

Picks Top Screen Stars For The Year

NEW YORK (AP)—The movie trade magazine Film Daily Tuesday night named Anna Magnani and Yul Brynner the screen's top stars of 1956.

Miss Magnani was cited for her role in *The Rose Tattoo* and Brynner for recreating his Broadway stage role in the film version of *The King and I*.

Runner-up in the best actor voting was Frank Sinatra (*The Man with the Old Arm*). The second best actress accolade went to Susan Hayward (*I'll Cry Tomorrow*).

Leaders in other categories: Best screen play: *Giant*. Director of the year: George Stevens (*Giant*). Best photographed picture of year: *War and Peace*. Best supporting actor: Anthony Perkins (*Friendly Persuasion*). Best supporting actress: Rosalind Russell (*Picnic*). Leading juvenile actress: Patty McCormack (*The Bad Seed*). Best juvenile actor: Richard Eyer (*Friendly Persuasion*).

mice were given to the same inoculated mouse.

About 10 per cent of the time, the graft took, and lived. By nature's law, the grafts should not have "taken" at all.

The pre-inoculation of the skin extract had done something to suppress, prevent, or paralyze the normal reaction which would have led to rejection of the skin trans-

Indian Foreign Policy Swings Slightly Towards The U. S.

BY ADRIENNE FARRELL
NEW DELHI (Reuters)—Events in Egypt and Hungary have provoked some reappraisal of India's foreign policy.

There is not likely to be any change in the basic stand of Prime Minister Nehru, who believes that India should keep clear of alignments with the major power blocs. Nor will there be any rupture with the Commonwealth.

But observers here have noted the start of what may be a major reorientation in India's outlook—a tendency to seek future co-operation with the United States and Communist China as the "moderating influences" instead of Britain and the Soviet Union.

As far as India is concerned, the United States and China now are the "good boys" of the international scene, although she has her differences with both—the United States over military pacts, and with China over indications that the Chinese may be trying to extend their influence with India's neighbor Nepal.

U.S. TALKS

But the stress laid here on the importance of Nehru's talks here with Chou En-lai, the Chinese premier, and in Washington with President Eisenhower, indicates that India may seek to work more closely with both these countries in future.

The crises in Egypt and Hun-

C.G.I.T. Vesper Service Held At Freetown

Candle lighting services have a special appeal to young and old alike, and one of the favorites is the C.G.I.T. Christmas vesper service held by C.G.I.T. groups from New Foundland to British Columbia.

Freetown Christmas vesper service always brings out a large congregation for it is the closing exercise of their graduation exercises. Acting as leader for the service, Sheila Simmons, president of the Kings Daughters C.G.I.T. group, ably conducted the worship, assisted by members of both senior and intermediate groups, in the reading of prayers and Scripture. Nora Seales led the candle lighting service assisted by Wilda Reeves, Claudia Drummond and Norma Stetson. The story was read by Miss Audrey MacEachern, who also sang "O Come All Ye Faithful" as a special number.

The choir of C.G.I.T. members sang as their anthem "While Shepherds Watched Their Flocks". Following the candle lighting service, Mrs. R.L. Cairns, leader of the Senior Group in her address to graduates Mary C. Rogers and Verden Reeves stated:

"If your C.G.I.T. experience has been worthwhile it will bear its fruit as the days go by and will result in greater understanding, more faithful living, and a fuller commitment to be 'The girls God would have you be'.

"Here as you gaze at the past and look toward the future, I charge you to keep before you the purpose which has been your guide over the past five years. Remember - what lies ahead - with your hand in the hand of God, you cannot fail."

S'ide Legion Group Visits Two Orphanages, Sanatorium

The children of St. Vincent's and Mt. Herbert Orphanages were visited on Sunday afternoon by Santa Claus who was accompanied by representatives of the Summerside branch of the Legion and committee chairman Lester Jenkins were the representatives of the Legion and Jolly old St. Nicholas was ably represented by Henry Bernard.

Christmas dinners for relatives of deceased veterans and also for needy veterans and their families, another Legion project, were distributed by members of the branch and as a result a large number of families who would otherwise not be able to provide a Christmas dinner were able to enjoy a wonderful repast.

