

When Father Comes Home.

BY CALEB DUNN.
In the morning when father leaves home for his toil,
Mid the brisk scenes of business and their turmoil,
We wish him good fortune and hope he may find
At evening repose for both body and mind.
There is peace in our dwelling, for love there is found,
And where love abideth sweet blessings abound;
No deep cloud of sorrow e'er mantled its hearth
To shadow our lives or to banish our mirth.
Mid the vines that creep tenderly up to its eaves
The wrens sing their songs to the whispering leaves,
While the fire-bird, as peaceful and bright as may be,
Looks down from his nest in the old willow tree.
We know there are dwellings more costly by far—
Grand mansions where art's rich embellishments are—
But we covet them not, for our home is most fair,
And love, and content, and devotion are there.

How often we think, as the hours quickly fly
Of father, and wish that he soon may be nigh,
For though miles may divide us, and rivers may flow
Between us to cheer him our hearts with him go.

And we've thus consoling assurance—that he
However exacting his duties may be,
Off thinks of the dear ones who lovingly wait
At eve his return through the old door yard gate.

There is peace in our dwelling through all of the day,
For happiness there never loses its sway;
Yet though joy never leaves us a moment to roam
'Tis the fullest and sweetest when father comes home.

A Domestic Princess.

Princess Bismark, as recently sketched, has preserved all the simplicity of her youth. She is a perfect specimen in the best sense of the word, of the German *Hausfrau* (housewife). She is very quiet, bears her honors as the most natural thing in the world, holds fast by the old friends of humbler days, and has but one great object in life—to make her husband and children happy. She cares for them in a peaceful, motherly way; and her serenity and patience, which have always secured for Bismark a quiet home, have certainly contributed to his success through life. "She is it," he once said to a friend, "who has made me what I am." They have three children—Marie, Herbert and William. Herbert is his father's private secretary; William has studied for the bar. Both will enter Parliament this year.

PRINTING BY WATER-POWER.—During the last week the power by which the *Herald* has been printed has been a thirty-inch (single) water motor. It is a little machine taking up no more room than a farmer's grind stone, and is rather ornamental than otherwise. But small compact, and simple as it is, it is one of the greatest inventions of the age, being a triumph in the application of hydraulics and the inventor's art. It is supplied with water from the mains, and the stream used passes through a tip through which an ordinary Faber pencil will barely pass. The power is obtained from the pressure, which we understand, is about fifty pounds at this point. The full capacity of the motor we do not know, but the power is more than we have any use for at present. Small as the jet is that turns it, one half of the force is sufficient for our purpose, as with it one thousand *Herald's* an hour can be printed. Probably double the speed could be obtained if necessary. It is a pleasure to watch the motor work, it performs its duty with such ease and perfect regularity, and is so quiet about it. There is no "firing up," no waiting for steam, no smoke, no dust, no heat, no danger of an explosion, no engineer, no gauges to be watched, no boilers to be repaired, no unpleasant smell, nothing about it that is dangerous or disagreeable. You simply turn a hand-wheel and work begins, the power and speed being regulated at will by the little wheel opening and closing the valve that controls the water.—*Salt Lake Herald.*

An optician's circular says, "The education of the eye is necessary even to self-support." That is, keep the pupil under the lash till it is able to say, "brows for myself."—[Graphic.

The People Want Proof.

There is no medicine prescribed by physicians, or sold by Druggists, that carries such evidence of its success and superior virtues as BOSCHER'S GERMAN SYRUP for severe Coughs, Colds settled on the breast, Consumption, or any disease of the Throat and Lungs. A proof of that fact is that any person afflicted, can get a Sample Bottle for 10 cents and try its superior effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing everyone that use it. Three doses will relieve any case. Try it. Sold by all Druggists on the Western Continent.

There never has been a time when the healing of so many different diseases has been caused by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.
DR. MELVIN'S CAPSICUM POROUS PLASTER are acknowledged by all who have used them, to act quicker than any other plaster they ever before tried, and that one of these plasters will do more real service than a hundred of the ordinary kind. All other plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one is applied the patient will feel its effect.
Physicians in all ages have thoroughly tested and well know the effect of Capsicum; and it has always been more or less used as a medical agent for an outward application; but it is only of very recent date that its advantages in a porous plaster have been discovered. Being, however, convinced of the wonderful cures effected by DR. MELVIN'S CAPSICUM POROUS PLASTER, and their superiority over all other plasters, they now actually prescribe them, in their practice, for such diseases as rheumatism, pain in the side and back, and all such cases as have required the use of plasters or liniment. After you have tried other plasters and liniments, and they have failed, and you want a certain cure, ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER. You can hardly believe your own convictions of its wonderful effects. Although powerful and quick in its action, you can rely on its safety for the most delicate person to wear, as it is free from lead and other poisonous material commonly used in the manufacture of ordinary plasters. One trial is a sufficient guarantee of its merits, and one plaster will sell hundreds to your friends.
Ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER, and take no other; or, on receipt of 25 cents for one, \$1 for five, or \$2 for a dozen, they will be mailed, post paid, to any address in the United States or Canada.
