OBITUARY.

There died at his residence, Morell Rear, on Saturday, the 23rd May, Charles McCarthy, in the 65th year of his age. The deceased settled in Morell Rear more than 30 years ago, when that locality was an unbroken forest. By honesty, industry and thrift he converted the forest into fertile fields and secured for himself and family a comfortable home. Mr. McCarthy took an active interest in all public questions affecting the welfare of his native province, and in times gone by was a trusted friend and ardent supporter of the late lamented Hon. Edward Whelan. Being of a kind and generous nature, a charitable and Christian disposition, enemies he had none. His friends were legion, who always found a genial welcome beneath his hospitable roof, and they will long cherish his memory with feelings of respect, love and veneration. On the 25th inst., his remains, followed by his friends and neighbors, were conveyed to St. Joseph's Church, where the last sad rites were performed by the pastor, Rev. A. McAulay, thence to the cemetery, where the deceased was laid to rest beside his wife in the family plot. May his soul rest in peace.—Com.

At Brookvale, Lot 30, on Thursday, May 14, after a lingering illness of one year, which she bore with Christian patience and resignation to the Divine Will, Catherine, the beloved daughter of Patrick and Sarah O'Neill, in the 26th year of her age. The deceased was loved and highly esteemed by all who had the pleasure of her acquaintance, and her early demise has cast a gloom over the whole community. Her funeral took place to St. Joseph's Church, Kelly's Cross, on the 16th, where a Requiem Mass was celebrated by the Rev. D. B. Reid, after which her remains were laid to rest in St. Joseph's Cemetery. To her sorrowing parents, sisters and brothers we tender our sincere sympathy in their sad bereavement. May her soul rest in peace.—CLM.

LITERARY NOTES.

The June number of the Delineator, which is called the summer number, contains a choice representation of the reigning modes and materials, and in addition a special article on Wedding Attire and Customs. Mrs. Weatherspoon's Tea Table Chat is this month especially interesting. Carolyn Halstead's entertaining description of the Society of Colonial Dames is accompanied by portraits of some of the officers of that order. The fourth paper by Mary Oadwalader Jones is fully as interesting as its predecessors. Mrs. Charles Sprague Smith tells about Illustrating as a Profession for Women, and Frances Leeds continues her exposition of household decoration by describing the doing over a commonplace parlor into a blue and ivory boudoir. Especially attractive to women is the first of a series of Talks on Beauty by Dr. F. J. Leviseur, who treats of the care and treatment of the skin. Of like practical utility is the third and last paper on the Care of the Teeth, by a well-known New York dentist, and Mrs. Buchanan's contribution on Improved Methods of Household Sanitation. Emma Haywood's illustrations and descriptions of Ecclesiastical Embroidery and Fancy Stitches, a chapter on Seasonable Cookery, notices of New Books, and the latest ideas in knitting, Lace Making and Crocheting are among the other features of this number of The Delineator.

Address communications to The Delineator Publishing Co. Toronto, Ltd., 33 Richmond St., west Toronto, or the local agent for the Butterick patterns.

Subscription price of The Delineator, $1.00 per year, or 15 cts. per single copy.

AN ALARMING INCREASE.

The Prevalence of Female Complaints found to Result Largely from the Kidneys.

SAGINAW, Mich., May 18.—Doctors are beginning to turn their attention more exclusively to the causes for the great increase of what are known as female complaints during the past ten years, and to the remedies for the same. Many cases have been investigated, and among others that of Mrs. Reany, of Ashland, Wis., who was cured of this form of trouble by the use of a kidney medicine known as Dodd's Kidney Pills, which originated in Canada but has now become widely known and used throughout the Western States. This and other similar cases go to show that these troubles are largely due to the kidneys and that the above mentioned remedy is likely to have a great effect in lessening the number of victims to this form of complaint.

AFTER THE FIRE.—A five year old girl named Rumboldt was badly burned last week at Richmond, Halifax, by her clothes igniting at a brush fire burning in an open field. All the hair was burned from her head, and one arm was so badly burned before the flames enveloping the child were extinguished that the arm had to be amputated. The amputation took place on Tuesday.

—According to B. G. Walker, General Manager of the Canadian Bank of Commerce, Toronto, "Nothing has happened in the progress of Canada which requires us to seek new roads to success." So say we all of us.

—Montreal Gazette: Mr. Corliss has a bill before the U. S. Congress to fine any resident of Canada who goes to the United States to work as much as $600. Mr. Laurier has a scheme before the Canadian people to increase the amount of manufactures imported from the United States, and reduce the amount produced at home. Query:—Where would the Canadian workman find himself if both these projects—the Corliss one and the Laurier one—were carried out?

The Alberton Address—An Able, Comprehensive and Eloquent Exposition of Conservative Principles.

The following is the splendid address which Hon. Mr. Ferguson so highly appreciated and eloquently responded to at Alberton on Tuesday, before a large and enthusiastic audience:

To the Hon. D. Ferguson, P. C., member of Dominion Cabinet:

HONORABLE SIR,—On this, the first occasion upon which you have honored Alberton with your presence since you have been called to the high and influential position of a Cabinet Minister, we will be permitted to offer you our hearty congratulations.

Farmers or farmers' sons for the most part ourselves, we are especially pleased to see one born in a small and remote Province, and devoting his life, apart from political occupations, to agricultural pursuits—one who, unlike most of our prominent Canadians, has had none of the extraordinary, and few even of the ordinary early advantages, force his way by sheer dint of great ability, untiring zeal, and force of character, to the very forefront of national statesmanship.

