

THE DAILY EXAMINER.

APRIL 11, 1883.

The Pier Question.

The following resolution has been passed in the Legislative Council:—

Therefore Resolved, that the committee do hereby affirm the right of this Province to a refund of all moneys expended upon such structures since the first day of July, 1873, together with the value of all piers or wharves constructed prior to, and existing at the time of confederation, and interest upon all moneys so expended from time to time at the rate of five per centum per annum. The committee regret that the Government have neglected to advance the claim of this Province to the value of the piers existing at the time of confederation, and for interest as aforesaid. This committee desire further to express their regret and disappointment, that in view of the transfer of our piers to the Dominion Government, no mention was made of any stipulation guaranteeing to this Province that there should be no increase in the rates of toll or wharfage hitherto levied in this Province.

This precious resolution indicates an amount of ignorance which is surprising, even when it emanates from the Grit majority in the Legislative Council. The resolution affirms the opinion that by the provisions of the British North America Act, as interpreted by the Supreme Court in the Holman-Green case, the Dominion are justly chargeable with the construction and maintenance of these works. It next goes on to express regret that the Government have neglected to advance the claim of the Province to the value of the Piers existing at the time of Confederation.

With regard to the above, we may just say: the Piers of the Province either passed to the Dominion in 1883 by the Terms of Confederation, or they did not. If they passed to the Dominion, then, like other property mentioned in the Act, they became the absolute property of the Dominion Government, and a demand for repayment of the first cost is too ridiculous to be made by grown up men. If they did not pass to the Dominion in 1873, then we have no claim for cost of maintenance since 1873.

Equally puerile is the regret of the Council that no mention was made of any stipulation guaranteeing to this Province that there should be no increase in the rates of tolls or wharfage hitherto levied in this Province. The delegates might just as well stipulate that no increase should be made in our Customs or Inland Revenue duties. The right to impose tolls and wharfage was acquired by the Dominion, under the British North America Act, in the same manner as the right to impose any other tax.

The resolution of the Council is an excellent illustration of the child's maxim "Eating your loaf and having it."

A Natural History Society.

NONE of the Provinces of Canada, and perhaps none of the States of the American Continent, are so far behind as Prince Edward Island in the higher intellectual culture. This should not be. We have among us men who give individual attention to various branches of Natural Science, but they want the great advantage of association. Very little can be done without it. Our small Island is not, of course, so varied a field for research as many other localities that might be named of an equal area, but it is very far from barren in the eyes of the scientist. It offers several interesting problems in geology to be worked out, its fauna, although limited, shows variety, and the flora is much more extensive than would appear to the casual observer. Specimens of the beasts of the field, the fowls of the air, the fish of the waters, and the entomology of all these are abundant and interesting. There is ample room for a Natural History Society.

The Historical Society which recently failed to struggle into life, collapsed because it attempted too much. It's a rule, no intelligent association ever succeeds when it is heralded by a flourish of trumpets, and depends for support on the membership of persons not specially interested in the objects for which the association is formed.

We have been requested to aid in the formation of a P. E. I. Natural History Society, similar to the Institute of Natural Science that has done so good intellectual service for many years at Halifax, Nova Scotia. A pretentious organization is not by any means what is proposed or wanted, but a quiet, friendly association of gentlemen interested in such pursuits of Natural Science as our own Province gives ample scope for, and which may hold periodical meetings for the reading of papers, with discussions thereon, occasionally have and out-of-doors field day and in-doors conversations, and, perhaps, accumulate a small museum of local specimens of interest. The want of some sort of regularly recurring intellectual meetings is really felt in Charlottetown, and nothing has proved more pleasant than such meetings elsewhere. We shall be glad to give further information on the subject to gentlemen desirous of aiding in the organization of such a Society, and will receive names of intending members.

The outrage offered to Lady Harcourt by sending her by mail a piece of the sheet upon which a woman had died of small pox has aroused the deepest horror and indignation. Perhaps the leader of the dynamite party and his friends will make haste to assume the credit of this new form of warfare.

PROVINCIAL LEGISLATURE.

HOUSE OF ASSEMBLY.

