## Constipation

Demands prompt treatment. The results of neglect may be serious. Avoid all harsh and drastic purgatives, the tendency of which is to weaken the bowels. The best remedy is Ayer's Pills. Being purely vegetable, their action is prompt and their effect always beneficial. They are an admirable Liver and After-dinner pill, and everywhere endorsed by the profession.

"Ayer's Pills are highly and universally spoken of by the people about here as never failing to relieve them in my practice."—Dr. I. E. Fowler, Bridgeport, Conn.

"I can recommend Ayer's Pills above all others, having long proved their value as a cathartic for myself and family."—J. T. Hess, Leithville, Pa.

"For several years Ayer's Pills have been used in my family. We find them an

### Effective Remedy

for constipation and indigestion, and are never without them in the house."—Moses Greiner, Lowell, Mass.

"I have used Ayer's Pills, for liver troubles and indigestion, during many years, and have always found them prompt and efficient in their action."—L. N. Smith, Utica, N. Y.

"I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. Two boxes of Ayer's Pills effected a complete cure."—D. Burke, Saco, Me.

"I have used Ayer's Pills for the past thirty years and consider them an invaluable family medicine. I know of no better remedy for liver troubles, and have always found them a prompt cure for dyspepsia."—James Quinn, 90 Middle St., Hartford, Conn.

"Having been troubled with constiveness, which seems inevitable with persons of sedentary habits, I have tried Ayer's Pills, hoping for relief. I am glad to say that they have served me better than any other medicine. I arrive at this conclusion only after a faithful trial of their merits."—Samuel T. Jones, Oak St., Boston, Mass.

## 50,000.

Fifty Thousand Bottles Wanted

—AT THE—

"OLD LONDON" BOTTLING HOUSE.

JOHN JOY,  
Water Street.

## Local and Other Items.

FOR DRILL.—The Engineers will meet for drill to-night.

Now is the time to get Gents' light summer shirts, drawers, socks, etc., at 25 per cent. discount.—A. L. Brown.

The itching of the scalp, falling of the hair, resulting in baldness, are often caused by dandruff, which may be cured by Hall's Hair Renewer.

THEY WANT A PARK.—A public meeting recently held at New Glasgow, N. S., has voted eight thousand dollars for the purchase of public lands for park purposes.

CODFISH.—Codfish have arrived. A Monday caught off Red Point, Lot 48, on Monday last. Fishermen are putting out their trawls in expectation of getting cod from this time on.

SALUTE ON SATURDAY.—A royal salute of twenty-one guns will be fired from Fort Edward on Saturday, the 25th inst., by No. 2 Battery, G. A., under command of Capt. J. A. Longworth.

LOBSTERS.—Lobster catchers are doing fairly well. The catch is quite up to that of last year in June, while for size and quality the lobsters are better than they have been for several years past.

CHANGED HANDS.—The St. John Gazette of Monday says: Mr. W. S. McKie, of Charlottetown, this morning sold his fast trotting gelding "Telegraph" to Mr. Charles Baker at a handsome figure.

Never had a preparation a more appropriate name than Ayer's Hair Vigor. When the capillary glands become enfeebled by disease, age, or neglect, this dressing imparts renewed life to the scalp, so that the hair assumes much of its youthful fullness and beauty.

THE REGATTA SURPLUS.—The members of the Regatta Committee are requested to meet in the office of H. V. Palmer, Esq., this evening, at 7 o'clock, when the secretary will hand over, for whatever purpose may be decided upon, the surplus from last year's proceedings.

Dyspepsia causes depraved blood, which, in time affects every organ and function of the body. As a remedy for these troubles, nothing can approach Ayer's Sarsaparilla. It vitalizes the blood, strengthens the stomach, and corrects all disorders of the liver and kidneys.

TOO FRIVOLOUS.—An Ottawa despatch says that Archdeacon Lander upholds Rev. E. A. W. Hanington in his difficulty with the congregation of St. Bartholomew's Church over alleged ritualistic practices. The archdeacon says the charges are too frivolous to be seriously noticed.

WHALES.—Along the southeastern coast of the Island large numbers of whales, averaging from 30 to 50 feet in length, have been seen within the last few days—some of them quite close to the shore. It is very unusual to see these sea monsters on our fishing grounds, though they are frequently seen on the Labrador and Newfoundland coasts.

