

THE DAILY EXAMINER. APRIL 13, 1883.

The Two Delegations.

The Patriot of Wednesday says that the cost of the late delegation to Ottawa viz., \$854, "is an enormous sum."

The comparison of the Patriot between the expense of the late delegation and the charge of \$1,500 made by ex-Governor Laird as expenses from Battleford to Charlottetown, is also a subject upon which our contemporary may find that the less said the better.

Reporting for the House.

A summary report, in which the views of honorable members of both sides were represented with equal fairness, did not suit the Patriot. So, with deliberate purpose, it set about publishing a one-sided garbled report of its own.

That there is no good cause for its attack upon the official reporters, will appear on a brief review of the facts. The reporters were required to furnish each day a summary report of the previous day's proceedings, and the length of the report was limited to four columns of THE WEEKLY EXAMINER, or The Weekly Patriot, per week.

We have good evidence that the reports are giving satisfaction to the people. While complaining that they are rather long to the exclusion of matters of greater importance, the intelligent reader is specially pleased that the columns of the newspapers are not to be filled till next August or September with Debates which lost their interest and are not read.

The Potato Bug.

"An ounce of prevention is worth a pound of cure," is an adage containing a mine of truth; and the adage is particularly applicable at this juncture in connection with that dreaded pest the Potato Bug.

We find that many express the idea that the potato bugs cannot outlive our winters—that cold weather will kill them out, and it is therefore needless to take steps in the matter of extermination. These persons forget the fact that the bug originally came from a very cold region, the mountainous districts of Colorado, and that it has visited the New England States in its onward march, and all the neighboring Provinces, where the winters are as cold as our Island; and in many places where the pest has fastened itself, the thermometer indicates much colder weather, on

the average, than obtains here. We sincerely wish that frost would destroy the bug, but we are sure that cold, however intense, does not effect it in any stage of its existence.

We copy the following from the American Agriculturist for May, 1882, whereby our farmers may learn something of the repeated injunctions urged by agricultural journals upon farmers in the United States; and also whereby they may learn (and ponder over) what they must inevitably do for the future in their battle with the bugs, unless they exterminate the pests while they are few:—

"KILL THE POTATO 'BUGS.'—It is important to destroy the first brood of potato beetles. This brood comes from the ground in early spring, and the beetles soon lay their orange-colored eggs in clusters on the under side of the potato leaves. These eggs are readily found by turning up the foliage with a hoe handle, and picked off and destroyed. If this is omitted, the larvae, or 'grubs' soon hatch out, and begin their rapid destruction. Poison in some form must now be used. The two leading insecticides are Paris Green and London Purple. Both are arsenic compounds. The 'green' is a manufactured article, while the 'purple' is a by-product or refuse compound from the dye factories, and therefore cheaper. These substances are used either dry or wet. In the former they are mixed with thirty to fifty times their bulk of flour or plaster, and dusted or sifted on—best while the dew is on, or soon after a rain, that the wet foliage may retain the substance. In the wet method, which is now generally preferred, the poison is stirred in water—a large tablespoonful or so to the pailful—and applied through a sprinker, stirring it very frequently as it does not dissolve. The 'bugs' have been in most potato growing regions so long that a full discussion of the subject is unnecessary. It is important to remember that these arsenic compounds are deadly poisons, and to be used with great caution. Any 'green' or 'purple'—it is fortunate that they have marked colors—in the house, should be put where no one can use them by mistake, and out of the reach of children.

Our farmers may gather from the foregoing the fate that is in store for them providing the bugs are not exterminated. What with the cost of the poisons, and the labor of applying them, the prospect before our potato growers is not cheering, as the cost of raising a bushel of potatoes will be at least double the present cost, that is if the potato bug is allowed to become master of the situation.

An Ineffaceable Record.

If, as the Patriot asserts, the resolution condemnatory of Mr. Laird, passed in 1872, and read by Mr. Ferguson in the House, was expunged from the Journal, how does the resolution still appear in the printed Journals? It stands there, with the names of the members who voted for and against it. It never was expunged, and never can be expunged. It is true that Mr. Laird sought earnestly and even, we believe, with tears to have the resolution erased. His party were in a large majority in the House at the time, and it is not to be wondered at that they yielded to his entreaties, and by resolution the following day, accepted his explanations and apologies for the offence he had committed. But the condemnatory resolution, supported by Messrs. Henry Beer, J. R. McLean, Dr. Robertson, Henry J. Callbeck, and other leading men of his own party, stands in the Journal, and ever will stand. Mr. Laird may exclaim with Lady McBeath, "out with the d—d spot," but not all the waters of all the rivers of Syria and Damascus can wash out the black record.

St. Vincent de Paul Concert.

