

Poetry.

TO A CHILD.

BY T. K. HERVEY.

Just out of heaven!—grace on high
 Around thy forehead clings,
 And fancy gazes till her eye
 Can almost see thy wings.
 The world, as yet, hath laid no stain
 Upon thy spirits light,
 Nor sorrow flung a single chain
 Upon its sunny flight.
 Therose upon the cheek still wears
 The color of its birth,
 Its hues unwithered by the tears
 And breezes of the earth;
 And round the tints of beauty, yet,
 The gleams of glory play,
 As thou hadst left the skies of late
 And in their starry plains hadst met
 The rainbow on the way;
 And like the bird, that pours its lay
 Its own bright paths along,
 Thy foot-steps dance along the way,
 Unto thine own heart's song!
 Oh! thus that it might ever be!
 But onward, onward, darkly driven,
 The world shall be too cold for thee;
 Of such as this is heaven.
 'That thou might'st ever be as now!
 How brightly on the childish brow
 Is heaven's sign unfurled!
 Thou walk'st amid our darker day,
 Like angels who hast lost their way,
 And wandered to the world.
 Oh! that thou might'st at once go back,
 Nor tempt the sad and onward track,
 Where lights, that are not of the skies,
 Shall lead thy wandering feet astray;
 And breezes not from Paradise
 Shall chill thee on thy way;
 Where hills that seem for ever near
 Shall fade before thy cheated eyes,
 And shouts of laughter, in thine ear,
 Sink, wailing, into sighs:
 Where thou shalt find hope's thousand streams
 All flow to memory's gloomy river,
 Whose waves are fed by perish'd dreams
 For ever and for ever;
 Where guilt may stamp her burning brand
 Upon thy soul's divinest part,
 And grief must lay her icy hand
 Upon thy shivering heart;
 Till—like a wounded sinking bird
 Joy's song may never more be heard,
 And peace, that built within thy breast,
 May perish in its very nest;
 And youth, within thy darkened eye
 Grow old, and cease to prophesy;
 Till thou, amid thy soul's decline,
 And o'er thy spirit's ruin'd shrine,
 And o'er the forms that haunt thy sleep
 To fade with night—may'st sit and weep:
 Like me, may'st vainly weep and pray
 To be the thing thou art to-day,
 And wish the wish—as old as I—
 Thou wert, again, a playful child.

IS YOUR HOUSE A HOME.—How important that you make your house a home. A house is a mere skeleton of bricks, laths, plaster, and wood. A home is the residence not merely of the body, but of the heart; a place for the affections to unfold and develop themselves; for little children to love, and learn, and play in; for young people to grow in earthly and heavenly wisdom; for husband and wife to labour smilingly together to make a life a blessing, and secure a better home beyond the grave. A house where the wife is a slattern and a sloven, and a busy-body in other people's matters, cannot be a home. A house where there is no happy fireside—no book—above all, no religion, no Bible—how can that be a home? A house where the husband is a drunkard cannot be a home; nor can there be a home, where there is no love—love to God and love to man.

EXTRAORDINARY EXPERIMENT.—A man walking head downward on the ceiling!—Mr. John McCormick gave a private exhibition, on Thursday evening, at Lafayette Hall, of quite a number of philosophical experiments—some the invention of others, but many as original as they were extraordinary. But the most extraordinary experiment was that of walking—(by means of shoes of a peculiar construction,) in an inverted position, upon the under surface of a highly polished slab of Italian marble, nine feet by three in dimensions, which Mr. McCormick successfully performed—a feat never before achieved by any man! He afterwards explained that a slight defect in the apparatus, easily remedied, rendered his task more difficult than usual.—Pittsburgh Despatch.

