

Prize Potato Grower Prefers Irish Cobblers

ST PETER'S—The Prince Edward Islander who took the reserve grand championship in international competition for seed potatoes at the Royal Agricultural Winter Fair has always been loyal to Irish Cobblers.

ARCHIE MACAULAY

He used to grow fewer potatoes but with a growing family he found it necessary to increase his potato acreage. Mr. and Mrs. Macaulay have three sons, James, a freshman at S.D.U., Alexander and Lawrence at school and twin daughters, Mary and Gloria, 8, also at school.

Last year was the first time Mr. Macaulay showed potatoes and he took a first for cobbler seed at Amherst and also first

7 Destroyers To Be Transferred

OTTAWA (CP)—Seven destroyers will be transferred between Atlantic and Pacific commands early in 1959, naval headquarters announced Friday.

Four St. Laurent class destroyers—St. Laurent, Saguenay, Asiniboine and Ottawa—will go from Halifax to the Pacific command and two Tribal class destroyers, Athabaskan and Cayuga, and the destroyer Crescent will transfer from Esquimalt, B.C., to Atlantic command.

The new Restigouche class destroyers, Restigouche and St. Croix will remain on the east coast and will be joined by the other five ships of the class as they are commissioned.

Stand-In For Winnipeg Mayor Makes Error

WINNIPEG (CP)—Alderman J. Gursion Harvey hurried on to the stage at Winnipeg's Playhouse Theatre Sunday. He was late. The public meeting already was in progress.

Unfettered, he launched into his speech to the Canadian Polish Congress as the mayor's representative at Polish Independence Day ceremonies.

The mayor joins you in the fervent hope that the lamp of liberty will be kept aflame in your hearts and that your prayers for your homeland will be answered. . . . as the congress meets in solemn commemoration of Poland's Independence Day," he said.

Members of the 350-person audience glanced at one another. Titters were heard. They were attending a meeting of the Communist-sponsored Canadian-Soviet Friendship Society marking the anniversary of the Russian Revolution.

Mr. Harvey finished the speech, then held hurried consultations. "It could have happened to anyone," he said as he rushed away to the Civic Auditorium where the stoutly anti-Communist Canadian Polish Congress was meeting.

STOCK SEAT SOLD NEW YORK (AP)—The New York Stock Exchange Tuesday reported the sale of a membership for \$120,000, higher by \$3,000 than the previous sale Friday. On Oct. 20 a seat sold for \$122,000, a 20-year peak. The current market is \$100,000 bid and \$124,000 asked.

Brings Glad Tidings In Sign Talk

COLUMBUS, Ohio (AP)—The priest's fingers flew as he delivered his desperately important message in sign language.

A puzzled look passed over the faces of two deaf-mute brothers. Father Bernard J. McClory made the signs again, this time more slowly.

The brothers watched incredulously. Hesitantly, one of them repeated the priest's signals. Father McClory nodded vigorously.

The bewildered looks turned to ones of hysterical happiness. Joseph Buz, 21, and his 17-year-old brother, Bert, were emerging from the valley of the shadow of death.

The message: Governor C. William O'Neill had spared their lives only 11 hours before their scheduled electrocutions in Ohio's electric chair.

The brothers were to pay with their lives for the stabbing-stomping slaying of Margaret Denham, 76-year-old confectionery and gasoline station operator.

Art Classes Are Popular

The weekly Art Class, sponsored by the Prince Edward Island Art Society, reached the half-way mark in its first eight-week course on Thursday evening, and is exceeding by far the expectations of the four teachers in attendance.

This, the first group painting course sponsored by the Society, has a weekly attendance of almost forty amateur painters, working in all media from pastels to oils.

One of the teachers takes charge of each evening, and arranges the program for work in his or her particular field. Sharp at seven-thirty the group is seated in a classroom at the Prince of Wales College, and the instructor gives a talk from fifteen minutes to half an hour.

During this time the instructor and the other three teachers circulate, offering individual criticisms and suggestions.

DAVID HUTCHESON, a charter member of the Montague Branch of the Canadian Legion, is presented with a well-filled

Montague Branch Of Legion Honors Chartered Member

MONTAGUE—Members of the Montague branch of the Canadian Legion gathered at the legion home Tuesday evening to honor their charter members, David Hutcheson.

Mr. Hutcheson left with his family on Thursday for their new home in Toronto.

An address was read by Comrade John Clarey, president of the branch, and a gift was presented to Mr. Hutcheson by comrade Bill Knox.

son moved to Toronto with his family Thursday. In the centre is John Clarey, branch president.

