Always on Hand, the Largest Stock of Cigars in the city, and the best brands available.

JOHN JOY.

Nov. 6, 1886—eod ti

NEXT in importance to the Close-running and Good Mechanism of the Watch itself, is that it should be protected by

A Tight and Well-Fitting Case.

Among the best for this purpose we consider those made at the

Keystone Watch-Case Factory, Philadelphia, U. S.

Started by JAMES BOSS, over 80 years ago this Factory has stood the test of time, and now employs a working force of 550 men. Their Silver, Gold-filled and Nickel Cases are A. 1. Their Gold-filled are

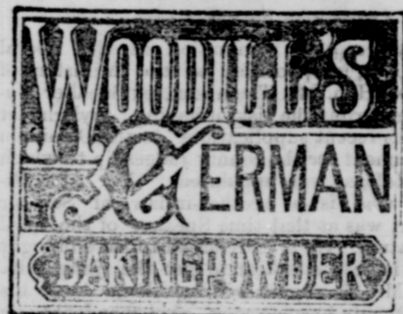

Guaranteed to Wear 20 Years, in fact, they often wear longer than that. Many of our Rockford Watches are protected by these cases, specially made for us, and which possess advantages over any other case in the market.

Grit vs. Tory Rule.

GRIT RULE. Public Debt.

In five years the Grits added \$40,513,607 to the net debt and left nothing to show for it—but Fort Francis Lock and a few other monuments!

Public Works. During the Grit term the total expenditure upon public works chargeable to capital was \$3,388,932, or \$6,773,137 less than the increase of the debt. That is to say the Government of the Grits added to the permanent obligations of the country nearly seven millions more than they expended upon public works having for their object the development of trade and cheapening of the cost of transportation.

Interest Charges. When the Liberal party came into office the average rate of interest payable upon the public debt was 5.09 per cent., and five years later they had reduced it to 4.65 per cent., or by .44 per cent.

Assets. In 1873 the assets of the Dominion amounted to \$25,941,970, and yielded an average rate of interest of 1.36 per cent. In 1878 the assets had increased to only \$31,593,191, and the average rate of interest was 1.63 per cent. a gain in five years of \$1,700,229 in interest, and an increase of .07 per cent. in the rate of interest.

Public Debt. Public Debt.

In seven years, the Tories added \$59,945,623 to the net debt, and there is to show for it the Canadian Pacific Railway and other public improvements in all parts of Canada.

Public Works. During the Tory term the capital expenditure upon public works was \$75,668,455, or \$17,322,832 more than the addition to the debt. In other words the administration of the present Government has resulted in an investment of seven-and-a-half millions in railways, canals and miscellaneous public works of utility and direct benefit to the people, in excess of the increase in the fixed charge upon the country.

Interest Charges. During the Tory term the average rate of interest on the debt has been cut down to 3.80 per cent., or by .85 per cent.

Assets. Under Tory management of public affairs, the assets, mounted up to \$8,295,915, an addition of \$33,709,716, or within a fraction of 100 per cent., while the average rate of interest yielded augmented to 3.91 per cent., an increase of 2.38 per cent.

The C. P. R. Much as has been said and written of the Canadian Pacific Railway, it is difficult to realize the magnitude of this wonderful work completed in five years less than the contract time (1891). A few years ago we had Mr. MacKenzie declaring that all the resources of the British Empire could not complete it by that date, and a member of his Government, Mr. Scott, asserted that the entire Chinese nation could not furnish labor enough; but in spite of all the croaking and bitter opposition of enemies it has been accomplished, and to-day we can place on paper the figures representing in some measure this latest of the world's wonders.

WHAT HAS BEEN DONE. At the close of the year 1886 the company had in operation in the Province of:—

Quebec 372 miles
Ontario 1,934 "
Manitoba 776 "
N. W. Territories 751 "
British Columbia 520 "

Total 4,353 "
In addition, the company has under construction and nearly ready for operation in the province of

Quebec 70 miles
Ontario 122 "
Total 192 "

Then the construction of the Canadian Pacific proper has led to the construction of branches and other lines.

The Canadian Pacific company has itself constructed in

Manitoba 413 miles
Manitoba and North Western Co. 214 "
Regina and Long Lake Co. 23 "
N. W. Coal and Navigation Co. 110 "

Total in Northwest 760 "
And in Ontario and Quebec

Atlantic and Northwest Railway and Bridge 31 miles
Ontario and Quebec 356 "
Northern and Pacific Junction 111 "
Other branches 9 "

Total 507 "
Making the grand total of the Canadian Pacific proper and the branches and other roads built in consequence of it, 5,399 miles.