KINDNESS REWARDED.—Captain Lawrence Gerrard, of the bark Magnolia, of Halifax, is to be presented with a gold watch "by Her Majesty's Government, in acknowledgment of his humanity and kindness to the shipwrecked crew of the brigantine Mistake, of Belfast, which was abandoned at sea on the 5th of September, 1883." Capt. Gerrard is expected in Halifax in a few days.

OUR FOOTBALL TEAM.—The team to represent the Abegweits at Picton, on the 25th inst., will be made up of the following players: Back—Alex. McDonald; Half-backs—George E. Robinson, Percy McDonald, A. E. Ings (Capt.); Quarter-backs—J. F. Whear, G. Rankin; Forwards—A. H. McNeill, C. Leigh, jr., F. W. Moore, A. A. McDonald, K. J. Martin, W. Matheson, R. H. McDonald, J. Ross, A. Harding.

DIPHTHERIA'S RAVAGES.—The St. John's Herald, Mercury says: A terrible record of mortality from diphtheria is before us to-day—the most alarming ever known in the colony or perhaps anywhere else. Thirty deaths from this fell disease in the short intervening space between the 29th April and the 9th of May.

It is stated that diphtheria, scarlet fever and other infectious diseases are very prevalent in various parts of Massachusetts.

CODFISHERS.—Arrived at Souris: The sch. Eldora, Capt. Cresar, of Lunenburg, is at Souris with 225 quintals codfish, caught at Cape North. The Energy, Capt. Madr, and the Pembina, Capt. Mysoner, of Lunenburg, also arrived there on Monday last, with 225 and 325 quintals fish, respectively. These schooners are after a new supply of bait, intending to return to the fishing grounds for more fish. There are about thirty sail still at the Cape and all are getting more or less fish.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. (April '88)

A BIG STEAL.—William B. Derby, cashier of the Mutual District Messenger Company, of Boston, has been arrested on the charge of embezzling ten thousand dollars from the Western Union Telegraph Company. The Messenger company does a large business for the Western Union, and Derby's practice was to raise the amount of monthly bills against the Western Union and pocket the difference between that and the correct amount. Derby is 35, and has been in the employ of the Mutual District Messenger Company about a dozen years. Experts on the case think the amount of his embezzlement will reach \$18,000.

EXPLANATION CONCERNING THE REPORT IN CIRCULATION ABOUT THE REMAINS OF THE LATE JAMES JOHNSTON, ESQ., OF ANNANDALE.

A report having been circulated that the body and casket of the late James Johnston, Esq., of Annandale had been taken from its last resting place at the Lower Montague Cemetery, and this report having been published in THE EXAMINER and Island Guardian, we, the undersigned, beg to contradict the report and state the facts as discovered by us this morning at the grave:

The friends of the deceased, having recently noticed that the grave had fallen in, dug out a portion of it, and finding the shell which contained the casket seemingly empty, came to the conclusion that the casket and body had been removed, hence the origin of the report as published.

Some of the friends learning from those who had opened the grave to what extent they had examined, and not being satisfied, to-day reopened the grave thoroughly, when it was discovered that the cover of the outer shell had given way under the pressure of earth, and, falling down, had crushed the casket beneath its weight, to the depth of 16 inches from the top of the outer shell, which led to the very natural conclusion, on the part of those who had previously examined, it that the shell was empty. On lifting off the broken cover of the shell, we discovered the broken casket and remains of the deceased beneath.

The discovery of this morning in regard to this matter affords great relief to the friends of the deceased and to the entire community.

## Concert at Souris.

The closing concert of the Souris Musical Convention came off on the evening of the 20th, and was a grand success. James McDonald, Esq., High Sheriff of the County, presided as chairman. The Court House was filled with a most attentive and appreciative audience. The singers, one and all, acquitted themselves admirably. A gentleman present, who has travelled, stated it was fully equal to anything of the kind he ever attended in the largest cities of Canada or the United States. When it is considered that only five sessions were held for practice on the choruses, the manner in which they were rendered speaks well for the future efforts of the class under their director, Mr. John T. Ferguson, of Charlottetown, who has consented to open another session in Souris early in the coming autumn.

The following is the programme:—  
Glee—"Home on the Prairie".....  
Solo—"Whip-poor-Will"..... Miss A. Dingwell

GOD SAVE THE QUEEN.

