GOOD NEWS

ALL ALONG THE LINE

Conservatives Gaining Ground Everywhere.

From every part of the Dominion the prospects are becoming brighter for the Conservatives as the day of election approaches. Strong candidates are now in the field, in almost every constituency from Victoria to Cape Breton.

The statements of independent observers are, in every case, favorable for the Conservatives, the majority being variously stated at from 25 to 60.

The betting game, the Puffery Bureau, and kite-flying telegrams are all failing to maintain the courage of the government who re-plainly on the run all along the line.

With the immense possibilities of a preference for Canadian wheat, meat dairy products and fruit within our reach, who will doubt for a single moment that the people of Canada will uphold the hand that is reaching out for this great boon for the producers of Canada.

As Britons spoke on the South African war, so will Canadians speak on the 7th November.

As Britons spoke on preferential trade within the empire, so will Canadians speak through the ballot boxes at the coming election.

THE ISSUE STILL THE SAME.

The people of Great Britain have by an overwhelming majority condemned Sir William Harcourt and the English Liberals as the people of Canada will condemn Sir Wilfrid Laurier and his followers, on the same grounds.

Both British and Canadian Liberals were untrue to the Empire in a grave crisis, and will share the same punishment.

But the verdict of the British people in favor of Salisbury and Chamberlain looks beyond the South African crisis. It embraces a finding by the British people in favor of preferential trade within the Empire. A Minister for the Colonies Mr. Chamberlain invited the Colonies to name a commission to discuss the question with the British government and declared that Britain would meet them "more than half way," and would take up the question in "no mean or huckstering spirit," and would not be deterred either by economical pedantries or selfishness from giving favorable consideration to any proposals which our brethren across the seas may make to us.

With those words on the lips of his Colonial Minister, Lord Selkirk, went to the polls and was sustained by a majority of two to one. Sir Charles Fupper is today proclaiming the same statement-like words in the ears of the people of Canada.

WEST ELGIN ELECTION CASE

The McNish Confession

The following is the statement signed by Mr. McNish, the Liberal candidate, regarding the conduct of The Machine in the West Elgin election:

"That a large number of persons were specially sent into the constituency, by men working on behalf of the Liberal party, for the express purpose of taking part on Mr. McNish's behalf; in the election held January 12, 1899, and we believe that fraudulent and corrupt means were used by some such persons to procure his election.

"That several such persons illegally and without authority acted as deputy returning officers at the said election, and in at least three cases so acted in the names of reputable local men, having, under assumed names, been introduced to the returning officer by local agents of Mr. McNish.

"That in many of the polling subdivisions of the ridings there were grave irregularities connected with the return of the ballot boxes with their contents, the voting and the counting of the ballot thereat.

"That there was a large number of persons brought into the riding for the express purpose of personating legitimate voters, and assisted by some of Mr. McNish's local supporters such persons did personate qualified voters in voting for Mr. McNish.

"And a large number of votes cast for Mr. McDiarmid (the Conservative candidate) were in some notorious and corrupt manner manipulated, whereby the result of the election was rendered doubtful."

On the evening of the day when the election was obtained after this manner the following despatch was received by Mr. McNish, who referred to it in his examination:

"TORONTO, Jan 12, 1899.
"Donald McNish, St. Thomas."
"Heartfelt congratulations. Sorry to the bottom of my heart I cannot be with

you tonight. To be supported by such a noble band of workers should make you the proudest man in Ontario. Shake hands with the boys for me, and hug the members of the much abused threshing machine for 'auld lang syne.'

PRESTON."

On the day following the date of this despatch Mr. W. T. R. Preston was appointed by the Dominion Government to the office of Inspector of European Emigration Agencies at a salary of \$3,000 a year and expenses. He immediately crossed the Atlantic and did not return until the West Elgin enquiry was over and the ballots used in that election had been accidentally "burned" by Government officials in the Government office.

