

**NEW SCHOOL AT PARKDALE**

The M.F. Schurman Co. Ltd. building, which was started on July 20 contains eight rooms on the first floor and four in the basement. It is 159 feet long and 58 feet wide and is expected to be completed by Dec. 31. Mr. George Smith is foreman of construction. **GUARDIAN PHOTO**

**AMONG THE FARMERS**

Federation of Agriculture Newsletter

A previous newsletter stated that the deadline for applications for the Nuffield Foundation Scholarships was October 31. This was incorrect as November 30 is the correct date. This scholarship, which has already been won for eastern Canada by two young island farmers, is open for application to any young farmer who is interested in spending six months studying British agriculture. Interest in farm organizations and activities in community affairs are the main qualifications, successful applicants will be those who indicate the best qualifications for profiting from the experience and appear likely to make a contribution upon their return.

**EXPOSED CATTLE**

Recently in the press concern has been expressed in various quarters upon the fact that farm animals are at times confined to bare pastures lacking in water supply. Concern was also expressed that cattle were left out in the fall on frosty nights and the suggestion made that this was an unnecessary hardship. In the first instance there will be general agreement that cattle which do not have feed and water are being neglected and do suffer. So far as cold is concerned there will not be the same agreement as there is good reason to believe that cattle do not mind cold and will in fact be healthier and do better outside than when confined to a warm, poorly ventilated stable.

Our own experience with dairy heifers running at large during the winter is that they will spend a small part of their time in their shelter and can often be found by preference lying out on frosty nights or staying out during the day in a snowstorm. These same animals have been extremely healthy and have developed more rapidly when turned to pasture than their fellows which were confined to stables.

Cattle will, in the fall of the year grow a very heavy coat

and this serves to protect them against the weather, it is possible that perhaps the best reason for keeping milk cows in a warm stable is the fact that those working with them prefer a warm place. For young cattle a shelter from the wind and a roof over head is about all that is required for our winter months.

**POTATOES IN JAMAICA**  
The Canadian Foreign Trade Service in Kingston, Jamaica reports that another record crop of potatoes has been harvested by Jamaican farmers using "Sebago" seed stock from Canada. The Canadian seed gave an average yield of at least nine to one and might be as much as ten to one. Before last year, the yield varied around six to one.

Plans are being made to import 13,000 cases of "Sebago" seeds from Canada next year and 3,000 cases of "Aaron Consul" from Scotland. As the local crop does not meet the island's total requirements, 1,200 tons of table potatoes will be allowed in from all countries when domestic stocks are used up in November.

**U.S. SURPLUS DISPOSAL**  
U.S. Secretary of Agriculture Benson has announced that surplus commodities total \$2.2 billion have been signed for export sale of surplus U.S. agricultural commodities under Title 1 of P. L. 480, the Agricultural Trade Development and Assistance Act of 1954. This represents an increase of about \$1 billion since March of this year. This law provides for sale of commodities to friendly foreign countries for their currencies, thereby helping meet convertibility and dollar shortage problems and facilitate export of farm surpluses.

"This program has been extremely effective both in reducing our accumulated surpluses of agricultural commodities and in expanding markets abroad for such commodities," Secretary Benson said. "The program was set up by Congress for three years ending June 30, 1957. Total amount authorized was increased by Congress to \$3 billion in July of this year. It is expected that the full amount of this authorization will have been committed prior to the end of this fiscal year." Secretary Benson stated a total of 69 agreements have been entered into with 30 countries.

**FARM FORUM MEETINGS**  
Farm Forum meetings get underway tonight at Tignish where representatives from surrounding districts will meet to plan the setting up of study clubs under the Farm Forum program. Next week similar meetings will take place at Kensington on Tuesday night at Vernon River on Wednesday night and at Heatherdale on the sixteenth. On the nineteenth Souris will be host to Farm Forum representatives and a really ambitious rally is being planned for Egmont Bay on Tuesday, November 20. These courses will attempt to outline the why, how and what of Farm Forum specifically and adult education in general.

**MIND FOR PLAY**  
We may be wrong in this belief but we have gained the impression that many of the original settlers in this province were not inclined to look with favour upon people enjoying themselves and went to considerable trouble to unpress upon their families that work was the chief end of man and that play if taken at all should be in minute doses. It would appear that there has been little if anything done in the way of a planned approach to the question of recreation for rural people in the rural community.

