**WELCOME! WELCOME!**

Winter has passed, springtime has come, King Winter is vanquished; Queen Summer glides graciously into her throne.

Each barrier King Winter had brought with his reign is broken and battered; Ho! freedom again!

Yes, the barriers are broken That bind beauty tight, Up she leaps like a prisoner Who hails the daylight,

And spreading Her beautiful tinted array, She laughs as she greets The sweet mouth of May.

Her white dimpled hands Are uplifted on high, While she moulds out in beauty You arch—the blue sky.

She paints it all deftly In rare pearl and white, Oh, Heavenly! so gorgeous This vault of pure light.

Earthward again Comes our beautiful maid, Arms full of treasures, See! through field and glade

She scatters her trinkets And e'en through the wood her presence is seen, In the sweet tiny Mayflower—Pink, white and green.

Then tearing up icy bars That King Winter had made, Laughing, ho! dancing, Bursts forth the blue wave.

Our river is gleaming, 'Tis sleeping no more, Waking it brings us from far away Treasures galore.

On Hillsborough's breast Laggng cakes glide, Remnants of the frosty king Who's left us now to die.

Then welcome, lovely Maytime! Welcome, lovely flowers! We love to sit, love to sing, In Maytime's sunny hours.

Brighton, Charlottetown. **BIRDIE.**

**INTERESTING NEWS NOTES SELECTED FOR THE EXAMINER.**

Justin McCarthy, after a life of hard work, is dying almost penniless.

All the Newfoundland sealing ships have arrived at St. John's. The total catch is 140,000, the lowest in thirty years.

No wonder they are starving in India, with the cheapest kind of grain selling for \$1.25 a bushel and wages from five to seven cents a day!

According to a despatch to the London Times from Cape Town the British Cape squadron will remain in Delagoa Bay until the middle of June.

The price of coal in Boston has been reduced 50 cents a ton. Stove coal is \$5 50, egg \$5 25, furnace \$5, and Lattimer furnace \$5 25. There is also a reduction of 10 cents a ton for steam coal, making it \$3 50.

It looks as if the pacers were going to monopolize a large share of the attention of the turfmen again this season. They are already scheduled for more races than the trotters, and the main interest seen is likely to be centred on their performance.

The young idea appears to be anxious to learn how to shoot in New York. A schoolmistress there took a pistol away from a 13-year-old pupil the other day, who had armed himself to get even with his teacher for correcting him.

The Grant mausoleum isn't finished yet, with respect to its ornamentations. Provision has been made for a colossal statue to surmount the dome of the tomb, and the work upon this will be begun without delay. The statue will represent the Union, and \$15,000 has been provided to pay for it.

The Rio Verde Valley, in Mexico, has been visited by a terrible hailstorm, which not only ruined the growing crops, but caused great loss of life. Reports have been received of the killing of forty-one persons by hailstones. On one hacienda alone twelve farm hands were killed. Some of the hailstones weighed over three pounds.

The historic newspaper, the Nation, which has been revived, publishes a warning addressed to the clergy and people of Ireland against what it characterizes as a nefarious scheme initiated in Canada to induce Irish emigrants to settle in Manitoba. Two emigration commissioners, it says, have been sent to reside permanently in Dublin and Belfast. Both of these are Catholics, because, being of that faith, they will be more likely to facilitate the plan. The Nation declares that Manitoba is a kind of Siberia, and, moreover, says that the Protestant majority in the Province tyrannize over the Catholics, who are deprived of schools and have only a few churches.

A steamer lately arrived at New Orleans from Honduras brings the news that the situation there in consequence of the revolution is growing critical. The acting British consul has wired to Jamaica for an English man-of-war, and the American consul has also wired for a gunboat to protect Americans. The rebels have succeeded in capturing Omos. Soto has been proclaimed president. Foreigners have not been molested except Americans, employed on the railroad, who have been compelled to do the bidding of the revolutionists, but it is feared that in case the government troops marched on Puerto Cortez the lives and property of foreigners will be in danger.

**DOES MR. PETERS TELL THE TRUTH?**

SIR.—In his budget speech Mr. Peters said that he did not intimate or say that he would not put taxes on without coming to the country at an election. Well, let us see. Our local representative, D. A. McKinnon, L. L. D., M. L. A., etc., when contesting the Murray Harbor District before the last local election—besides his other stock in trade, viz, duty on eggs and potatoes, the manufacturers of farming implements—becoming millionaires at the expense of the poor farmers when protected by the notorious Tory Tariff,—said at every meeting that Mr. Peters told him that the day of taxation would not come until they would first come to the country. But at the very first session of the Peters Government the tax act was passed and when the bousa was in session the above Mr. McKinnon called a meeting of his friends at Heatherdale and here, telling us that Peter's fairly loved him (Mr. McK) for the assistance he was to him in framing the tax act, patted him on the shoulder and said, "Now Mack I am going to take your advice about the tax." He was then confronted and reminded of his statements at the campaign meetings that there would be no tax. "Well," said he, "Mr. Peters told us so and I, of course, believed him." "Why then did you assist Mr. Peters to frame a tax act if he deceived you before the election, and caused you to make false promises to the electors?" was then asked. To this Mr. McKinnon replied, "Well gentlemen Mr. Peters is a long-headed fellow and if he had not given the people to believe there would be no taxes he would be snowed under." Now every man in that meeting remembers well the above statements of Mr. McKinnon: and we often spoke about it afterwards. There were a few Tories also present with us who remember the whole affair. Now the question which arises is: Did Mr. Peters tell the truth in his budget, or did Mr. McKinnon tell the truth at the meeting? One of them must have deceived us? Which one? Or did both?
