King's Filly Loses Out At Ascot Meet

ASCOT, England, June 13—(CP Reuters)—The Duke and Duchess of Gloucester, the Duke and Duchess of Kent and the Princess Royal were present at Ascot today in dull, cool weather and without the traditional royal procession.

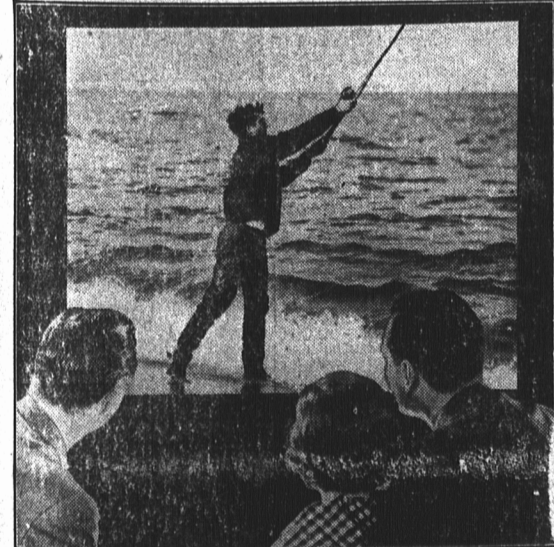

The large and fashionable crowd was disappointed, financially and sentimentally, when the King's filly, Queen Mary, failed to win the Queen Mary Stakes, in which she started as the 3 to 1 favorite, the winner being Lord Lonsdale's Snowberry, starting at 4 to 1 and ridden by George Richards.

Robert Lazard's French colt, McConn, proved his reputation as the best miler in France by winning easily in the Queen Anne Stakes, starting at odds of 9 to 4. The French-trained and American-bred Time Step, owned by J. H. Whitney and considered one of the best sprinters in England, was unplaced, starting at 1 to 10. Time Step, owned by John Westall, easily won the premier race of the day, the Ascot Stakes, for the second successive year with Travn, and his jockey, Bob Smith, completed a double when Sir John Jarvis' Admiral's Walk, the only favorite of the day, won the St. James' Palace Stakes. Admiral's Walk started at 6 to 5.

PERHAPS PROTESTS BROUGHT DOWN TAX

(By The Canadian Press) LONDON.—Profrisco J. H. Priestley threatened to quit the theatre in a speech at the Stratford-on-Avon Shakespeare's Birthday Luncheon. He held the theatre's chief executive was the government, who "tax us on our lives." Then on Tuesday day Sir John Simon announced the tax on legitimate theatre tickets would be reduced one penny, saving the entertainment industry about \$950,000 annually.

The SNAPSHOT GUILD PICTURES IN COLOR

You can now make full-color transparencies with some inexpensive miniature cameras—and project them in large size on a home screen, bringing out all the beauty and richness of a colorful subject.

In the past few years, many thousands of amateur camera hobbyists have started taking pictures in full color. This spring and summer, thousands more will take up this fascinating form of photography, using full-color films. It is hard for some of us, who are used to black-and-white snapshots, to imagine taking a picture in full color as easily as in black-and-white. Yet these color films enable us to do just that. Moreover, the pictures are not prints on paper but film transparencies, ideal for viewing color at its best. With simple projection equipment, these transparencies can be shown on a home screen magnified to almost any desired size. Thousands of such color pictures are being shown this year at the New York World's Fair—projected on enormous screens so that each picture is enlarged approximately 50,000 times. Until one sees such a exhibition, it is impossible to realize how much the presence of color can add to photography. Relatively few of the subjects we choose for pictures are lacking in color. Count them over—children, flowers, scenes about the home, landscapes, picnics, and sports events, water scenes, sunsets, and the like. Study such subjects, and you begin to understand how much more life and realism they retain when pictured in full color. Miniature cameras are used for taking these full-color pictures. Until recently, inexpensive cameras of this type were not made, but now they are available at prices as low as \$16, and suitable for taking pictures in black-and-white as well as in color. Full-color picture taking will spread greatly in the next few years, and wide-awake hobbyists will plan now to take full advantage of this amazing development. John van Gulder

Simmerings Around The Sport Front

(By Alan Randall, Canadian Press Staff Writer)

NEW YORK, June 13—Little was admitted to the racetrack ball of fire who is supposed to be headed for retirement, is the "mystery horse" of Long Island. Samuel Riddle's racer still is at Belmont Park and clockers report he is being galloped regularly, appears to be in perfect condition and is playful as a kitten. It also is understood that owner Riddle has paid all entrance fees for the Saratoga Cup at Saratoga in August. So perhaps the Admiral isn't going out to Kentucky to munch the O'Grass with his pappy, Man O'War, after all.