MONCTON HEARD FROM

Powell Making New Friends—Emerson and Railway Men.

DEAR EXAMINER.—Being a native of Charlottetown, but having resided in Moncton for about twenty-three years, I thought a few lines in reference to political matters would not be out of place at this time.

Now that the Federal elections are on, every one appears to be more or less interested, from the old grey-headed man down to the small boy of 10 or 12. Being a railway town where a large number of men are employed, who of course are interested in the politics of both parties, causes a lot of excitement just now.

It is said that Emmerson, the Liberal candidate, is about to advance the pay of the L. C. R. men in Moncton twenty-five cents per day in order to catch their votes. But the men cannot be fooled in this way. Mr. Emmerson and his gang of heelers will likely discover ere the sun goes down on the 7th of November that the railway men are not made up of that kind of stuff.

Our candidate, Mr. Powell, has made many new friends, especially among the railway classes since the elections of 1896. Mr. Emmerson, on the other hand, is regarded as an enemy to the working man. His "bleeding heart" will affect the men very little—even to the extent of 25 cents a day. They do not forget the treatment they have undergone the past four years of grit rule and are determined by their votes on the 7th of November to put an end to the tyrannical rule of the L. C. R. bosses.

Quite a number of Moncton boys have changed their allegiance since the elections of 1896. I am glad to name B. Loomis, an old time Liberal native of Prince Edward Island, who has been carrying on a large business in Moncton for a number of years.

Granville Jottings.

Rev. John Dystant delivered a very interesting lecture in Granville hall on Tuesday 4th, subject "Habit." A short programme was rendered at the close of the lecture, receipts to go towards replenishing the Granville S. S. Library.

We are pleased to learn that Mr. David Taylor, who has been confined to his bed for some time, is convalescing somewhat from his recent illness. We hope to soon see him about again.

A few of the followers of Sir Louis met at Granville on Saturday 6th for the purpose of organizing for the coming struggle. But notwithstanding the fact that the Minister of Marine and Fisheries was present only seven of the faithful attended. Some of the people Sir Louis can fool part of the time, but ultimately he cannot fool all the people all the time.

The political fire has been kindled in this section, and the merits and demerits of the two great parties are being discussed. Unless the Laurier government withdraws from the bushel the solitary light of some concealed virtue, (if any true) have Liberalism in Granville will be as silent as the grave.

Everybody has without doubt heard of the wonderful merits of the famous liniment known as Davies Anodyne. But it was only recently, during the visit of the Minister of Marine and Fisheries who seems to carry the panacea for all the ills and wrongs that man is heir to, that the pills known as Davies-Turbo-Bon-Bons were introduced into this vicinity. So far, however, their merits of healing cannot be recommended, as the only patient who has given them a trial is still confined to his bed. How fortunate for those quacks that their faults are not written on their foreheads, otherwise they would require a very large hat.

JOHN PLOWMAN.

Madame Ramsdell, has arrived in town and has taken rooms at Mrs. McGregor's Prince St. where she has on view a full line of hair goods of all kinds. She will make up combings in a very satisfactory manner. Shampooing for ladies and children every evening after six o'clock. Madame Ramsdell has a dandruff cure that is meeting with great success as a tonic and restorer.

THE RIGHT THING

A New Catarrh Cure, Which is Rapidly Coming to the Front.

For several years, Eucalyptol G uaiaco and Hydrasin have been recognized as standard remedies for catarrhal troubles, but they have always been given separately and only very recently an ingenious chemist succeeded in combining them, together with other antiseptics into a pleasant, effective tablet.

Druggists sell the remedy under the name of Stuart's Catarrh Tablets and it has met with remarkable success in the cure of nasal catarrh, bronchial and throat catarrh and catarrh of the stomach.

