Roadblock Stows Merger Of Giants

AORONTO (CP) — A roadblock was thrown in the path of a multi-million dollar merger of two Canadian industrial giants.
Gunnar Mining Limited, a key uranium producer, disclosed plans to purchase for \$15,000,000 the assets of McManara Corporation, huge Toronto-based construction company.
But, only hours after the announcement, the Toronto Stock Exchange issued a statement saying it had deferred approval of part of the deal.
The company proposed to buy all the issued shares of McManara, with half in cash and \$8,000,000 in shares of Gunnar at \$10 a share. Stock exchange approval is necessary before these treasury shares may be issued.
The exchange's board of governors held up their approval of the 800,000 shares "pending further information de me d necessary to reach a decision."

Russia Trailing U.S. In Nuclear Sub Field

LONDON (Reuters) — Russia has a fleet of 12 nuclear-powered submarines now operating and is building more at a rate of six or six a year in the latest edition of Jane's Fighting Ships reports.
The annual reference book of the world's warships, says the Soviet Union will start trials of a nuclear submarine with Polaris-type missiles probably before the end of 1963.
The total Russian fleet of conventional and nuclear submarines is believed to be 463 vessels, much bigger than the United States total of 176.
Most of the American subs are nuclear-powered, and the U.S. plans by 1967 to have 41 nuclear-powered submarines afloat. Jane's says.
Russia has a huge network of trawlers and "there is no doubt they carry more radio and radar gear than mere fishing boats and can pass information back to U.S.S.R. about warships and naval exercises of other nations."
