Returning From
Service In Korea

Pictured above is Major A. A. Smith who is expected to return from a tour of duty in Korea next month. Prior to joining the army Major Smith practised dentistry here for a few years and then entered the service in the Royal Canadian Dental Corps. He is a son of Mrs. A. E. Smith of this city, and the late Mr. Smith who was well known in the shoe business here as a partner in the one-time firm of Morris and Smith, Queen Street. Major Smith's mother and wife reside at 255 Richmond Street.

C.W.L. Organized
At Earncliffe

A new sub-division of the Cath-
olic Women's League was organized
at Earncliffe on Sunday,
July 26th.

The meeting, which was held
in the chapel, was opened with
the League prayer by Reverend
Urban Gillis. The Provincial Pres-
ident, Mrs. L. L. Noonan, accom-
panied by the organizer for
Queens, Mrs. Patrick Clarkin, were
in attendance, and after a brief
discussion, explaining the aims
and objects of the League, the
election of officers was proceeded
with, resulting as follows:

President, Mrs. Bernard Doyle;
1st vice-pres., Mrs. Joseph P. Mor-
risey; 2nd vice-pres., Mrs. J. J.
McInnis; 3rd vice-pres., Mrs. John
McInnis; secretary, Mrs. Marie
Quinn; treasurer, Mrs. James Mur-
phy; councillors, Mrs. Reginald
McInnis and Mrs. Dan McInnis.

The newly elected officers were
duly installed and the Act of Con-
secration recited by the Provin-
cial President, Mrs. Noonan.
An inspiring address was then
given by Reverend Urban Gillis,
who congratulated and thanked
the ladies of the parish for their
zeal and initiative in organizing
the League and wished them the
very success. He also thanked the
Provincial President and the or-
ganizer for the part they played
in its formation and for their at-
tendance. A large number of
ladies from the Vernon River sub-
division, accompanied by their
president, Mrs. O'Donnell, were
also at the meeting, which closed
with prayer by Father Gillis.

Some Traces Found
Of Late Potato Blight

The weather for several days
has been conducive to the devel-
opment of potato late blight, and
traces of this disease have been
found in a few fields, states the
weekly Potato bulletin issued by the
Science Service Laboratory. The dis-
ease may become common if the
present period of showers and high
humidity persists for a few more
days. All fields should be protect-
ed from infection by an immediate
application of fungicide.

Colorado potato beetle larvae
are quite common and are causing
serious damage. Aphid populations
are building up rapidly in many
fields. DDT 2% emulsion, 1 quart
to 100 gallons of spray, should be
applied regularly.

Board Chairman Comments On
Potato Marketing Statements

Commenting on a statement of
Mr. Neil Bradshaw published yester-
day, to the effect that potato
dealers had nothing to do with
the petition now being circulated
throughout the Province and that
it only is being sponsored by grow-
ers, Mr. D. A. MacDonald, Board
chairman, stated yesterday that
Board officials had definite infor-
mation to the contrary. "If Mr.
Bradshaw is speaking in good
faith, he must not be fully aware
of the actual practices being used
to promote the petition's circula-
tion and endorsement," Mr. Mac-
Donald said.

"We know that dealers, some
high in the councils of the Deal-
ers' Association, have been re-
questing their agents or representa-
tives at various centres to accept
copies of the petition and obtain
signatures thereon. It is our in-
tention to further expose the or-
iginators and promoters of such a
misleading document."

Regarding the published resolu-
tions from the Potato Growers'
Association, Mr. MacDonald stated
that the public would no doubt be
interested to know just how many
former members the Association
now has. "Some directors of this
Association", he said, "are now
apparently attempting to blame

someone else for their own mis-
fortunes. It is a well known fact
that certain other marketing agen-
cies had, in spite of drastic
price declines, a reasonably
successful year. Speculative buying
and storage of potatoes has al-
ways been a doubtful business
venture; it was highly profitable
a year ago, but quite different last
year. Surely the directors of the
above Association are prepared to
accept themselves the responsibil-
ity for their own actions."