THE YOUNG MAN'S BEST COMPANION.—We find the following written in an American Journal:—"Young man, if you have arrived at the right point of life for it, let every other consideration give way to that of getting married. Do not think of doing any thing else. Keep poking about the rubbish of the world, till you have stirred up a gem worth possessing, in the shape of a wife. Never think of delaying the matter, for you know that delays are dangerous. A good wife is the most constant and faithful companion you can possibly have by your side, while performing the journey through life. She is of more service than you can at first imagine. She can smooth your linen and your cares; mend your trousers, perchance your manners—sweeten your sour moments as well as your tea and coffee—ruffle, perhaps, your shirt bosom, but not your temper; and, instead of sowing the seeds of sorrow in your path, she will sow buttons on your shirts, and plant happiness, instead of harrow teeth, in your bosom. If you are too lazy or proud to do such work yourself, she will chop wood and dig potatoes for dinner. (She will!) Her love for her husband is such, that she will do any thing to please him, except receive company in her every-day clothes. When a woman loves, she loves with a double devotedness, and when she hates, she hates on the high principle. Her love is deep as the ocean, strong as a hempen cord, and as immutable as the rock of ages. She will not change it unless in a strong fit of jealousy, and even then it lingers, as if loath to part, like evening twilight at the windows of the west. Get married, by all means. All the excuses you can fish up against 'doing the deed' ain't worth a spoonful of pigeon's milk. Mark this—if, when blessed with health and employment, you are not able to support a wife, depend upon it you are not capable of supporting yourself. Therefore, so much more need of annexation; for in union there is strength. Get married, I repeat, young man. Concentrate your affections upon one subject, and do not distribute them, crumb by crumb, upon a host of Susans, Marys, Loranas, Olivias, Elizas, Augustas, Betsys, and Dorothys—allowing to each scarcely enough to nibble at. Get married, and have something to cheer your journey through 'this lowly vale of tears'—somebody to scour up your whole life, and whatever linen you possess, in some sort of Sunday go-to-meeting order."

BRICKMAKING BY MACHINERY.—The Bangor Whig says that a Vermont has invented a machine for making brick by steam power, by which the clay is shovelled up, dried, pulverized, and pressed dry into the moulds, at the rate of fifty thousand a day, and placed in the kiln for burning, no sun-drying being necessary, after the bricks come from the mould. The bricks come out in a very handsome and solid shape.

A NEWSPAPER IN A FAMILY.—One of the greatest advantages of a newspaper in a family of children is, the constant stimulus which the facts and statements it contains gives to the acquisition of historical, scientific and geographical knowledge. Who, then, that is a father, will be so penurious, not to say unnatural, as to refuse the tender objects of his affection and responsibility such an important aid to their advancement.

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,
 FOR THE CURE OF
 Coughs, Colds, Hoarseness, Spitting
 of Blood, Night Sweats, Asthma,
 Liver Complaints, and
 CONSUMPTION.

DO NOT NEGLECT IT.

Consumption can be and has been cured,

in thousands of cases, by this only certain remedy,

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT,

Cure Consumption.

The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, have been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medications which are peculiarly adapted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by expectoration, producing a delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men and the inventions of kind and sorrowing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE

persons have been deceived repeatedly in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative but a cure for ulcerated lungs. It contains no deleterious Drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of blood, Coughs, pain in the side and chest, night-sweats, &c. &c.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [we will show them to any person, calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.

Caution—This medicine is put up in a large bottle and you must find the name of Judson & Co., Proprietors, New York, on the splendid Wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9 John St. New York.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time, cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore has the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them.

Remember and ask for CARLTON'S CONDITION POWDERS, and take no others.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES,

and for the cure of all diseases of man or beast that require external application, and for contracted cords and muscles, strengthens weak limbs, and is also used for sprains, bruises, saddle galls, swelled legs, sores of all kinds on horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety-nine cases out of one hundred of any of the above complaints. They have been used by Farmers, livery-men, stage proprietors and others with the most marked and decided success.

Caution—None can be genuine unless you find the name of J. Carlton Comstock, on the Wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both Adults and Children. It cannot harm the most delicate infant or strongest Adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cents per bottle, puts it within reach of all, and all parents who are without it, are wantonly exposing the lives of their children to those fell destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the Wrapper of each bottle.

To the Old and Young!! Ho! ye Red Heads and Grey!!!

PHENOMENON IN CHEMISTRY!!!!

EAST INDIA HAIR DYE.

COLORS THE HAIR, AND WILL NOT THE SKIN.

This dye may be applied to the hair over night, the first night turning the lightest RED or GREY HAIR to a dark brown, and by repeating a second night, to a bright jet black. Any person may, therefore, with the least possible trouble keep his hair any dark shade or perfect black; with a positive assurance that the dye, if applied to the skin will not colour it. By an occasional application, a person turning grey will never be known to have a grey hair. Directions complete with the article. There is no colouring in this statement, as one can easily test.