The Concert given in St. Patrick's Hall last evening in aid of St. Vincent de Paul Society, was well attended. It was a success financially and otherwise. The programme, which we publish below, was carried through in good style. Chorus, duets, and solos were well sung and heartily applauded. Mrs. Blake and Mrs. Byrne sang in splendid tune. The last named lady received an encore, and responded to it by sweetly singing "Jane's Choice." Miss Smith played a very pretty piano solo, and Messrs. Reed, Maynard and Hermans rendered their respective songs admirably; while Prof. Caven acquitted himself in the usual manner. We learn that the sum of \$60 was realized:

- PROGRAMME. 1. Chorus—"Gloria of St. Marys." Mozart St. Dunstan's Choir. 2. Song—"If doughty deeds my lady claim." Sullivan Mr. Charles Hermans. 3. Piano Solo—"La Belle Canadienne." Miss Smith. 4. Duet—"The Minute Gun at Sea." Messrs. Maynard and Reed. 5. Solo—"Dumot Astore." Mrs. M. Blake. 6. Chorus—"Regina Coeli." L. Ambeotte St. Dunstan's Choir. 7. Solo—"Phoebe." Mr. Maynard. 8. Song—"The Warrior Bld." Adams Prof. Caven. 9. Song—"Killarney." Blake Mr. Reed. 10. Duet—"All's Well." Brehm Messrs Reed and Maynard. 11. Song and Chorus—"Mortgage the Farm." Mrs. Blake, Mrs. Byrne, Miss Higgins and Prof. Caven and St. Dunstan's Choir.

MIRTYLE NAVY, A No. 1, Twin Bar, Old Gold, Old Rip, and all the favorite brands, opened to-day, at Fraser & Reddin's. [ap13 2i eod] BLACK AND TAN, the best of all Cigars, received to-day, at Fraser & Reddin's. [ap13 2i eod]

PROVINCIAL LEGISLATURE.

HOUSE OF ASSEMBLY.

OFFICIAL SUMMARY.

THURSDAY, April 12, 1883.

Mr. SPEAKER took the Chair at 12.30 p. m.

It was resolved that no new matter, on which a Bill can be founded, be introduced into the House after the 16th inst.

Mr. McLEARN asked what action had been taken regarding a new Road from Albion Road to Fortune Road.

Mr. CAMPBELL presumed this was the same road as Cabill Road. The road would be opened this spring.

Mr. McLEARN asked if a road would be opened from Hazel Green Road to New Zealand Settlement.

Mr. CAMPBELL had no recollection of having seen the petition.

Mr. J. R. McLEAN asked if it was intended to grant a sum toward the purchase of a Fire Engine for Souris. A sum had been granted some years ago but not used. There was much valuable Government property in Souris to be protected.

Mr. SULLIVAN said it was not the intention at present.

Mr. SINCLAIR asked if the Government intend to widen the road through Cyrus Morris' farm, on the road from Granville to Stanley.

Mr. CAMPBELL replied that the road was taken at forty feet wide, and all that was required was to order the Supervisor to widen it.

Mr. McDUGALL asked if the Government intend to grant a subsidy for Steam Communication between Georgetown and certain parts of Third and Fourth Districts of King's County.

Mr. SULLIVAN replied that the subject under consideration, was not yet settled.

Mr. BEER asked the Commissioner of Public Works for correspondence respecting the letting of public wharves at Montague in 1882.

Mr. CAMPBELL replied that this matter was not under control of his department, and he had no correspondence in the matter.

Mr. BEER asked the Commissioner of Public Works for returns showing whether Southport wharf has been let during the years 1879, 1880, 1881, 1882,—to whom—what rent agreed for, and what paid; and, if wharf was not let, who has been acting as wharfinger, and what amount of wharfage was received.

Mr. CAMPBELL replied that this matter was not under his control, and that he was not in a position to give the information required.

Mr. BEER asked for returns of Bank of P. E. I. for the last four years.

Mr. FERGUSON had not observed the notice of question, but they will be laid on the table.

Mr. BEER asked the Commissioner of Public Works for returns showing amounts expended on Southport Wharf, and road to Cross Roads, during 1882, with names of all persons employed, and amounts paid for work and material.

Mr. CAMPBELL replied that the papers will be laid on the table so soon as prepared.

Mr. BEER called attention of the Committee that the return of Inspectors of Public Works laid on the table does not contain the names of all such.

Mr. CAMPBELL replied that the names of every one had been given.

Mr. BEER asked whether there had not been an Inspector last year on Southport Wharf and Road.

Mr. CAMPBELL replied that no particular Inspector but one of the hired men did it, he personally inspected the work a good many times, and the man had his coat off like the rest.

Mr. YEO did not observe among the Despatches on Winter Communication, a letter from Sir John Macdonald as had been promised in his Telegram.