A native of Angus, Scotland, Mr. Hutcheson served with the Black Watch in 1914-18.

The Hutcheson family moved to Canada in 1930 and settled in Montague. Mrs. Hutcheson is the former Bessie Fraser of Morayshire, Scotland.

They have a family of five children Nora and Violet in Toronto, Jessie in London, Ont., Alex in Calgary and Lewis in London, England.

substantial" return. The two breakfast-food companies praised high-pressure advertising methods.

L. Pollock, president of Nabisco Foods Limited, said breakfast is the most neglected meal of the day. Children often eat cereal only because of the interest created by premiums.

He said the Canadian government expects a \$1,000,000,000 deficit in its next budget, mainly as a result of giving the people what they want.

Speaking at the annual conference of the Canadian Tax Foundation, he said the day may come when the major service large corporations can do for their country's economy will be to ask the government to increase their taxes in a way that would cause them the least damage.

"No one has yet found a way to present this threat to the public in a palatable way," he said. "President Eisenhower tried it in his recent attacks on 'big spenders' in the United States government."

LOOK FOR RESULTS "You need only to look at the results of the recent congressional elections to see how his views were received."

He said the official Opposition in the Canadian Parliament has adopted the "American" political principle of always voting for appropriations and against taxes. This was operational but habit forming.

The Progressive Conservatives, on the other hand, had found the way to return to power is to "promise to do things—to spend."

Mr. Fraser also expressed the opinion the press is not competent to inform the public on budget matters. In reporting fiscal matters "nine out of 10 of us don't know what we are talking about."

He said it is not a slight to say journalists "are not ones who took the prizes for arithmetic."

They had to rely on expert advice from government officials. Even then there sometimes was a tendency to give only slight coverage to difficult technical matters.

He said that in promoting tax changes the press acts like a "blunt instrument, sometimes shaped like a boomerang."

New Traffic Demerit System Unveiled By Ontario Gov't.

TORONTO (CP)—The Ontario government Friday unveiled details of a traffic demerit system expected to bring licence suspensions to two years of operation in its first two years of operation.

The scheme goes into operation Feb. 1. It will result in a three-month licence suspension for a motorist who collects 12 demerits in any two-year period. If the motorist collects 12 points in the year following his suspension he will be suspended for six months.

Automatic suspension will result from convictions for drunk driving, impaired driving, criminal negligence or obtaining a licence by fraud. Each offence counts 12 points.

Nine demerits will be recorded for failing to remain at the scene of an accident and five for careless driving, racing or speeding at more than 30 miles an hour above the limit.

OTHER OFFENCES Three demerits will be recorded for exceeding the speed limit by more than 10 miles an hour, failing to yield the right of way, failure to obey a stop sign or traffic light and failure to report an accident.

Two demerits will result from speeding 10 miles an hour or less over the speed limit and all other moving offences.

A motorist will start again with a clean slate after serving a suspension.

The demerit system, authorized by the legislature last April,

Retail Chains Have Major Impact On Meat Packers

By ALAN HARVEY Canadian Press Staff Writer OTTAWA (CP)—Development of big retail chains has had a major impact on earnings of Canada's meat-packing industry, a Calgary processor said Friday.

Testifying before the Stewart commission on price controls of food products, R. S. Mann, president of Burns and Company Limited of Calgary, spoke frankly of changing relationships between buyer and processor.

"Instead of dealing with small independent retail buyers, we now deal with very large chains," said Mr. Mann.

"I think it is only natural. They are great buying power and it is more difficult for us to get the price we want."

EARNINGS DOWN "This has kept the earnings of the industry down. Fortunately, mine goes up from year to year."

Mr. Mann was replying to commission chairman Dr. Andrew Stewart of Edmonton, who asked whether relationship exists between the growth of big retail outlets and the growing gap between producer and consumer prices.

In reply to an earlier question about the spread in prices developing since 1951, Mr. Mann said this must occur "after the product leaves us." His company's profits had not increased appreciably.

The seven-member commission resumed hearings here Wednesday and expects to finish evidence-taking Nov. 22.

OTHER DEVELOPMENTS In other developments Friday, a received a brief from the Canadian Labor Congress seeking "detailed knowledge" of the financial status of big food corporations and heard two breakfast-food companies agree on the need for advertising gimmicks to induce people to eat cereals.

The union brief, presented by EASTERN GUARDIAN