Christmas Reported Brighter For Many At Arctic Outposts

BY DON PEACOCK
OTTAWA (CP)—All across the snow-locked wastes of Canada's far northland the winter-long Christmas was brightened Monday night by little groups making last-minute preparations for Christmas.

At lonely weather stations, at isolated RCMP outposts scattered across the Arctic areas, spirits were a little brighter—and at one station, at least, so were the lights—as whites and Eskimos alike joined in their own style of Yuletide festivities.

At this time of year, there is scarcely any daylight in the far northern areas. Despite the almost perpetual darkness, the RCMP has completed its annual Christmas airlift, delivering special mail, turkeys, other food, emergency equipment and even Christmas trees in those areas beyond the treeline.

The transport department had worked earlier from some of its weather stations spread across the north as to what they'll be doing on Christmas. For the Mounties it would mean a special Christmas dinner for their Eskimo companions in most of the lonely posts.

From R. J. MacDonald at Cape Hope's advance weather station in Northern Quebec, the transport department had worked out what they would spend decorating a fir tree. For Christmas Day a dinner of roast turkey was planned. There would be games for the children and dog team races and target shooting competitions for the natives.

TO SHOW PLANS

Similar plans were reported from other weather stations. At Nottingham Island, N. W. T., a moving picture was to be shown in addition to other activities and treats received by the RCAF air

It May Be Possible To Keep Alive Grafts From Other Body

BY ALTON BLAKESLEE
KANSAS CITY (AP)—Scientists here have made significant progress toward the goal of some day giving you new glands, skin, a kidney or a heart to replace your own old, sick and missing organs.

They have partially repealed a law of nature which stands in the way.

They succeeded in making skin grafts "take" and live in mice of a different strain. The secret was to give mice an injection of ground-up skin before the skin graft was made.

This feat could provide a key to future transplanting of skin and other organs between humans to save and extend lives.

TISSUE DESTROYED

Nature's law right now prevents transplanting skin or kidneys or other organs from one person to another. For some reason, your body will set up a reaction to destroy the borrowed tissue.

You can transplant skin from one part of your own body to another successfully. And skin from an identical twin will survive on his twin's body. But skin from any other person lives only temporarily, then it dies.

The same thing happens ultimately to a kidney taken from another person, unless he's your identical twin.

Transplants of bones and arteries work well when taken from someone else, even after being frozen or dried and stored in a "bank." But these grafts don't stay alive or come to life in your body. They serve as a scaffold or bridge for new growth of your own bone or artery tissue.

The cornea or window of the eye can often restore sight to the blind. But the cornea is not tissue which is served by circulating blood.

MAJOR STUDY

The great medical goal is to learn why living bodies destroy living tissue borrowed from someone else. If that problem can be solved, then many of us need not die from an ailing kidney, sickened heart, worn-out glands, or burns that had destroyed great areas of skin. We might some day even receive new arms or legs.

The supply of borrowed parts could come from healthy persons killed in accidents, or dying of ailments that didn't involve the organs someone else needed.

Many brilliant scientists are trying to solve this problem, and they have turned up numerous clues. A scientific team here at the University of Kansas medical school succeeded in making skin transplants live for more than a year so far even though the borrowed skin came from mice of a different genetic strain. A year is half to a third the normal life span of the mouse.

Adult mice were first inoculated with an extract of skin from a donor mouse. Later, full transplants of skin from the same donor

Starts 50-Mile Swim In River

MONTREAL (CP)—A 36-year-old Frenchman, clad in warm underclothing and a rubber frogman's suit, plunged into the icy Lawrence River Tuesday in a bid to swim the 5 miles downriver to Sorel, Que.

Louis Lournais, who works as a frogman on the St. Lawrence Seaway project, entered the water at 2:30 p.m. EST.

Three hours later he was reported swimming strongly past Varennes, Que., 15 miles downriver, with a strong current behind him.

Lournais, who lives here with his wife, Lillian, told reporters he was making the swim in the hope of arousing interest in underwater exploration and photography.

Lournais, who made a 12-mile river swim Sunday, said he expected to remain in the water between 10 and 11 hours.

He said the icy water did not affect him, he said, although it is "so cold only the current prevents the river from freezing."

