

# Panthers take Mount A. to prepare for week's rest

**jock talk**  
**mickey place**

The sun certainly shone brightly at MacAdam Field last Saturday afternoon as the Panthers took on traditional football rival Mount Allison and won their first home game in quite some time posing a 26-15 triumph in pleasing fashion delighting not only student and local fans but also a large number of Alumni who were on hand for Homecoming Week. Rick Kiraly, rookie Panther Q.B. seemed to find the dry footing to his satisfaction and ran a great many plays on the ground & combined with Larry Gallant for several good gains. He completed only 4 forward passes.. but two were good for major scores! Touchdowns were scored by Terry Kennedy on a Kiraly pass, by

high scoring Socky MacDonald also on a Kiraly toss and by Rick himself when he carried the ball over from the 4 y ard line. The team rests this weekend (If practises under Ed Hilton & his coaching ' can be termed "Resting") and will play powerhouse but winless(and may their string increase.) Saint Francis Xavier here on the 16th. That will be one we'd really like to take.

In Field Hockey the Pantherettes played three since we last commented on their activities, winning two of the games. They beat out the Mount Allison Ladies by a close 1-0 score, Ann Marie Ryan scoring an overtime marker and they shut out the Moncton girls 2-0 with All Star Mary Bradley scoring both. Out string of successes ended at two, however, as U.N.B. trimmed us 3-1 on Sunday with Janet Ellis scoring our lone marker. No further action until the weekend of the 16th when we visit Mount A. & Moncton.

In Soccer we watched the U. de Moncton nose us out in a 2-1 game that could have gone either way with Ian Cameron booting in our lone goal. On Sunday a real good U.N.B. team beat us 5-1, Joie Lund scoring our one. The U.N.B. team was most adept and certainly knew how to us

use their heads...so much so we wondered how they avoid migraines as they continually knocked balls into position, using their noggin. We were told the trick is to hit the ball with your head, not let the ball hit your head. Quite a difference but, we think, hard to manage. Next action will see Mount A. here on Friday and we'll visit U.N.B on Sunday.

In Golf, our team played in the tournament in Halifax & finished third. The first round had to be cut at the ninth hole due to a torrential down-pour. for the 27 holes Dave Edgett had 42-81, Rick Heenan 44-84, John Dowling 44-86 & John Neville 39-99. There is no Mis-print in that last score. The Slasher was an early leader in a flood &, next day hacked out a duffer's score in clear weather! We would attribute this to a celebration if we didn't know that John doesn't even drink strong ginger ale! For that reason, we always like to sit next him when refreshments are being passed around.

We caught Jack Hynes this week as he was lining up at the Triacta winner's windows at the C.D.P and he tells us that the Hockey Panthers, after strenuous dryland work-outs, have finally hit the ice & will probably be using the campus freezer

by the time you read this. Spectators are quite welcome. There are 31 players striving for positions on the team. Ten are returning from last year's 7-9 club. There are several from Island points as well as those who played in Ontario and Quebec last year. We understand that there will probably be a couple of exhibition games with local teams before our heroes face their first inter-collegiate test in the Panther Booster Club tournament at the Forum end of this month. We get quite a kick out of seeing the Panther Basketball hopefuls doing their roadwork around the campus circumference. Colin MacAdam gets so far out in fron that it looks as though he doesn't want to appear to be associated with the rest...100 yards back Butch Postma is still well ahead of the group which trail him by 100 yards. Certainly our team will be in GOOD condition when they open here with a BIG game against S.M.U on 28 NOV. Hubert "Socky" MacDonald got the nod as UPEI's "Athelete of the Month" and received a plaque at MacDonald's Restaurant this week. Others nominated were Ian Cameron for Soccer and "Honey" MacIsaac for Field Hockey. A MacDonald gets MacDonald's prize?? No nepotism is suggested... we really think Socky deserved it!

## Student Services — what they do for you

Last week I heard someone remark that if the Student Union were to gain control of the new student emergency fund, then Student Services would only be responsible for providing I.D's. If you care to look into this a little farther however, you may be quite surprised by just how many services these people do provide.

If you have ever gone to the Manpower Office for a job or to the Health Centre with a cold you have been catered to by functions of Student Services. If you have attended any of the ecumenical programs or were ever a freshman who took part in the Orientation program, those opportunities were possible by Student Services. If you live in residence your proctors and head

residents are also provided by this group.

Student Services however provides much more than this. Career planning, help with course selection the reading lab, study habits development, personal problem assistance, scholarship and financial aid information, off campus housing, on campus housing, testing, overseas student organizations, information and providing I.D's are just some of the fields that Student Services can give you help in. In addition they provide a Personal Awareness Program, assistance to mature students, Grade 11 entrants, and Centennial Scholars, and are an advisor plus providing services for the University Day Care Centre.

Student Services is a response to all the needs of students in the non-academic

world. That does not exclude academics but it is the only department responsible for the personal development of the Student. It is an entity in itself in that needs can be met right there, and if they are unable to help they know where to find someone who will.

The offices of Student services can be found on the ground floor of Main building. In these offices you will find Jim Griffith, the director of Student Services. Jack Blanchard, director of student counselling, Marion Basha, Dean of Women, and Rev. Ron Evans and Father Brendan Magannety, Chaplains, will also be there to help you. they are usually to be found in their offices but they do also have a few off-campus functions. For sometime now they have been conductin High School visitations and

thus establishing an on-campus contact for in-coming students.

The important thing for the student is to take advantage of these many and varied services. If you don't go directly to the offices, go see Joyce Gallant at the Health Centre or Dave Dickey at the Manpower Office the next time you need the help they have to offer. If you live in residence go see your head resident or *don* when ever you have a problem. The members of the department of Student Services are here for your benefit, for you are the students.

To whom it may concern:  
There's a tonque trapper loose on campus!  
Henry makes funny phone calls!  
Percy looks great wet! (he's a natural drip!)