We do not purpose reciting here all the claims that you hold to our esteem and gratitude because of your public efforts as a provincial minister for many years, or even since you have found a larger sphere of usefulness to the nation in its supreme councils. It will be permitted, however, to us to acknowledge the many advantages you have secured for our province, even against the unwise word and baneful influence of those who were sent to Ottawa to forward its interests in the matter of improved train service, in which we in the west, last year for the first time, participated; in the lowering of rates by the winter steamer; in the increase of wages of our public employes; in securing new post offices; in obtaining the due recognition of our claims in the matter of public works; in the opening up and development of the dairy industry; and last, but certainly first in point of magnitude and importance, in securing the pledge of the government to construct a number of railway branches which will prove of great utility to the country, while they do not exact one single cent more from the public purse than is due to us because of our non-participation in the general railway grants of the nation.

The policy of the Liberal members from this province in discrediting the government's good intentions towards us, both with reference to railway branches and every other improvement attempted, we marvel not at; it is the same fatuous policy which has been so persistently adhered to by them in the past, and which has robbed our fair province of so many benefits, and this place of a good harbor entrance in the effecting of which many thousands of dollars would have been put in circulation among the people, while a safe harbor of refuge would have been made where it is so badly needed for all classes of shipping. It is the same policy which has deprived Tignish, Miminigash and Brae of breakwater extension. We need not say that we greatly deprecate the unfortunate action of our late representatives in thwarting, for political purposes, the designs of the government in our regard by unfair representations and stupid questioning; and we beg to assure you, that instead of weakening your influence at Ottawa, by the presence there of men in no wise qualified to represent an intelligent and enterprising community, we wish to do our best in the future, to send to your assistance, and that of the Government you represent, a member prepared to strengthen your hands and honorably and ably bear his share of the burden in the administration of public affairs.

In conclusion, permit us to assure you that we give our complete confidence to that illustrious statesman, Sir Charles Tupper, who now holds the premiership of this great country, and fully believe that the grand old Conservative national party which has made and developed the Canadian confederation will go again to victory on the 23rd of June. The Conservative party has an abounding faith in Canada, it is aggressively progressive, it has developed the industries of the country and has conserved the domestic markets for our own farmers and artisans; it has augmented our foreign commerce and engendered a spirit of union without which all national grandeur is impossible. It now further promises to favor preferential trade with the different parts of the Empire; to secure a rapid Atlantic service; to further develop our agriculture; to look carefully to our national defences; to encourage healthy immigration; to stand firmly by the constitution in safeguarding the rights of minorities, and to secure territorial extension by the admission of Newfoundland into the confederation,—all of which great projects have every true Canadian's hearty approbation.

We are confident, sir, that your best efforts will in the future, as in the past, be exerted for the maintenance of these sound Conservative principles, and therefore we hail you our worthy provincial leader; we

Could not get Insured.

Rejected by Straight Line and Mutual Companies.

But now Insured in both.

"Should I die while I am in a position to pay my insurance premiums, my family will owe their support to Scott's Sarsaparilla. Two years ago I applied to two companies for insurance, $1000 in each. My face was a mass of pimply blotches and my urine did not stand the test. One doctor in examining me said I could not pass, but that my trouble was curable. He advised an alterative medicine, and I commenced taking Scott's Sarsaparilla. Both companies rejected me, but four months later, after I had taken five bottles of your remedy I am thankful to say both accepted me as a risk—one being a stock company, the other a mutual. The examiner who previously examined me, remarked "I never saw such a change in any man." This is indorsed by Mr. J. Todd, the popular druggist, corner Queen and Crawford Streets, Toronto.

Scott's Sarsaparilla builds up debilitated constitutions, imparts strength, vigor and vitality, clears and purifies the blood. It cures skin diseases, rheumatism, gout, indigestion and all complaints arising from poor or poisoned blood. Of all druggists, $1 per bottle.

For Dyspepsia and Bad Blood Humors **Manley's** Celery-Nerve Compound is unexcelled.

Mr. Geo. Reid, G.T.R. Operator, New Hamburg, Ont., under date of March 3rd, 1896, writes as follows: "I was troubled for two years with Boils and Dyspepsia of the worst kind. Tried several medicines, but none gave much relief. Until I tried Manley's Celery-Nerve Compound my blood was in a dreadful state, but I am happy to say your medicine cured me."

For sale by Geo. E. Hughes and Johnson & Johnson, Charlottetown and Souris.

Nervous

People find just the help they so much need, in Hood's Sarsaparilla. It furnishes the desired strength by purifying, vitalizing and enriching the blood, and thus builds up the nerves, tones the stomach and regulates the whole system. Read this:

"I want to praise Hood's Sarsaparilla. My health run down, and I had the grip. After that, my heart and nervous system were badly affected, so that I could not do my own work. Our physician gave me some help, but did not cure. I decided to try Hood's Sarsaparilla. Soon I could do all my own housework. I have taken

Cured

Hood's Pills with Hood's Sarsaparilla, and they have done me much good. I will not be without them. I have taken 13 bottles of Hood's Sarsaparilla, and through the blessing of God, it has cured me. I worked as hard as ever the past summer, and I am thankful to say I am well. Hood's Pills when taken with Hood's Sarsaparilla help very much." MRS. M. M. MESSENGER, Freehold, Penn.

This and many other cures prove that

Hood's Sarsaparilla
