In Memoriam

In loving memory of our dear Father and Mother, Mr. and Mrs. Malcolm MacDonald, Nine Mile Creek, who passed away June 10th, 1934 and May 15th, 1943.

Many years have passed since that sad day,
When those we loved were called away,
God called them home, it was His will
Forget them no we never will.
Happy and smiling, always content,
Loved and respected everywhere they went.
Always thoughtful, willing and kind,
What a beautiful memory they left behind.

Lovingly Remembered by Their Family.

Island M. P.'s Criticism Provokes Heated Rebuttal

OTTAWA, June 9—(Special) — West clashed with East in the Commons chamber today when Elmore Philpott, Liberal M.P. for Vancouver South charged J. Angus MacLean, Conservative M.P. for Queen's with not only insulting Trade Minister C. D. Howe but insulting the intelligence of the House of Commons.

The charge arose from remarks made by Mr. MacLean at the closing of the Wednesday sitting When quoting from Hitler's speech to the Reichstag asking for vast powers in the 'thirties, Mr. MacLean drew a parallel to the request for additional power currently being made by Mr. Howe under the new Defence Production Act. At that time, Mr. MacLean noted, Hitler had been elected by democratic methods. Mr. Philpott charged that Mr. MacLean had stooped "to great depths" when comparing Hitler's request to Mr. Howe's.

Opposition Leader Drew cut in to the debate demanding that Mr. Philpott withdraw the charge of insulting the House and at the suggestion of the Deputy Speaker, the Vancouver member did so. He branded Mr. MacLean's statements as "unfortunate" and "the most regrettable I have ever heard in all my life." It was, he added, "hitting below the belt."

Urge Scrapping Of East Africa Racial Policies

By SIDNEY TAYLOR

LONDON (Reuters) — A royal commission recommended Thursday that Britain scrap racial restrictions in her East Africa territories and replace "mutual fear with mutual hope."

Only by removing the barriers between white, black and Indian inhabitants can the territories move forward to a modern, prosperous economy, the commission's report said.

The commission spent three months in Kenya, Uganda and Tanganyika, studying means of improving the lot of 180,000,000 Africans living alongside 51,000 white settlers and 180,000 Indians.

In its 482-page report, the commission criticized the "whites only" policy in Kenya's 16,000 square miles of fertile highlands soil north of Nairobi. Reservation of this magnificent farmland exclusively for Europeans provided the Mau Mau terrorists with one of their main arguments for the expulsion of all whites from Kenya.

PHOBIA CREATED

The report said the policy of white-reserved highlands "depicts the Europeans as a political bloc —a picture which causes phobia . . . This in turn affects the confidence between European and African throughout the region upon which success and rehabilitation and resettlement depends. The phobia is exaggerated but it needs killing."

Asked to comment on the report which is expected to create a storm among Kenya settlers, a colonial office spokesman said it should not be regarded as "expressing the opinions or as announcing the future policies" of the British government.

Colonial Secretary Alan Lennox-Boyd, he said, has asked each of the three governments in East Africa "how far in its opinion it would be practicable and desirable to adopt the commission's proposals at the present time."

The commission, headed by Sir Hugh Dow, found that the per capita production of the 18,000,000 Africans in the territories was "among the lowest of all African territories" and said something in the nature of an agrarian revolution is required.

Rare Operation On Ontario Girl

TORONTO, (CP)— A 19-months-old Peterborough, Ont., girl Thursday underwent a "very rare" heart operation Thursday during which her blood passed through the lung of a dead monkey.

The operation was performed on Lucinda Rowe by Dr. W. T. Mustard, Toronto heart surgeon.

The monkey's lung was chosen as the temporary artery for the patient's blood because it most closely resembles a human lung.

The operation had never been successful in Canada before, but has been performed at the University of Minnesota where the blood of a boy was pumped for 15 minutes through a lung removed from a dog.

CONSUMPTION UP
