late of London Hospital.) Eye, Ear, Nose and Throat.

# EDUCATIONAL COLUMN.

Edited by Inspector M Cormac.

## NUGGETS.

1. Never step over one duty to perform an other. Take them as they come.

2. Every young man must either go up stream or drift down.

3. Whoever goes wrong himself leads an army astray.

4. How many people punish their children with a sounding whack across the side of the head? It is a fruitful source of deafness, that method of punishment is, and semi-barbarous. Such treatment has been known to make idiots of formerly bright children. Teachers are known to have punished children in this way.

5. One of the greatest incentives to the editor of the Educational Column to continue the publication of educational items is found in the many encouraging letters received by him from month to month from teachers, pupils and others in different sections of the province who have gained information by the perusal of his articles on educational topics. The editor is always pleased to receive suggestions as to how to make this Column more beneficial to the cause of education in our fair province.

6. Don't wait for great opportunities. A long, continuous walk will get you over more ground than a short run.

7. Now is the proper time to reorganize the Local Institutes of Teachers. Many profitable meetings can be held during the winter months.

8. Endeavor to make your school-house comfortable for the winter months.

## FARM LIFE AND THE YOUNG.

The idea of work should, as far as possible, be separated from that of drudgery. To work is a pleasure. To drudge is a hardship. The difference lies in the seeing or not seeing, and the desiring or not desiring the object of our toil. The boy who "helps his father" to pay for the farm, to build a new barn, to pay for his own tuition, or for a servant for his mother, or lessons for his sisters, has before him an object which he can appreciate, and his work is pleasing because its aim is elevated. The one who is compelled to work without seeing that any immediate good is to be the result, who looks upon his father as a taskmaster whom he is obliged to serve for a certain number of years, but from whom he means to escape as soon as he can, is a drudge. His work is a hardship.

To attach the young to farm life there is no one thing so powerful as the cultivation of human sentiments between the lower animal and man. To recognize that the love exhibited by the cow to her calf is but a less complex form of the love of a woman for her baby, is to give to the cow and the calf a human interest. The boy who has recognized this can never be other than gentle and considerate in his treatment of animals, and one who has intelligently and sympathetically observed the working of maternal love in animals will always show a full appreciation of the tenderness and self-sacrifice of the human mother. The boy who has cultivated the friendship of his horse till he has sounded the depths of his animal's power of devoted affection, has learned a secret of horse training better than any taught by Rarey or his successors. There is no form of animated life, from the dog with his generous, warm heart, to the beetle or butterfly, that is not worthy of closest study. To this study children are naturally inclined and, if it be intelligently followed, the active young mind will soon become too busy to care for lounging around the village store or grogshop, for reading tales of crime, or for forming projects for any future which is to take him away from the dumb companionship which opens before him an ever-widening vista of knowledge.

The affection for animals does not hinder the making them useful. Rather has it the opposite effect; we learn to regard them as fellow workers, whose duty it is to make a proper return for the care bestowed upon them, to earn their own living, as it is our duty to earn our own. The most productive flocks and herds are always those which are the best loved and tended. Both animals and human beings thrive best in the warm but stimulating atmosphere of love and expectation, nerving to exertion and rewarding for it.

Such is ever the moral atmosphere of the farm of which we have spoken. We find it as well on the coldest, greyest day of December as on the warm June morning when we first looked upon it. When snow-paths have to be dug to barn and fold that animals may be seen, fed, cleansed, talked to

and sympathized with for the know and feel the glow of human sympathy when it comes to them in kindly voice and caress, and a bit of sugar or an apple for the colt, or a nubbins of corn for the cow, or a handful of oats for the sheep—then, when all the world seems to have frozen to its heart, we feel the delightful thrill of those who fight for others, and fight to win. These dependent creatures are ours to serve and save. We have an object in our lives. Of all men, none may live so near to nature as the farmer, if he so wills it, in a comparison the freest, the most intimate and the most progressive.

## JOKES.

After a girl has taken as many as six lessons on the piano she begins to pronounce Beethoven and Wagner in a way to jar her elders.—Atchison Globe.

You may find the fount of knowledge, Yet not know how to drink, You may drive your son to college, Though you cannot make him think.

"What is a synonym?" asked a teacher. "Please, sir," said a lad, "it's a word you can use in place of another if you don't know how to spell the other one."

Uncle Bob—Well, Johnny, are you at the head of your class? Johnny—No, but I can lick the fellow that is!—Hartford Courant.

"Is that cement any good?" asked a prospective purchaser of a peddler.

"Any good?" was the reply. "Why, you could mend the break of day with that cement!"—Weekly Telegraph.

"Why, my child," exclaimed the mother goat, "you've got the jaundice. You ate that yellow journal, didn't you?"

"On'y a weenty, teenty bit, ma," the kid confessed.