Mr. SULLIVAN said the correspondence before the House is the only correspondence the Government bring down on the subject.

Mr. BEER had asked for correspondence between the Department of Justice and the Government in the matter of Holman vs. Green, and Mr. Sullivan had promised that whatever there was it would be laid on the table.

Mr. SULLIVAN said the correspondence was between the Registrar of the Supreme Court and the Attorney-General, it was partly ready. He stated the substance, viz: That the Registrar had acquainted him of the case and asked to be informed if the Government desired to be represented by Counsel and that the reply was, that the Government did not desire to interpose.

Mr. McMILLAN asked if a new road will be opened from Murray Harbor Road to Sparrow's Road.

Mr. CAMPBELL replied that the road will be opened.

Mr. McMILLAN asked if a new road will be opened from Georgetown Road to Village Green this summer.

Mr. CAMPBELL replied that this was a road asked for in 1880, and he had gone there with the intention of opening the road, but at the request of one of the parties owning the land, the opening had been deferred, but arrangements had been completed, and the road would be opened.

Mr. McMILLAN asked if new road will be opened from Rona to Culloden Road.

Mr. CAMPBELL was not in a position to answer until he had visited the site.

Mr. McMILLAN asked if a Bridge would be built across the Portsea Creek on Orwell Cove Road.

Mr. CAMPBELL replied that when in that locality he had never heard any request made for the work, but he would again visit the place and if required, the bridge would be built.

Mr. FERGUSON had visited the site; it was then generally supposed that it would cost a large sum of money.

Mr. McMILLAN said a petition with a subscription list had been presented last Session, and the work was much required. Mr. McMILLAN asked for expenditure of Eldon Board of Health for 1882. Mr. SULLIVAN replied that papers will be brought down. The Committee on Private Bills reported upon Bill to incorporate Peoples' Cemetery recommending charge of \$12, which was agreed to. The said Bill was ordered to be read a third time to-morrow. At 1.15 p. m. the House adjourned. (To be continued.)

CORRESPONDENCE.

We do not hold ourselves responsible for the opinions or statements of our correspondents.

Letter from Hon. Mr. Ferguson.

To the Editor of the Examiner.

SIR,—After an absence of nearly nine years from the Province, the Hon. David Laird made his appearance during the General Election of last spring, in the Third Electoral District of Queen's County. He went over a great part of that District, addressing five meetings at great length, with the double object of securing my defeat for the Local Legislature, and introducing himself to the favorable notice of the people, with a view to the approaching election for the House of Commons. The result of the conflict which Mr. Laird invited was my return to the Assembly by a good majority, and his own defeat, both in that District and the County, by an overwhelming majority. For having successfully defended myself against his attacks, and for having exposed his selfishness and want of capacity as a public man, Mr. Laird has, since he assumed control of the Patriot, misrepresented my words and actions on every occasion.

A good illustration of Mr. Laird's honor and truthfulness is furnished in the Patriot of yesterday. Commenting on the payment of legal expenses in the case of Barrett vs. Walsh, he quotes from the defendants' Petition to the Governor in Council.

"That as the line between the said Lots 36 and 37, had never been legally ascertained, and the said Commissioner having sold your petitioners the said land with a full knowledge of all the facts of the claims by P. R. Barrett, and not having power to sell to your petitioners, your petitioners humbly pray your honor in Council to indemnify your petitioners in the costs and expenses incurred by them in and about the said trial."

Mr. David Laird then goes on to say: "The charges against the Commissioner of Crown and Public Lands is a serious one. He not only erred but sinned against the clearest light of duty, and the Lieutenant-Governor in Council appears to admit the truth of the charge, for they almost forthwith pay the amount. This is how the public money goes. Men who by inexcusable blundering like this which puts innocent people to the trouble and annoyance of protracted lawsuits, and for which the country has to pay the costs, should be immediately dismissed from the public service."

The object of the above extract is to create the impression on the public minds that the asides to the Walshs' and McInnis' were made by me, and in this way to injure me as much as possible in public estimation. When Mr. David Laird wrote this, he knew that the sales were made before I entered the Land Office, and that I had no more to do with these sales than he had. I say he knew this, because in a former part of his article he gives the dates of the sales viz: December, 1878, and October, 1879, but, with a low cunning, which is characteristic of the man, he lays the blame at the door of "the Commissioner of Public Lands" with the deliberate intention of doing me an injury.

The individual who, in this mean, sneaking way, endeavors to injure a political opponent, is not the man to accuse any person of unsoundness in either private or public affairs. No considerations, drawn either from the high position to which he has climbed, or the saintly professions so ostentatiously made by him can conceal the innate rottenness of his heart. I am, Yours, etc., D. FERGUSON. Charlottetown, April 13, 1883.