These facts are warranted by the gentleman who manufactures it, who is the celebrated Chemist, DR. COMSTOCK, author of Comstock's Chemistry, Philosophy, and other works, and School Books, well known and widely celebrated by the public.

Deafness.

Use Dr. LAZETTE'S ACOUSTIC OIL, for the cure of Deafness. Also, all those disagreeable noises, like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching deafness. Many persons who have been deaf for ten, fifteen or twenty years, and were subject to use ear trumpets, have after using one or two bottles, thrown aside these trumpets, being made perfectly well. It has cured cases of ten, fifteen, and even thirty years standing of deafness.

Consumption!!

Every body knows is a flattering disease. It commences and progresses so insidiously, that before one is aware of it, the lungs are a mass of ulcers, then a sudden exposure or change from heat to cold, produces an inflammation, and in a few days or weeks, it is said, he or she died of hasty Consumption. For all troubled with cough or lung complaint, we would refer to the advertisement on the outside of this paper of Judson's Chemical Extract of "Cherry and Lungwort," which is said to be a certain cure for this awful disease.

Caution—All of the above named articles are sold only by Comstock & Brother, 9 John street, New York, to whom all orders must be directed.

THE GENUINE OLDRIDGE'S BALM OF COLUMBIA.

FOR RESTORING THE HAIR.

If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this balm. Age, state, or condition appears to be no obstacle whatever; it also causes the fluid to flow with which the delicate hair tubes are filled, by which means thousands [whose hair was as grey as the Asiatic Eagle], have had their hair restored to its natural colour by this invaluable remedy.

Caution—Never buy it unless you find the name of Comstock & Co., Proprietors, on the wrapper of each bottle.

CARLTON'S LINIMENT FOR THE PILES, &c.

It is now used in the principal hospitals, and in the private practice in our country, by an immense number of individuals and families, first and most certainly for the cure of the PILES, and also extensively and effectually as to baffle erudition, unless where its effects are witnessed, Externally in the following complaints:

- For Dropsy—Creating extraordinary absorption at once.
- Swellings—Reducing them in a few hours.
- Rheumatism—Acute or Chronic, giving immediate ease.
- Sore Throat—By Caners, Ulcers or Colds.
- Croup and Whooping Cough—Externally and over the chest.
- All Bruises, Sprains and Burns—Curing in a few hours.
- Sores and Ulcers—Whether fresh or of long standing, and fever sores.

Its operation upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of the chest, by relaxation of the parts, has been surprising beyond conception. The common remark of those who have used it in the Piles is, "It acts like a charm." It is warranted to please any person that will try it.

Caution—Never buy it unless you find the fac-simile signature of Comstock & Brother, proprietors, on the wrapper of the genuine article.

Caution—All of the abovenamed articles are sold only in New York, by Comstock & Brother, No. 9 John Street, five doors from Broadway.

PROFESSOR A. G. BARRY'S TRICOPHEROUS OR MEDICATED SYRUP.—Truth loves an incredulous audience, for if they listen, they are sure to become converts. If there is any man or woman who challenges the statement that Barry's Tricopherous is a specific for cutaneous diseases and injuries, and the best preparation for the hair extant, all that is asked is that he or she will try one twenty-five cent bottle of the fluid, and read the pamphlet in which it is enclosed. Read and make the trial. Truth will then force conviction upon the mind, that all, and more than all, that has been claimed for the preparation by the inventor, is as palpable a fact as the existence of the sun, or changes of day and night. Referring the reader to the thing itself, and the accompanying treatises for a solution of all his doubts, if he entertains any, we will here briefly state what the Tricopherous will do. It will remove scurf and dandruff; it will restore, preserve and beautify the hair; it will prevent it from becoming harsh or gray; it will dispose the hair to curl and render it glossy; it will relieve inflammation, itching and all irritation of the skin; it will cure bites and stings of insects; it will take away the pain of cuts, burns, bruises and sprains; it will allay the pain of rheumatism and cure headache. For these reasons, it ought never to be absent from the dwelling of any family, and no one should travel without it. Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, New York. For sale by the principal merchants and druggists throughout the United States and Canada. Beware of the counterfeit, sold at one dollar per bottle. For sale by

Blake's Metallic Fire Proof Paint, OR, ARTIFICIAL L. ATE.

