

definitely needed.

As we enter the 21st century a long hard look is needed at the post-secondary institution and the role it plays in families' lives. Costs are rising, cuts to education are becoming an everyday occurrence and quotas are being put on many departments. Major changes are necessary to take care of the needs of families, education needs to become more accessible to the many or the lines at the food banks and welfare counters are just going to get longer and longer.

Quote of the Week:

"I gain strength, courage and confidence by every experience in which I must stop and look fear in the face...

I say to myself, I've lived through this and can take the next thing that comes along...

We must do the things we think we cannot do."

Eleanor Roosevelt