OFFICIAL SUMMARY.

TUESDAY, April 10.

The Speaker took the Chair at noon. Mr. PERRY asked for a return of all applications in the Land Office from 1st April, 1882, to 1st April, 1883, asking for reduction of price of land, and remission of compound interest.

Mr. FERGUSON replied that the information sought would not be found in the Land Office, but in the Executive Council. Mr. PERRY asked for all despatches, correspondence, telegrams, etc., between the Provincial, Dominion, and Imperial Governments, since last session, upon the subject of the Island's share of the Fishery Award.

Mr. SULLIVAN replied that they would be laid on the table to-morrow. Mr. BENTLEY asked for papers and correspondence between the Government and the late Inspectors under the Canada Temperance Act, and for copies of all returns by them since their appointment.

Mr. SULLIVAN laid upon the table the correspondence between the Government and the Inspectors, as also their Reports to the Government. These were all the papers in the possession of the Government which he believed there were other cases in all three Counties not mentioned therein at all. These papers were read.

House adjourned at 12.40. After recess the Speaker took the Chair at 4 p. m. The House went into Committee to consider expediency of introducing a Bill relating to Peddlers.

Mr. McMILLAN in the Chair. It was agreed that a Bill be introduced taxing Peddlers on foot \$10; Peddlers on foot \$20.

Mr. HOLLAND was against the charge being raised. Mr. MCFADYEN said there was strong feeling among farmers against peddlers. They undermine the lawful business of the country. The license fees and penalties should be high on the question of fines.

Mr. J. R. McLEAN said it was a mistake to make figures for licences or fines too high; if lower it will bring in more money to the Government, who need it all.

Mr. SULLIVAN—The Government have no interest in this Bill. It is a measure for the good of the country, and had been introduced at the request of a large number of farmers, who desire to be protected from these itinerant vendors.

Mr. J. R. McLEAN said that many people look upon peddlers as a benefit, who buy their butter, eggs, etc.

On motion that fine for peddlers traveling without license be \$20 to \$40, respectively.

Mr. FARQUHARSON thought the figure too high. If upon cloth or shoddy peddlers, fine them \$100, but not a poor fellow. Mr. BEER thought the fine should be a good one, and approved of the figure.

Mr. PERRY thought it a good idea to fine heavily, but the trouble was to discriminate.

Mr. SINCLAIR said we should discriminate. \$40 would be small for a shoddy peddler, but there should be a scale.

Mr. GORDON thought \$40 not too large—spoke of hardships of certain farmers who had given notes which they cannot meet, and it was probable they would lose their farms.

Mr. MARTIN said some peddlers were a benefit, there should be a discrimination.

Mr. J. R. McLEAN said there should be a discrimination between local peddlers and parties from other Provinces.

Mr. GILLIS said the local peddler enjoys his license for a year, while the outside party may sell for a week only, it was a poor system to uphold the law to make the fine below the license fee. The motion was carried.

After a short discussion as to the advisability of paying the informer one-half the fine, it was agreed that the informer should receive one-third of the larger fine, and two-thirds of the smaller.

The Speaker took the Chair, the resolutions were reported, and a Committee appointed to bring in a Bill in accordance therewith.

The Act to amend an Act to commute Crown Revenues, etc., was read a third time and passed.

The Act incorporating the Trustees of the Orwell Head Church in connection with the Church of Scotland, was read a third time and passed.

Mr. BEER asked the Commissioner of Public Works to lay on the table, previous to the contract being let, a copy of the specification by which it is proposed to let the steamers "Elfin" and "Southport."

Mr. CAMPBELL replied that he did not consider it in the public interest that the papers asked for should be laid on the table. As Commissioner of Public Works he was responsible to the Government and the House for any contract he might enter into, and the Government would enter into any contract necessary in the interest of the country without consulting the member from Southport, or any other member of the Opposition.

Mr. J. R. McLEAN asked if it is intended to open the new Road from the western terminus of St. Catherine's Road to Souris Line Road, along Rev. D. F. McDonald's boundary, also to improve Charlies Bridge, on Souris River Road, and extend new road from said road to Main Street, Souris.