We feel that there is a real need in this province for the provision of people skilled in training and organizing group recreation or to put it more plainly for teaching rural people how to enjoy themselves. Country dances are a case in point, in many instances they are commercialized and the same dances are done over and over again without callers and with little effort being made to improve the quality of the dancing.

With the hundreds of different square dances available and with the natural love which the most of our young people have for this type of enjoyment persons skilled in recreation could provide encouragement and direction which would be very welcome in this province. It may be difficult to teach all the farmers how to be prosperous but we do feel that a great many of them may in the absence of prosperity at least be taught how to enjoy themselves.

JOHN H. MORRIS

**NEW FIRM**

The appointment of John H. Morris as manager and secretary of the newly formed firm of J. C. Sainte and Co. Ltd., general insurance, was announced by the President, Mr. J. C. Sainte. The former agency, managed by Mr. Sainte for over 26 years, will now transfer its business and accounts to the new firm with head office in Charlottetown.

The appointment of Mrs. Charlotte MacEachern as stenographer was announced. inches while the long term average is better than 4 inches. It is interesting to note that from January to October 31 that the total rainfall is almost an inch above normal for the ten months. In sunlight, October provided 172 hours, highest since 1949 in October last year the hours of sunlight were 112 and the 47 year average being 132. The really important part of these figures is that we have had less than 1/2 of the normal rainfall for the past three months.

**CANADA ACTS FOR AUSSIES**  
—Canada will act as protecting power for Australian interests in Egypt following the severance of diplomatic relations with Egypt, the government announced Thursday.

**CHURCHILL BACK**  
LONDON (AP) — Sir Winston Churchill took his usual place in the House of Commons Thursday. The 81-year-old former prime minister has been suffering from cold but he looked fully recovered.

**McCulloch Saw-Draw Contest**

A new contest in which 150 McCulloch chain saws will be given away free is announced by Keith Carmichael, McCulloch dealer in this area, whose store is located on Brackley Point Road.

The contest — called the Saw-Draw — will be open to all persons over 18 years of age, and will last from November until February. To enter the Saw-Draw, a contestant need only secure an official entry blank from the local McCulloch dealer, fill it out, and mail it to McCulloch's home office. Six drawings will be held at two-week intervals, and 25 D-44 chain saws will be awarded each time. For each drawing period, a contestant may submit one entry blank, which must be received in Los Angeles at least a day prior to the drawing date. Drawings will be held on Nov. 30, Dec. 14 and Dec. 28, 1956; Jan. 11, Jan. 25 and Feb. 8, 1957.

Each winner will be awarded a D-44, the lightest and most powerful direct-drive chain saw on the market. "This brand new power tool is so powerful and well-balanced that it seems to feed itself right into the wood," the dealer said. "In fact, we call it the saw with the light touch because it requires so little effort by the operator."

It is not necessary to purchase a saw to enter the Saw-Draw, the dealer emphasized. But if a contestant has brought a new McCulloch chain saw prior to his name's being drawn, he will be awarded three times the advertised list price of the saw he purchased.

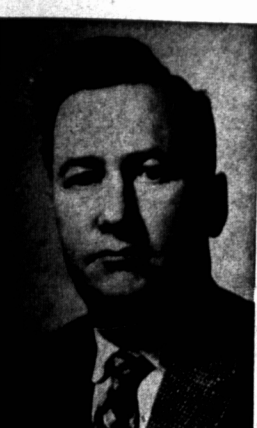

The Saw-Draw is not open to persons who live in areas in which such contests are taxed or prohibited, nor is it open to McCulloch employees, distributors, dealers or their families. Winners' names will be posted in McCulloch dealers' stores about two weeks after each drawing.

**Mary Millar E. A. Has Enjoyable Evening**

The November meeting of the Mary Miller Evening Auxiliary of the Trinity United Church was held on Monday evening, November 5, in the Social Hall, where a delicious Pot Luck Supper was enjoyed by the members and their guests.

Following the supper, Mrs. P.A. Creelman, assisted by Mrs. Walter MacFarlane, led the worship service. Mrs. Creelman gave a most interesting study on excerpts from the book of Ecclesiastes. Then, after a short summary of the geographical aspects of Korea, and the interests of her people, Mrs. Creelman showed a Korean water color painting and played recordings of Korean folk songs.

The president, Mrs. Keith Kennedy, then conducted a short business period. The meeting closed with the Mizpah benediction.