## Georgetown News Notes.

The refuse stone and rubbish still remain around the Court House since it was built, and a little wooden building stands near in strange contrast to the stone. Can't the powers that be wake up to the fact that things must be done decently and in order, and instead of degrading, do their part to elevate the aesthetic tastes of the community? A space near the Court House is neatly worked up and grass sown and a few trees planted; but there is no fence to keep cows and sheep off, and these animals tramp and lie around on this place, and have already broken trees. This shows lack of foresight. The attention of the Commissioner of Public Works is respectfully called to these evidences of neglect about this building. It should be put in decent shape immediately.

The boys of Georgetown School planted over fifty trees on arbor day, and the little girls, with their assistance, arranged a few flower beds around the school house.

The youth of this town enjoyed an excursion on the steamer Montague on a bright moonlight night last week. The Boys' Band furnished excellent music.

Mr. Artemas Mackinnon, of Uigg, after spending a few holidays at home since his return from McGill, called this morning on H.M.S. Guinaere, and will spend the summer as clerk with Capt. Maxwell.

AFTER THE GERMAN OF UHLAND.  
The Rosebud that thou sent'st me here  
Plucked by thy gentle hand, my dear,  
It lived scarce 'till the evening;  
The poor bud died for thee and died.  
Now flies its spirit swift and free,  
A little song, love, back to thee.

## News Notes.

North Sydney, C. B., rejoices in the possession of an excellent orchestra, in which C. F. Byrne is leader and first violinist.

New York has two cases of leprosy—one in a well-known family, isolated in a suburban villa; the other that of a young South American in the German hospital. Leprosy is not contagious in this climate.

Crop reports from all parts of Ontario, and in fact from all over the Dominion, are of the most encouraging character. Fall wheat never, it is said, looked better at this season of the year, and crops are coming up beautifully. The season is fully a fortnight or more in advance of the average of former years.

A Presbyterian church in Pittsburg has just secured a soprano from Chicago by offering her \$2,000 a year, which is \$500 more than she has been receiving. It is said that a few old fogies in the church wanted to dispense with a soprano and give the \$2,000 a year to the poor and the needy, but the idea was not entertained for a moment.

Chicago despatch: A scheme, rivaling in some respects the famous electric sugar refining swindle, was exposed here to-day. The perpetrator is a smooth-mannered young fellow named John Archibald Comp, now missing, and it is said that a good many thousand dollars belonging to various distillers and liquor dealers have disappeared with him. He pretended to possess a compound which would change poor whiskey into the finest of high wines. It was simply a trick.

A Chinese newspaper is responsible for this story; which, indeed, has nothing incredible about it.—One day a sow belonging to Mrs. Feng happened to knock down and slightly injure the front door of a Mrs. Wang. The latter at once proceeded to claim damages, which were refused, whereupon a fierce altercation ensued, which terminated in Mrs. Wang's threatening to take her own life. Mrs. Feng, upon hearing of this dreadful threat, resolved at once to take time by the forelock and steal a march upon her enemy by taking her own life and thus turn the tables upon her. She accordingly threw herself into the canal.

Advices from Washington say that the Department of State has received a letter from the joint committee of French and English Parliaments, extending an invitation to this government to take part in the International Parliamentary Conference of Arbitration, to be held in Paris June 29th and 30th next. The object of the conference is to improve international policy and more particularly to bring about between their nations and the republic of the United States the conclusion of treaties of arbitration of such a nature as to insure by amicable settlement any difficulties which may arise between them, the maintenance of their friendly relations.

It happens, says the Empire, that in the Salisbury administration the chiefs of those important branches of the Government, the Foreign, Colonial, and India Offices, are all members of the House of Lords. When the House of Commons is in committee of supply, and the estimates with reference to these departments are being considered, the Under Secretaries have their hands full. As one British paper puts it: "A Colonial or Foreign Under Secretary has to be a Pocket Gazetteer of the World, a compendium of contemporary history, a synopsis of public and foreign law, and an authority on a multitude of other questions, ranging from ethics to ethnology; otherwise he is certain to be cornered and trapped by some one or other of the lynx-eyed guardians of British interests or British prestige throughout the world, and to leap into notice when Supply is upon the table of the House of Commons. The chiefs who sit 'in another place,' do not escape altogether for the much wider hand of critics, the whole country will hold them responsible for the policy adopted, and the blame is sure to go to the proper place when deserved.

## DIED.

At Black Bush, April 1st, of diphtheria, John James, dearly beloved child of John and Flora McIsaac aged 10 years. The deceased was a bright intelligent boy, and was a general favourite with all. The bereaved parents have got the heartfelt sympathy of the entire neighborhood in their irreparable loss.
