DAILY CRYPTOQUOTE — Here's how to work it:
A Y D L B A A X E
I S L O N G F E L L O W
One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Simple letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation
Z O O F Z J L, D E W E W Z G W Q Z Y X G W
Z Q V D E W P X Z V Y W O X A N W—
J D W G W Q J X Q.

Yesterday's Cryptoquote: I AM THE MASTER OF MY FATE; I AM THE CAPTAIN OF MY SOUL—HENLEY.

of judgment, and the player who thinks he is making the right bid or play may sometimes, despite his good intentions, be guilty of an error of judgment which runs counter to the percentage.

People may argue whether South made the percentage bid in going to six after North had merely shown a preference for hearts as against spades. There was no way for South to know whether his partner had the queen of hearts, which was about all South needed to make a slam.

Faced with this guess situation South took the optimistic view and contracted for the slam. But when dummy came down, it became obvious he had judged the situation incorrectly and arrived at a bad slam contract.

But this did not prevent him from making the contract. He won the diamond lead and promptly played the king of hearts. When, luckily, it turned out East had been dealt the lone queen, only one trump trick was lost and the slam was made.

The king play was clearly correct. There was no chance to make the contract if the adverse hearts were divided 2-2, since two trump tricks would have to be lost regardless of which heart was led.

Only if the hearts were divided 3-1, with the one being a singleton queen, could the hand be made. The king play might there fore win the contract, but could not be the cause of losing it.

Blames West For Author's Woes

WINNIPEG (CP) — British essayist and poet Stephen Spender says the West is as much to blame as the Russians for the pressures brought to bear on Soviet author Boris Pasternak.

"We in the West have a lot of reproach ourselves with," he said in an interview Sunday. "This is a man we're dealing with, not merely a political symbol."

"His life has been made intolerable," said Mr. Spender of Pasternak, who won—but later rejected—this year's Nobel Prize for literature with his novel *Dr. Zhivago*.

He said the West should have shown more restraint in making a political issue out of the fact the book was less than rapturous about the Soviet Union.

Opening lead — ten of diamonds.

Bridge is a game of percentages. The player who steadily makes the best bid each time it is his turn to bid may be reckoned as a good bidder, and this is true even though the best bid will sometimes not produce the best result.

In the same way, the player who makes the best percentage play each time he plays a card will also wind up with the chips because, over a long period of time, the laws of probability are bound to run in his favor.

Of course, what is the percent age bid and what is the percent age play is frequently a matter