THIS admirable article has been tested for some years and proved very valuable, becoming a perfect slate, as hard as marble in a few months, completely protecting whatever is coated with it from the action of the weather and fire—a better fire-proof than tin or zinc. Several Insurance Companies certify they will insure buildings covered with it at a cheaper rate, than if covered with those metals. It is of two colors, the black is best for roofing—the chocolate the best thing ever discovered for sides of either brick or wood, forming a perfect stone coating of a handsome stone or chocolate color, can be easily changed by a little white lead or other coloring matter to suit the taste. There is nothing equal to it for steamboat and car decks, and all kinds of iron as it forms a coating nearly as hard as the iron itself, and never cleaves off.

BEWARE OF WORTHLESS COUNTERFEITS.

As the popularity of my paint has induced scores of unprincipled individuals to grind up, and offer as fire-proof paint, all kinds of worthless stuff, much of it nothing but rotten stone that has no cohesive attraction, is held on only by the oil with which it is applied; consequently as soon as the action of the atmosphere destroys the oil, it will wash or rub off like Chalk or Whiting, nothing can yet be known of its lasting qualities, as it is but little over a year since they got them up, whereas mine has been tested about seven, and where first applied is now like a stone.

The original and genuine article can be obtained of PATRICK STEVENS, Orwell, my authorized Agent for the Island.

CURES FOR THE UNCURED!

HOLLOWAY'S OINTMENT.

AN EXTRAORDINARY CURE OF SCROFULA OR KING'S EVIL.

Extract of a Letter from Mr. J. H. Aliday, 209, High Street, Cheltenham, dated the 22d of January, 1850.

To Professor HOLLOWAY. Sir,—My eldest son, when about three years of age, was afflicted with a Glandular Swelling in the neck, which after a short time broke out into an Ulcer. An eminent medical man pronounced it a very bad case of Scrofula, and prescribed for a considerable time without effect.—The disease then for four years went on gradually increasing in virulence, when, besides the ulcer in the neck, another formed below the left knee, and a third under the eye, besides seven others on the left arm, with a tumor between the eyes which was expected to break. During the whole of the time my suffering boy had received the constant advice of the most celebrated medical gentlemen at Cheltenham, besides being for several months at the General Hospital, where one of the surgeons said that he would amputate the left arm, but that the blood was so impure, that if that limb were taken off it would be then even impossible to subdue the disease. In this desperate state I determined to give your Pills and Ointment a trial, and after two months' perseverance in their use, the tumor gradually began to disappear, and the discharge from all the ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed, and the boy thoroughly restored to the blessings of health, to the astonishment of a large circle of acquaintances, who could testify to the truth of this miraculous case. Three years have now elapsed without any recurrence of the malady, and the boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other means had failed.

(Signed) J. H. ALIDAY.

CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. John Pitt, Dudley, 19th Jan. 1850.

To Professor HOLLOWAY. Sir,—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for this last four years, at times I was so bad as hardly to be able to walk. I had tried every kind of medicine that was recommended without receiving any benefit. I at last thought I would give your medicines a trial and purchased from Mr. Hollin, Chemist of the Town, two boxes of Pills and two of Ointment, and in three weeks through them and the blessing of God, I was restored to health and strength, and am now as well able to walk as ever I was in my life. I am well known in this parish, having been sixty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot.

(Signed) JOHN PITT.

CURE OF A BAD LEG OF MORE THAN SIXTY YEARS' STANDING.

Mr. Barker, of No. 5, Graham's Place, Drypool, near Hull, had

ulcers on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them. He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was thoroughly healed by their means, and by continuing to use the Pills alone after his leg was well, he has become in health so hale and hearty as now to be more active than most men of fifty.

N. B.—The truth of this extraordinary statement can be vouched for by Mr. J. C. Reinhardt, 22, Market Place, Hull. February 20th, 1850.

CURE OF A DESPERATE CASE OF RINGWORM, OF SIX YEARS' STANDING.

One of the most eminent Surgeons in Lima (the Capital of Peru) had

a child covered with Ringworm for more than six years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the City, but nothing was found to do the child service. When he was persuaded by Mr. Joseph P. Hague, the English Chemist and Druggist, residing at 74, Calle de Pallacio, to try Holloway's Pills and Ointment, which was done, and after using six large Pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy is withheld.

The Pills should be used conjointly with the Ointment in most of the following cases:—
