A REMARKABLE ENGAGEMENT.

One of the greatest military achievements of ancient or modern times, and the crowning incident of the Indian Mutiny, was the memorable Relief of Lucknow by General Havelock, which is thus described in an old history:

A weak battalion of five hundred all told, the 32nd (Duke of Cornwallis) still armed with the smooth bore musket was at Lucknow when the storm cloud of the great mutiny burst in May, 1857, the only British Regiment within hundreds of miles, in the midst of a mal-content population. The heroic defence of the Lucknow Residency by this regiment and a few loyal natives, until the arrival of Havelock on September 25th, and the tragic fate of the detachment under Captain Moore at Cawnpore, are undying pages in British history.

This magnificent spectacle will be reproduced with remarkable fidelity to detail at the Nova Scotia Provincial Exhibition at Halifax, September 22nd to 29th.

In view of the recent, native uprising in India, and of the spirit of war now in the air, the Commission are exceedingly fortunate in the selection of the "Relief of Lucknow" as their central attraction. Over two hundred trained soldiers will be employed in the production of this splendid military drama. The Scotchmen's enthusiasm will know no bounds when the Highlands appear in the distance, bringing help to the beleaguered garrison, while the ragpipes are playing the "Campbells are Coming."

The act of the piece is accompanied by a grand pyrotechnic display. Men's furnishings, summer under-clothing away down in price. Good quality of men's fancy shirts for 50c each.—J. B. MacDonald & Co.

CANADIAN BICYCLES.

(Mail and Empire.)

In this country the silent revolution wrought by the bicycle has been attended by the evolution, almost equally rapid, of a bicycle industry. A labor-saving, time-saving machine, meeting a want felt by everybody, the wheel has made an important place for itself in our economy, and is used to expedite the business or otherwise to promote the happiness of hundreds of thousands of Canadians every day.

Most of these wheels, practically all of the best of them, bear the stamp of a Canadian workshop. They are the product of our own industry. Through from the nature of its usefulness the demand for the bicycle sprang up and expanded very rapidly, it was not allowed to get a long start on our manufacturing enterprise. Works were promptly established at various points, large numbers of skilled men were employed, and Canadian bicycles were put on the market.

NEW GLASGOW NOTES.

Hay in abundance is being gathered in by the farmers.

Evidences of the much needed repairs to the span of the Clyde are to be seen, and it is necessary for the pile driver to be again called into service. We hope the village poet will refrain from indulging in a second satire.

Miss Lizzie Dickieson, a former teacher in the High School, is spending her holidays with friends and relations here. Miss Dickieson is loud in her praise of midsummer vacations.

A valuable three-year-old colt, the property of Mr. Albert Parkman, was found dead in the pasture field on Friday of last week. The cause of death is unknown.

Mr. Crook, of California, and her sister, Mrs. Howes, of Massachusetts, are the guests of Mrs. J. C. Stevenson.

Mr. Richard McCoubrey has returned from his visit to friends in Cape Wolfe. He looks well, notwithstanding his narrow escape from drowning while fishing in western waters.

Mr. Hamilton Binns, who is perhaps one of the most skillful managers of the equine race, was severely tried on Saturday evening. According to Mr. Binns, he was journeying on the Rustico Road, about 7 miles from home, when his horse, a very spirited animal, took fright at an object on the roadside, and dashed off at a furious pace, which he made more than interesting by a display of heels. As a result a much damaged carriage is in the repair shop, and Mr. Binns, though not under a physician's care, nurses an injured limb.

At a late hour on last Wednesday night a respected villager was seen to rush from his room and viciously attack a horse and carriage that chanced to be near. 'Twas only after embracing mother earth—the consequence of his too close relationship with one of the wheels—that the sleeper realized his position. Fortunately no injuries were received.

Piles Cured without the Knife by Dr A. W. Chase's Ointment.

Mr Geo Brown, Painter, of Woodville, Ont., Victoria Co., says: "For thirteen years I was a sufferer from bleeding piles and the intense agony which I passed through during those years and the relief I obtained by Chase's Ointment prompts me to give this testimonial. My physician wished me to have an operation, but felt I could be cured without the knife. Three boxes of Dr Chase's Ointment stopped the bleeding and effected a permanent cure."

OBITUARY.

On Wednesday afternoon of last week our community was greatly shocked by a drowning accident. Peter E Clarkin, shipping clerk in the office of the Manufacturers Investment Co., was drowned while bathing behind the pulp mill, Wednesday afternoon, about 3 o'clock. He was in the habit of bathing there and informed one of the men of his intention of doing so. When he had been gone an hour anxiety was felt regarding him and search was made. His clothes were on the shore, and on going out in a boat, his body was found in about eight feet of water.

Ed. Stewart dove from the boat and brought him to the surface. Everything was done to resuscitate him but to no avail. He was a general favourite among the young men of the village, and had been in the employ of the Investment Co. for 3 years. His age was 21. He leaves to mourn his loss 3 brothers and 1 sister, also several half brothers and sisters. His sister was in Boston at the time of his death, and came to the village to accompany Mr M E Clarkin with the remains to Charlottetown, the home of the family.—Madison, Me, Bulletin.

That Wearing Tearing Maddening Headache is often the result of eye strain instead of drugs, in such cases the only reasonable and effectual remedy is a pair of properly fitted eye-glasses or spectacles, which relieve the muscular strain and therefore cure the headache. We have made a special study of fitting glasses, and would be glad to have you call on us if troubled in any way with your eyes.
