

**TO-NIGHT
FROM
7.30 to 10.**

To-night at sharp 7.30 our Millinery display commences. We have worked hard to make it the best display of spring millinery Charlottetown has ever seen. Have we succeeded? We leave that to your judgement. We think we've beaten all our records, and that is saying a good deal. Come in, look round—see the splendid display of new designs by

MISS McKEIVER

See the tables and counters and cases, loaded with new untrimmed hats. See the charming new millinery trimmings—and indeed watch for attractions at every counter.

SENATORS DISCUSS THE EXODUS

The Matter Thoroughly Gone Into

IMPORTING DOUKABORS AND LOSING OUR OWN PEOPLE.

Senator Ferguson Refers to the Increased Departures.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 27.—In the Senate most of the afternoon yesterday was taken up with discussion of the exodus.

Senator Perley called attention to news items in papers telling of departure to States of Maritime Province people. Senator Almon mentioned the fact that he saw a large number of exodists on the train which brought him from Halifax. Both Senators Perley and Almon as well as Boulton regretted the fact that the Government was taking no steps to keep our own people home, while it was bringing wholesale importations of Doukhobors and Galicians.

The Minister of Justice claimed that immigration was unusually large and he wanted to know how the Government could keep the people home if they wanted to go away.

Senator Ferguson referred to a vain boast made in the speech from the throne that the exodus had ended, though the value of settlers' effects sent out of the country was officially reported \$400,000 higher than in the last year of Conservative rule.

The same subject was brought up in the House on a question by Mr. M. Allister who asked whether the Government had noticed the news items in the St. John Sun of the 18th referring to departures from Dorchester, Moncton, Sackville, Tignish, Fredericton, and Truro.

COL. DOMVILLE, M. P., IS RETIRED.

Gets Permanent Leave of Absence.

BY ORDER OF GENERAL OFFICER COMMANDING.

Affairs Exciting Much Interest, Particulars Not Known.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 27.—Col. Domville, M. P., has received from the general officer commanding, a notification giving him permanent leave of absence. It is difficult to ascertain exactly what is the immediate cause of this practical retirement. The General declined to give any information, and the Minister of Militia stated that nothing official had been done.

To your correspondent Col. Domville said that he had received notice inviting him to retire from the command for the time being, and he supposed that the action arose from charges made against him by Col. Markham which matters were to be investigated.

Col. Domville did not say what course he would take but stated that he was yet in command. It is supposed that he will not submit without a struggle.

Domville gave notice in the House of a series of questions in reference to the recent transfer to Col. Markham of the stores of the 88th Hussars. The affair excites interest.

IN THE HOUSE OF COMMONS

Mr. Alexander Martin Asks Questions

REGARDING THE POULTRY PATTERING STATIONS

And the Assistance to be Given to Fruit Growers.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 27.—Fielding yesterday introduced the bill to amend the insurance act. It is proposed to reduce the rates on reserves to 3 1/2 per cent the change to affect new business after next January and other business after seven years.

Replying to Mr. Alex. Martin, of P. E. Island, Mr. Fisher said several stations would be established this year in Canada for the fattening of poultry.

The Minister of Agriculture, replying to another question of Mr. Martin's said that the Government did not intend to initiate any scheme for the spraying of fruit trees but would this year act with the Fruit Growers' Association of P. E. Island in spraying fruit trees and the shipping of apples to the British market.

Sir Richard Cartwright informed Mr. A. C. McDonald of P. E. Island that a contract had been made with R. J. Leslie of Halifax, for a weekly steamship service between the Magdalen Islands and P. E. Island and Nova Scotia.

The subsidy is \$9,000 a year. The steamships include the St. Olaf and such others as may be approved. Most of the afternoon was devoted to the oil duty and oil regulations.

On the resolution of Moore, Conservative, Stanstead, who asked for a reduction of duties and greater facilities for storage, transport and wagons, after a lively talk in which the Standard and Imperial oil combines figured, the House, on the urgent request of Mr. Fielding, allowed the matter to stand over till the Budget was submitted.

The Great Fire at the Winthrop, N. Y.

Was an awful calamity, but cannot be remedied. Now, Catarrhzone can remedy and is a positive cure for catarrh and kindred dreaded diseases. This statement is backed up by hundreds of testimonials, which we have and can produce. Snuffs, ointments, washes, etc., have been proved useless in giving relief or curing catarrh, bronchitis, irritable throat, nasal and ear passages, but Catarrhzone, the ozonated air cure, does not only give immediate relief, but effects a permanent cure. Why delay? Send at once for sample bottle and inhaler, 10 cents. Outfit, \$1 00.