"That was too much. Here, take a few mouthfuls of this sarsaparilla."—Philadelphia Press.

A bashful lover wished to make a proposal of marriage, but his courage failed him, and he induced his sister to become an intermediary, he remaining outside the half-closed door, hidden, but within earshot, to learn the result.

It was not favorable. The fair one saucily tossed her head and replied:

"Indeed, now, if I'm good enough to be married, I'm good enough to be axed!"

Hearing this, the anxious swain thrust his head inside the door and said, beseechingly:

"Norah, darlin', will ye do what Maggie axed ye?"

Some preachers have odd ideas of humor, and often the grace of the garb is not enough to soften the unpleasantness of the witticisms. There is a story told of one good clergyman who asked:

"How many of you have read the Bible?" Fifty hands went up. "Good!" said the preacher. "Now, how many of you have read the chapter of Jude?" Twenty five hands were raised. A wan smile overspread the minister's face. "That's good; but when you go home read that chapter again, and you will doubtless learn something to your interest." Of course, they found that there is no second chapter of Jude, and, of course, no matter how they made attempts to "augh" it off, the victims of the clerical pleasantry are not likely to love their pastor any the more because of his little joke. It makes one cringe to think, what a mean man he might have been if he hadn't been a clergyman.

Singing like sixty—A musical epiphany from the Gravitary Burying Ground, Boston, reads:

# Don't Neglect a Simple Cold in the Head.

JAPANESE CATARRH CURE CURE GOLD IN THE HEAD IN A SINGLE NIGHT.

It is pleasant and harmless to use and clears the head almost instantly. You can use it on the smallest infant with Perfect Safety.

Catarrh of the head usually starts with a cold in the head, and if left unchecked in this climate rarely gets well itself. Another cold is usually added and before it gets well independent catarrh sets in, and as each fresh cold contracted the disease gradually becomes worse, until hearing, sense of taste and smell are gone, and finally incurable lung trouble is the result. If you have a cold in the head don't neglect it. Japanese Catarrh Cure relieves cold in the head in a few minutes and will cure in a single night.

Mr. Alex. McRae, the well-known tailor of New Westminster, B.C., writes:—"I was for some weeks suffering from a cold in the head, which was apparently developing into catarrh. I purchased a box of Japanese Catarrh Cure, and in less than two days the cold entirely disappeared. I can highly recommend it; the first application relieved."

Sold by all druggists. Price, 50 cents; or mailed. Address The Griffiths & Macpherson Co., Limited, Toronto, Can.

# MUNYON'S GUARANTEE.

Strong Assertions as to Just What the Remedies Will Do.

Munyon guarantees that his Rheumatism Cure will cure nearly all cases of rheumatism in a few hours; that his Dyspepsia Cure will cure indigestion and all stomach troubles; that his Kidney Cure will cure 50 per cent. of all cases of kidney trouble; that his Catarrh Cure will cure catarrh no matter how long standing; that his Headache Cure will cure any kind of headache in a few minutes; that his Cold Cure will quickly break up all colds through the entire throat and sinuses. At all druggists, 25 cents a bottle. If you need medical advice write Prof. Munyon, 1500 Arch St., Phila. It is absolutely free.

Here lies interred Priscilla Bird, Who sang on earth till sixty-two, Now on high, above the sky, No doubt she sings like sixty-two.

## REVERSIBLE SENTENCES.

The puzzle editor of London Truth offered a prize for sentences making sense whether read forward or backward, and here are some results:

Scandalous society and life makes gossips frantic.

Frantic gossips make life and society scandalous.

Apply the same rule to the other given below:

Dies slowly fading day; winds mournful sigh;

Bright stars are waking; Files owlet, hooting, holding rev el high,

Night silence holding. Solomon had vast treasures—silver and gold things precious. Happy and wise and rich was he. Faithfully served he God.

Carefully boiled eggs are good and palatable.

Dear Harry: Devot:dly yours, remain I. Have you forgotten \$20 check? Reply—immediately, please, and hand to yours—Grace Darling.

Mar is noble and generous o ten, but sometimes vain and cowardly.

Love is heaven and heaven is love, youth says. All beware! says age. Trying is poverty and fleeting is love.

Exercise take, excess beware; Rise early and breathe free air, Eat slowly, trouble drive away; Feet warmish keep; blend work with play.

Adieu, darling! Time flies fast; sails are set, boats are ready. Farewell! Matter and mind are mysteries; never mind. What is matter? Matter is—never mind. What is mind? Mind is never matter.

## MILITARY AND CLERICAL TITLES.

(From the Harvard Graduates' Magazine)

"No form of distinction can be devised which won't presently be counterfeited. The titles of General, Colonel and Major, earned in the field, are assuredly very honorable; but these very titles are given by the hundred to carpet knights who never saw a battle. In like manner the distinctive appellations of learning have been vulgarized. When you are introduced to Dr. Jones, you don't know whether to consult him about your soul, or your rheumatism, or your horse, or your toothache, or your libel suit, or the religion of the Ethiopians, or the malleability of aluminium."