War. The generally prevailing impression that the present year is destined before its close, to bring about a rupture of the peace of Europe, find utterance even in the new year's greetings of those who are by office the ministers of peace.

The Bishop of Angers, Monseigneur Freppel, in receiving his clergy on New Year's Day, used language which, while deprecating any attempt whether at home or abroad, to rekindle the baleful flames of war, indicates only too clearly that in France the possibility of such an event is entertained by many.

"The year that is beginning," said His Lordship, "is full of uncertainty and obscurity, as everyone must admit. It is destined to bring to pass in the midst of us a recurrence of that dreadful scourge, the fear of which has so taken possession of men's minds! I know not, nor is it possible to conceive from what side the pretext for such a calamity may arise?" Then, after dwelling on the fact that during the last sixteen years France has done nothing to provoke such an issue, having been engaged in the pacific task of healing the bleeding wounds of the country, he said that whoever assumed the responsibility of beginning a fresh conflict would deserve the maledictions of the whole civilized world.

The Army and Navy Gazette learns from the annual report of the Soldiers' Total Abstinence Society for last year that of the sixty thousand British soldiers in India twelve thousand, or one-fifth, are total abstainers.

Alfred Tennyson has been England's Poet Laureate since 1850, a longer period than the honor was held by any of his predecessors. Colley Cibber enjoyed the distinction from 1730 to 1757 and Robert Southey from 1813 to 1843; all the others, from Edmund Spenser down, for much shorter terms.

Odds and Ends.

Alexander Dumas' grandmother was an African slave.

The largest ship built on the Clyde last year is an Oriental steamer of 6,500 tons.

General Sherman is said to have a fear that he will be the next of the war heroes to die.

In Upper Alton, Ill., there are 187 marriageable young women and only 18 eligible single men.

Chicago pays \$9,000 doctor's bills for attendance on the policemen wounded by the dynamiters.

A Rockefeller man advertised for a wife and quickly secured one with a bank account of \$10,000.

Kingston, Ont., ship-builders are making extensive preparations in anticipation of a busy season after navigation opens.

Madagascar has got so far civilized as to borrow \$3,000,000 in France. Strange how civilization and debt go together!

Canon Willerforce calculates that the 160,000 public houses in Britain have made 16,000 women widows during the past year.

Here is a gem of metaphor from the Idaho Free Press:—Justice is the soapuds with which we wash the flannel shirt of wrong.

Three years ago there were only three toboggan slides in the United States. Now it is difficult to find a town or village without one.

The modern drawing-room may be said to represent the Old Curiosity Shop modernized, with "Little Nell" left out for obvious reasons.

The railway companies of Great Britain pay £1300 a day for injuries done, through their culpable neglect, to passengers or merchandise.

Stamped leather chairs for dining-room or library, have reached a point of elegance that causes some people to hesitate to sit down on them.

The British Government has prohibited the exportation of horses to Belgium until the needs of the cavalry in event of war have been covered.

The highest fountain in Europe is that in the gardens of Chatsworth, the seat of the Duke of Devonshire. The height of this famous jet is 267 feet.

W. A. Hosten, says the Henry County Ga., Weekly, is 40 years old and has two grandchildren. One of his daughters married at 14 and another at 16.

The son of the Duchess de Galliera probably has the finest collection of postage stamps in the world. It fills 300 volumes and has cost him more than \$350,000.

Manuel Barrient and wife, of Matamoros, Mexico, celebrated the eightieth anniversary of their marriage a few days ago. The husband is 102 years old and the wife 96.

Legal documents are sometimes queerly worded. A man at Tulare, Cal., lately deeded a piece of property to his wife in consideration of "love and affection in hand paid."

A newspaper has just been started in Greenland. It is a daily, but the editors are not at all pressed for time, as the day is about six months long in that part of the world.

There is pleasure in sitting in the corner with the dear one by the bright coal fire, and greater pleasure for the bright one in the other corner that makes dear coal higher.

A demonstration in honor of Mr. Michael Davitt and his wife was made in Madison Square garden, New York, on Sunday. It is estimated that over 10,000 people were present.

An Illinois postmaster robbed the mails and was sent to State Prison for it. There, in view of his experience he was made prison postmaster, and now he has robbed the prison mail.