Mr. CAMPBELL replied that these were matters which had not yet been before the House, and would require to be dealt with by it before the Government can take any action.

Mr. FARQUHARSON asked if it is intended to open a new road from North River Road to shore on west side.

Mr. CAMPBELL said that this was a road to the river, used for hauling mud, and only required in winter and could not be used in summer unless North river was bridged. The present Government had paid a sum to certain parties to allow passage through their farms. The Government were considering whether it would be better to open a road, or conjoin the practice as they have done.

Mr. FARQUHARSON said it should be opened to the public, so that parties hauling mud might dump it on the roadside as is the custom.

Mr. McLEAN presented a petition from John Ings and others, praying that the Bill

be passed allowing a Cemetery to be opened within two miles of the city.

On motion that the Act to amend the Public Schools Act be read a third time. Mr. PERRY moved it be read a third time this day three months. The amendment was put and lost on division of 16 to 11. The Bill was accordingly read a third time and passed.

On motion that a committee be appointed to whom shall be referred petitions praying for new roads.

Mr. YEO said it was little use for the Committee to make a report when the Government did not act upon it.

Mr. PERRY was of the same opinion. The system pursued was a farce. A road in his district had been referred by Committee to the Commissioner of Public Works to report, which had never been done. The Commissioner should take notice of the report of Committee.

Mr. FERGUSON said that before the establishment of Public Works Department, the report of the Committee was final; since the present system, it would appear to be more the object of the Committee to collect information to place before the Department. Sometimes, with very vague information they recommend a road, afterwards found impracticable by Commissioner.

Mr. BEER said it was not a question between the Committee and the Public Works Department, but between the House and the Department. The House often amends the Report and sends it to the Government. Why has no action been taken?

Mr. J. R. McLEAN said the question of opening new roads is settled by the House. During last four years several new roads had been ordered in his district, but have never been opened.

Mr. CAMPBELL said it was not well that all roads recommended by the House, with the information before them, should be opened—members of the District are not always acquainted with the locality. The Commissioner visits the site personally and decides.

Mr. SINCLAIR said no Government is above Parliament—if the Commissioner cannot carry out report he should state his reasons.

Mr. FARQUHARSON said the Commissioner of Public Works is a servant of the House—not more than one-half the amount voted last year for opening new roads had been spent.

Mr. McDONALD said the member for West River was one of a Government who passed the Act giving the Commissioner this power.

The motion was carried, and the House adjourned at 6 p. m.

After recess Mr. SPEAKER took the Chair at 9.15 p. m.

Mr. CAMPBELL presented petitions for new roads which were referred to New Road Committee.

Mr. SULLIVAN said that all papers upon Winter Communication and Fishery Award, will be laid on the table to-morrow.

Mr. BEER asked for correspondence between the Department of Justice, Ottawa, and this Government, or the Crown Law Officers, respecting the recent case of Holman vs. Green, and the right of the Dominion Government to the foreshores of this Island.

Mr. SULLIVAN said there was no correspondence of the kind.

Mr. CAMPBELL presented returns of expenditure of 34 Supervisors for 1882, as also their estimates for 1883.

An Act relating to Peddlers was read a first time, and ordered to be read a second time to-morrow.

Mr. CAMPBELL presented returns showing Inspectors on Public Works, the works on which employed, and their pay for 1882 and 1883.

The Act to incorporate the "Inland Steam Navigation Company" was read a second time. The House went into Committee thereon. It was reported agreed to, ordered to be engrossed, and read a third time to-morrow.

The House went into Committee upon Bill to incorporate "Summerside Presbyterian Church." It was reported agreed to, ordered to be engrossed and read a third time to-morrow.

Mr. SULLIVAN moved the amendments made by the Legislative Council to the Act to incorporate the "Sisters of Charity" be read a first time, which was done. They were also read a second time, and referred to a Committee of the whole House.

Mr. SULLIVAN said the clause had been so fully discussed that it was unnecessary to say much further. Under the Assessment Act, 1877, churches, land owned by Ministers in charge not exceeding five acres, and public school property are exempt—if so, why not property used for administering to the wants of the poor and sick—such institutions relieve the State of the burden of providing for them. He moved that the House disagree with the amendments which were carried.