As a means of promoting friendly relations with the United States, the Japan board of tourist industry is considering taking 20 outstanding American athletes to Tokyo this summer. The majority probably will be trackmen and swimmers. Nat Fleischer, editor of the "Ring" magazine presented awards to Joe Louis and Henry Armstrong today. Louis got the magazine's merit award as 1938's outstanding boxer. Armstrong received a welterweight championship belt and another for being the first simultaneous triple crown wearer.

Ty Cobb figures the lively ball has spotted the value of the single run in baseball. Cobb's great love now is for golf. The golf bug bit him after it got Babe Ruth. Joe Louis' coming unpleasantness with Tony Galento will set a record for this century. No other champion since 1900 has defended the heavyweight crown more than six times. This is no. 7 for Joe.

Jeff Dickson, Paris promoter, relates that today over three draws \$3,500 nightly which is enough for a tidy profit for promoters. Marcel Thil, one-time French middleweight champion, has returned from the rink. To a man Brooklyn Dodgers were kicked when Tony Lazzeri caught on with Toronto Maple Leafs. During his brief term with the Brooklyn Lazzeri was a prime favorite with every member of the team.

Mike Jacobs says he has filled orders for \$125,000 of Galento-Louis tickets. Galento took the day off from training today to go fishing. Joe Louis' coming unpleasantness with Tony Galento last night, will fight again on Monday night. Jimmie Vaughan of Cleveland.

BUSINESS MAN'S SPARE-TIME ATTEMPT TO BEAT EYSTON'S 'THUNDERBOLT'

BYFLEET, Surrey, England, June 13—While thousands gaze daily at the fastest car on earth, Captain George Eyston's "Thunderbolt" in the British Pavilion at New York World's Fair, a challenge is being secretly prepared by a fellow-Briton in a small engineering shop at Byfleet, in the quiet, county-side of the South of England. It is the car with which John Cobb, London fur-broker and racing motorist in his spare time, will challenge the 37.5 miles per hour world record set up by Eyston in September, 1938, just 24 hours after Cobb, the first man to exceed 350 m. p. h., had beaten the previous record.

Cobb told a reporter that he believes British engineers will ultimately build a car which will enable men to travel seven miles a minute, 420 miles an hour, the equivalent of the distance between London and Edinburgh, in 56 minutes. The car he will take to Bonneville Salt Flats, Utah, U. S. A., next August, will be a David to Eyston's Goliath. It will weigh only three tons against the 1-2 tons of "Thunderbolt." Many believe this makes a car dangerous to handle, but Cobb thinks that it is a small, lightweight car which will break the world's record. The basic principle of Cobb's challenger is a twisted single-backbone chassis with two Napier Lion engines slung back-to-back and axials, one engine driving the front axle, the other the rear axle. A 2,500 horsepower car, it is being "tuned" to develop an extra 300 h. p. and with this under its bonnet Cobb, 39-years-old bachelor and genial giant of six feet two inches, expects to streak over the Salt Flats at 380 m. p. h.

LUMBER-OPERATOR ARRESTED

AMHERST, N. S., June 13—Miner Gilbert, 72-year-old lumber operator of Canaan, N. S., was arrested today on the charge of setting fire to lumber he owned with intent to defraud the Nova Scotia Fire Underwriters. He is alleged to have set fire to his pile of lumber at Amherst, N. S., last night. The pile was destroyed.

Graham Puts Heavy Title On Block In 10-round Engagement With Leslie

(By Alan Randall, Canadian Press Staff Writer)

Fit and ready and confident of once more regaining the Island heavyweight boxing crown Big George Leslie of Souris tonight tackled champion George Graham of Murray Harbor in the main event of the Sporting Club's big boxing show.