"If he is a minister," said the irrepressible Y, "the chances are that he is at least doubly a 'doctor'."

"Clerical fondness for titles seem to have come in along with the fashion for surplises," remarked Q. "No parson over thirty, and within a day's journey of a college, lacks a D. D. Sometimes I wonder whether chapel services conducted by the Right Rev. John D., LL. D., D. D., D. C. L., will edify my son as much as those conducted by the Very Venerable Richard Roe, S. T. D., L. H. D., LL. D. I should suppose the college bill for printing all these prefixes and appendages of vanity would be so large that the German P. T. would have to be substituted for them."

# Fall Time Table, Rocky Point Ferry, 1900.

Commencing Monday, October 1st the steamer Edlin will run as follows for the balance of the season. Will leave France Street Wharf Will leave Rocky Point

At 7.00 a. m.	At 8.00 a. m.
At 8.30 a. m.	At 9.00 a. m.
At 9.30 a. m.	At 10.00 a. m.
At 11.00 a. m.	At 11.30 a. m.

At 4.00 p. m.	At 4.30 p. m.

JAMES J. WISNER, Manager.

Ch'town, Sept. 2, 1900.

# PRESENTATION AND ADDRESS.

To Mr. Harry Winchester in Appreciation of His Services.

The following is a copy of an address which was presented to Mr. Harry Winchester by the Sunday School on Sunday afternoon. He was also presented with a teacher's Bible and a gold watch. The address was read by the rector and the presentation was made by Mr. Cundall. The address was illuminated:—

To Harry Winchester, Sec'y.-Treasurer and Librarian, St. Paul's Sunday School, Charlottetown, P. E. Island.

DEAR FRIEND AND FELLOW WORKER.—It is with feelings of deep regret that we anticipate your approaching departure. As Secretary-Treasurer and Librarian of our Sunday School you have been so closely identified with our work that the wrench caused by your withdrawal, will be felt by every teacher and scholar.

Doubtless, wherever your lot be cast you will find opportunity to work in God's service, and consequently your transfer to another field of labor will involve no loss to the church at large. Yet we feel none the less keenly the rupture of the ties which have so long bound us together and which have been so pleasurable.

You bear with you our best wishes, and we will follow with interest your future career, confident that the cheerful readiness and un-failing punctuality which have characterized your conduct here carry with them an assurance of future success.

Commending you to the loving care of our Lord and Master, and begging your acceptance of the accompanying small token of our regard. We wish you an affectionate farewell.

On behalf of the school, LEO WILLIAMS, Rector, H. J. CUNDALL, Supt. Ch'town, Nov. 25th, 1900.

# TAKE CARE OF THE TEETH

Most people have a general idea that it is wise to take care of the teeth, and accordingly do so, as they suppose. They rub a brush hurriedly two or three times over the front of the teeth before going to bed or on getting up in the morning, and think they have cleaned their teeth.

The importance of sound and serviceable teeth as an aid to health cannot be overestimated, for upon their good condition depends the thorough mastication of the food which is the first, and not the last, requisite of good digestion. Many a person doses himself with all sorts of remedies to aid digestion, when the real cause of his dyspepsia may be found in the poor state of his teeth.

The proper time to brush the teeth is after each meal and at bedtime. Before this is done all particles of food should be removed from between the teeth by means of a toothpick, or better, dental floss. Then they should be brushed thoroughly with a brush of medium stiffness, dipped in tepid water. Very hot and very cold water are equally harmful.

The brush should be used with an up and down movement, and not side ways only, and the backs of the teeth should be brushed even more carefully than the fronts, for it is there that tartar tends to accumulate. Many think that tartar is harmless, but this is an erroneous belief; its accumulation is one of the principal causes of the loosening of the teeth, and its presence exposes one constantly to the recurrence of gum boils.

The use of some good dentifrice once a day, or two or three times a week, keeps the teeth whiter and better-looking, but it is not absolutely necessary when the tooth brush is used regularly after each meal. Rinsing the mouth after each brushing with some pleasantly-flavored antiseptic solution helps to avert decay of the teeth.

Finally, not the least important point in the care of teeth, is a regular semi-annual visit to the dentist, that he may examine the teeth and fill at once any beginning cavity. In this way the teeth may be preserved, accidents excepted, for a long life-time, and the natural teeth, even when filled and repaired, are many times better from every point of view than any artificial ones.

# JOHN P. BRENNAN

Ship Broker, Commission Merchant and dealer in all kinds of produce, my large and commod. on premises on Commercial Street being particularly adapted for handling of Prince Edward Island products. Co. signments solicited. Prompt returns. JOHN P. BRENNAN, North Sydney, Sept. 25, dy 135 WY.