Mr. SPEAKER took the Chair, the resolution was reported.

Mr. SINCLAIR was displeased at Mr. Sullivan's course—if they had not the Council half-way, it would probably have been carried—if confined to property now held, all right, but was going too far to exempt all they may hold.

Mr. SULLIVAN said the Bill was sent to the Council but they showed no disposition to go half-way, if so, they should have amended the Bill. They will still have an opportunity to reconsider.

Mr. FERGUSON—Mr. Sinclair would be prepared to go so far as the ground now occupied, but if more ground had to be obtained for a new Hospital, it would be taxed. This would act as an injunction against extending their work.

The report was adopted, and a Committee appointed to draw up reasons for House adjourning, which was done, and the reasons presented and read.

Mr. FERGUSON rose to a question of privilege. He did not complain when a newspaper commented upon the doings of public men, but when, in reporting their speech, it considered it a fit subject to engage the attention of the House. In a summary report of the proceedings of this House, he finds the speeches interlarded with abuse of individual members. It was, perhaps, unnecessary to say that the paper in which this report was published is the Patriot, for there is probably no other newspaper, nor any other publisher, who would be guilty of such a fraud. He quoted from the Patriot of the 9th, the speech attributed to Mr. McKay on the Public School Act. Such reporting was a gross breach of privilege, and disgraceful to any newspaper. The report also said that the Bill regarding

Better and Cheese, when called for by the House, was mislaid, when the fact was that it was delayed a few minutes on account of the comparing not having been finished. Mr. Ferguson quoted from May on Parliament, as to the power of the House to punish a wilful misrepresentation of its debates, whether the offender be a member of the House, or a stranger admitted to its debates. He also quoted from the Journals of the House of Assembly of 1872, wherein statements in the Patriot made by Mr. Laird, as to the Hon. J. C. Pope, were pronounced untrue, and without a shadow of foundation.

Mr. FARQUHARSON said Mr. Ferguson was evidently in a bad humor. If Mr. Laird were in a chair in the House, he would not dare say what he has done. Mr. Laird is not a hireling—he is independent and able to speak for himself, and did not require any apostle.

A Bill relating to the Acts of the Dominion Parliament respecting Insolvent Bankers, Insurance Companies, Loan Companies, Building Societies and Trading Corporations, was read a first time, and ordered to be read a second time to-morrow.

House adjourned at 10.30 till to-morrow at 10 a. m.

Estimates, 1883.

The Tableaux Vivants.

St. Peter's Schoolroom was only too crowded last evening. But for that the entertainment would have been as enjoyable as it was novel to a Charlottetown audience. Great pains had evidently been taken in the preparation of the costumes of those who took part in the representations; and, altogether, the ladies who managed the entertainment deserve great credit. The children, in all the scenes, were very pretty and artistic; and they would have appeared to better advantage had the lights been a little stronger or a little nearer the front of the stage. The Misses Sullivan sang the song of the "Old Oaken Bucket" very sweetly and exceedingly well, considering their tender years; while Miss Winnie Blake played the piano accompaniment nicely. It was specially pleasing, after a long silence, again to hear the voice of Mrs. Strickland, and the songs of Miss DesBrisay, Master R. Cuming, and Mr. Haslewood, added much to the pleasure of the entertainment. Mr. Vinnicombe was present with his violin, and gave several delightful selections. Whether due to the inspiration of the moment, or to careful practice, or to the excellence of the accompaniment played by Mrs. Golden, or to all combined, Mr. Vinnicombe never before, in our opinion, performed so well in public.

HOTEL ARRIVALS.

RANKIN HOUSE. April 10—Captain M. McLeod, Belfast; Jas B Kerr, Montreal; M. L. Leitch, do; J. H. Puller, Waverly, N S; John McLean, Souris; James R. McLean, do; John Lefurgey, Summerside; Mr H. Gange, Windsor, N S; Samuel Whitebone, St. John, N B; James McMillan, Wood Islands.