THORLEY BOURKE

**JEWELLERS MEET**

Thorley Bourke of Charlottetown was elected President of the Association at the annual meeting held in the Summerlea Restaurant Summerside, Wednesday evening. The following officers were appointed: vice-president, George Clarke, Summerside; treasurer, Miss Helen Mills, Summerside; secretary, Mrs. Bert Patterson, Charlottetown.

The meeting opened with one minute's silence in memory of the late Norma Leach of the Canadian Jewellers Association. Mrs. Anne Bradshaw and Mr. Thorley Bourke gave very interesting and comprehensive reports on the recent Jewellers Conventions held in Saint John, Halifax and Toronto.

The programme for the forthcoming year was discussed and plans made for the spring meeting.

**"Y" AUXILIARY**

The November meeting of the Ladies Auxiliary of the Y.M.C.A. was held on Tuesday afternoon, November 6. The president, Mrs. N. Irvine was in the chair. Eleven members answered the roll call. After the minutes of the last meeting were approved, various committees gave reports.

It was voted that the new double sink was in place in the kitchen, that newly purchased linens had been made up into tablecloths and tea towels, it was decided to cater to a Maritime Convention in December.

One new member, Mrs. George Hooper and Mrs. Wm. Rix who had been absent on account of illness, were heartily welcomed. The meeting closed with the Mizpah benediction after workers were secured for the week's supper.

**About The Trappist Fathers' Remedies**

Toward the close of 1947 Mr. Raymond Hebert of Barachois, N.B., let it be known that he meant to sell his Patent Rights on the Laborer's Own Remedy, a medicine of his own invention which he had been producing for more than forty years. The Trappist Fathers of Rogersville considered the possibility of buying the patent and studied to know what returns they could expect from making and selling a remedy that was already well known in several provinces of Canada.

The purchase was made the following January, and, far from letting up, the sales of the Laborer's Own Remedy greatly increased, to the joy of the buyers. The Fathers were careful to keep the original presentation of the medicine, and to this very day may be seen on the bottle Mr. Raymond Hebert's picture.

The Trappist Fathers were not slow to see that in producing medicines of quality they could at the same time render valuable services to the world at large without abandoning their monastic calm, and win a livelihood which though modest indeed, would yet help them to make ends meet.

Even before the acquisition of Laborer's Own Remedy, the Fathers had taken out a patent on a saline specially recommended for eczema, of which they had received the recipe from abroad. Then with the help of a friend of the Community who was a doctor one of the Fathers worked out an ingenious set of ingredients into an excellent tonic which they called La Trappe Tonic.

In view of the results obtained by the liniment, the saline and the tonic, the Fathers were advised by friends to consider whether it would be opportune to offer a cough syrup to the public as well. Aided again by the advice of the friendly physician, the Father in charge of the medicines, after much research, was able to present for a sale a cough remedy which was called Des Moines Syrup. But as the recipe was rather potent, it was found advisable to make a special preparation of it just for children. In that way there was a Des Moines Syrup for Adults and a Des Moines Syrup for Children. The latter, by the way, is effective as well for larger as for smaller children.

Over many years, thanks to some well-placed advertising in newspapers and on the radio, the

**YORK**

Mr. and Mrs. Lloyd Vessey, York, had as their guests on Sunday, Mr. and Mrs. Kent Jones and Mrs. J. C. Wood, Hazelbrook.

Mr. Herbert Vessey, York, was the guest of Mrs. Garham Cooke, Charlottetown, over the weekend.

Mr. and Mrs. Edison Hardy and family, which has taken up residence in Halifax, where Mr. Hardy is employed.

Mrs. Leith Brown, York, spent Tuesday in Charlottetown.

Mr. Harry Lewis has taken over Hardy's Store in York for the season.

remedies of the Trappist Fathers of Rogersville have been in vogue throughout Canada. Among their orders received there are some from every province, from British Columbia to Newfoundland.

Let us make haste to say that the pharmacy has just been reorganized from top to bottom. Aside from Laborer's Own Remedy, all the remedies will henceforth bear the name Monacod.

And so, from now on the Trappist Fathers' remedies will often be advertised in the papers, and from time to time on the radio. They will be featured in drug-store displays or in country stores, but above all, and even more than in the past, they will come to swell the family medicine chest in each and every home.

May this little industry increase and prosper for the common good of Canada!

**Friday, Nov. 9, 1956**

on. His many friends wish him success in his new undertaking.

Mr. Frank Watts, York, attended the funeral of the late Rev. W. V. MacDonald, Corran Ban.

Mr. and Mrs. Roy Enman and Mr. Preston Enman, Vernon River, spent Sunday in York.