Expecting to tip the scales in the vicinity of 205 lbs, the big Souris battler after keeping in shape all winter by gymnastium and glove work is more than confident of turning the tables on the man who took the title away from him and then successfully defended it against him. Those two defeats still rankle in Leslie's mind and the former champ can be expected to go out there tonight and elicit punches from every angle right from the opening song. As for Graham, the titleholder, George is still champion and expects to be aiter tonight's fray. He rates Leslie highly and capable of giving him a tough battle but believes his superior hitting prowess plus his ability to withstand the punishment that Leslie will hand out has the fans giving him the edge in what should be a real slugfest.

In fact the entire card should be just that. Coming together in the semi-final is two rural boys in the persons of Danie Mullins of St. Peters and Jim Mooney of Peakes. Both ring warriors do not know how to take a backward step and this scrap will be a battle royal all the way. It is scheduled for ten rounds also but many of the fans expect it to end long before this Bomber Sheppard rapidly becoming a local favorite tangles with Danie McLeod in a preliminary in what is expected to be another bruising battle while completing the all-star array is the six round meeting between Mark Kid Clabourne and Young McEachern of Morrell.

All-star cast with an all-star rating.

Ray McIntyre Wins Over Wadsworth

SAINT JOHN, N. B., June 13—Ray McIntyre, Saint John colored middleweight, earned an unanimous decision over Len Wadsworth of Hamilton, Ont., middleweight champion of Canada, in their 10-round bout heading for a fight card here tonight. As both men weighed in over the limit, McIntyre 161 and Wadsworth 164, the bout could not be classed as a title affair.

Over the full route there was only one knockdown, when McIntyre sent Wadsworth to the canvas in the seventh with a right and left smash that left him groggy. But the durable Wadsworth was not to be knocked out. He came back and held on until the bout ended. In the semi-final "Chick" Richards of Wakefield, Mass., weighing 150, took a judges' decision over Cecil Braithwaite, 158. Saint John in a fight which outshone the main bout by a wide margin. Richards was given the nod due to his aggressiveness and infighting.

THE FUR INDUSTRY

Fur farming now plays an important part in the fur trade of Canada, supplying approximately 40 per cent of the total raw fur production, says "Canada's Weekly." Practically all the silver fox pelts come from fur farms, and probably a third of the mink pelts also. An all-star cast with an all-star rating.

JAPS' FLOUR BAGS IN CHINESE PANTS

(By The Canadian Press) MELBOURNE, June 13—Japan may not know it, but for months she has been helping to provide the Chinese with flour. Many of Australia's empty flour bags come from Japan and when they are filled some go to China. Empty, they are made by the Chinese into pants, and the fact that "Best Australian" is stenciled boldly across the seats is a minor detail for the wearers. It is estimated that a consignment for Tientsin this month will clothe, at least partially, 432,750 Chinese.

SEALED 15 DAYS HOLY MAN LIVES

B'HAR, India, June 13—(CP)—A Hindu holy man on the banks of the Gandak River decided to meditate on austerly for 15 days. He had an underground cell of bricks and cement built and entered it. There he remained 20 weeks without food and water. Thousands of villagers collected around and stayed until the end of his meditation. At an hour appointed by him 15 days later, the cell was broken and the holy man crept out, pale and emaciated but with a faint smile on his lips. Fifteen thousand villagers greeted him.

Churchwardens were no FAD!

Why did our forefathers smoke long pipes, and why don't we? Old prints show Sir Walter Raleigh smoking a pipe six feet long, and men in "tobagies" (smoking taverns) with pipes like those which later became known as "churchwardens."

Long stems helped to cool and take the "bite" out of tobacco which, in the early days, was unscientifically cultivated and poorly cured. But it would be pretty awkward to smoke a churchwarden while driving a car! And, happily, we don't need to. The tobacco industry has spent millions to develop pedigreed seed and to improve methods of growing and harvesting—all to assist Nature to produce better leaf. And it has spent millions more on warehouses in which to store thousands of tons for three or four years of aging. So our pipe tobaccos are mild, cool and fragrant.

So, too, with cigarettes... At first they were made only from expensive Turkish or Egyptian tobacco. Now the industry knows how to grow, cure and blend many varieties so that they are delightfully mild and, when rolled in cigarettes, are priced within everyone's reach... More people enjoy smoking today because the tobacco industry has made smoking more enjoyable.