Mr. F. N. Benton, whose address is care of Clark House, Troy, N. Y., says: "When I run up against anything that is good I like to tell people of it. I have been troubled with catarrh more or less for some time. Last winter more than ever. Tried so-called cures, but did not get any benefit from them. About six weeks ago I bought a 50 cent box of Stuart's Catarrh Tablets and I am glad to say that they have done wonders for me, and I do not hesitate to let all my friends know that Stuart's Catarrh Tablets are the right thing."

Mr. Geo J Casanova of hotel Giffin West 9th street, New York City writes: "I have commenced using Stuart's Catarrh Tablets and already they have given me better results than any catarrh cure I have ever tried."

A leading physician of Pittsburg advises the use of Stuart's Catarrh Tablets in preference to any other treatment for catarrh of the head, throat or stomach.

He claims they are far superior to inhalers, salves, lotions or powder, and are much more convenient and pleasant to take and are harmless that little children take them with benefit as they contain no opiate, cocaine or any poisonous drug.

All druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package; and they are probably the safest and most reliable cure for any form of catarrh.

MEETING AT MAYFIELD.

BRIGHT PROSPECTS FOR THE RETURN OF MR. STEWART.

The young Conservatives of the New Glasgow polling division held a meeting in Mayfield school-house on Monday, Oct. 15th, for the purpose of receiving a report from the canvassing committee. The school house was crowded. Mr. Cyriac Buote presided. The report of the committee was very favorable, showing a great increase in favor of the candidate Mr. W. S. Stewart.

After other matters of business were disposed of, stirring addresses were delivered by Messrs Stanislaus Buote, E W F Harris, Thomas Doyle, Francis Murphy, Capt. Jos Buote and others. The outlook for the election of Mr. W S Stewart in this section is very promising, and judging from the enthusiasm of the meeting the "courageous knight" will be authorized and renewed "hors de combat" on the seventh day of November next.

CONUNDRUM.

Sir.—If it takes a hundred men to dig a hole in a sandbank at Skinner's Pond, and a man each to cut every twig along the railway track in West Prince, how many men will it take to elect B. D. McLellan again to do nothing for us or himself at Ottawa? And how much will the country get out of the transaction?

JOS BEEF.

[Such respectably methods ought to make Mr. McLellan's election impossible with self-respecting electors.—Ed. EXAMINER.]

THY WILL VOTE RIGHT

Sir.—Everybody that can be bought with a day's work, rum, money or promises, this time, will be bought for the Liberals, sure. The organization is now open and brazen. But decent people will resent such wholesale corruption worked by Davies and Farquharson, and not every man with a shovel on the road or a dollar from the machine man, or a bottle in his pocket from Johnny Quinn will mark his ballot for the Liberal candidate. They'll take what they get. What is the country's, anyhow, and vote as they feel they ought to after all—lord the country of the rascals now running it.

Harder to increase trade in clothes for knickerbocker boys than in any other department of a clothier's business—more competition. "Everybody" sell boys' clothes except hardware stores, and some day they'll be advertising patent aluminum suits with reinforced seats and knees.

Besides outside competition our boys are continually graduating into youths and men. The same families won't furnish boys indefinitely, so we have all the while to keep finding new boys to replace the growaways.

Then again many parents imagine that a boy ought to be dressed for a quarter the cost of dressing his sister. They read advertisements of boys suits for 93c, 49c, &c, and try them, generally resulting in the boys' discreditability appearance. Even people who go to a first-rate clothing store for their boys' clothes often begudge paying as much as is necessary to get real nice things.

We are going to revolutionize our boys' clothing trade by putting it on a basis as level as it ought to be effective.

Henceforth we shall sell clothes for knickerbocker boys without profit.

This means good clothes with only enough added to cost of material and labor to cover the expense of delivering them to you—not a dollar's worth of profit for ourselves; we'll wait for profit until the boy begins to pay for his own clothes.

The entire stock of boys' wearables—clothes—furnishings—hats and caps has been marked to accord with this idea.

You are invited to look.