The temperature at Montreal when he entered the water was about 30 degrees above zero. It was expected to drop to 20 tonight.

PLANE CRASHES SAFELY

BOMBAY (AP)—A commercial airliner and a small private plane collided over Bombay Tuesday. The small plane crashed into the sea, killing its two occupants, but the airliner landed safely. None of

COST GOING UP Canadian Defence Effort Was In Materiel, Not Men

By DAVE MCINTOSH
Canadian Press Staff Writer
OTTAWA (CP)—Canada's main defence effort in 1956 was concentrated in the factory and the research laboratory.

Factories poured out a stream of new weapons while in the laboratories the search continued for even more modern ones.

It was still too early to determine the effect of development of new weapons on Canada's armed forces, but the defence department evidently hoped the chief result would be more firepower per serviceman and thus fewer manpower needs.

At year's end, External Affairs Minister Pearson, back from the annual meeting of the North Atlantic council in Paris, said acquisition of tactical atomic weapons for Canada's forces in NATO is under consideration.

COSTS REMAIN HIGH

At the same time, Defence Minister Campney warned that defence is not going to become suddenly cheaper. The cost would continue to be heavy through the foreseeable future. The 1956-57 defence budget is 1,775,000,000, exactly the same amount as in the previous fiscal year. Indications are that the 1957-58 budget will be only slightly less.

There was little change in the composition of Canada's armed forces in 1956. Total strength remained relatively stable at 117,000. Canada continued to maintain a 6,000-man infantry brigade and a 300-plane air division in Europe.

One RCAF transport squadron was sent to Italy to ferry United Nations troops from there to Egypt and several hundred Canadian soldiers formed the UN head-

Mr. and Mrs. Arthur Harris in O'Leary.

O'LEARY

Sincere sympathy is being extended to the family of the late Mrs. James Livingstone, whose death occurred at her home in Glenwood on Dec. 20th.

Mr. and Mrs. Melvin Bagle, O'Leary, have gone to the United States where they will spend Christmas with relatives.

Mr. and Mrs. Harry Adams and Mr. and Mrs. Reggie Adams of Summerside were visitors to Alberton recently guests of Mr. and Mrs. Gordon Hardy and Miss Lucy Hardy.

Mr. and Mrs. Alfred Palmer and family accompanied by Mrs. John Morehead, O'Leary, motored to Charlottetown on Wednesday.

Mr. and Mrs. Raeford MacLean, O'Leary, spent Sunday with the latter's parents Mr. and Mrs. Garnet MacLean in New London recently.

The O'Leary school closed on Friday afternoon for the Christmas holidays. Santa was there with gifts for the pupils, and all had a very good time.

Mt. Royal school held their closing exercises on Friday afternoon. Poor Old Santa Claus had a hard time to make the regular call there as his schedule got mixed up, but finally he arrived with bells on.

Mr. and Mrs. Peter Rogers of Glenarry, were visitors to the home of their son-in-law and daughter Mr. and Mrs. Jackie Arsenault in O'Leary recently.

Mr. and Mrs. George Ellis of Springfield West were recent visitors to the home of their son-in-law and daughter Mr. and Mrs. George Wood in West Cape.

Mr. and Mrs. Cecil Wood and daughter Lana of Burton were visitors to the home of their son-in-law and daughter Mr. and Mrs. Percy Senter in O'Leary.

Mr. and Mrs. Alfred Palmer, O'Leary, motored to Kensington on Friday and were the guests of their brother and sister-in-law Mr. and Mrs. Harold Palmer.

Mr. and Mrs. Douglas Adams, O'Leary, accompanied by Mrs. Harry Adams of Knutsford motored to Summerside on Thursday.

Mr. and Mrs. Russell Leard of Casumpec, left recently for New York, where they will spend some time with their son and daughter-in-law Rev. Earle and Mrs. Leard and family.

The many friends of Mr. Lorne Johnson are glad to see him back home again after undergoing surgery in the Prince County Hospital, Summerside.

Mr. and Mrs. Edward MacDougall, O'Leary attended the Christmas concert which was held in the Baptist Church in Springfield West on Wednesday night.

Mr. and Mrs. Wilfred Harris and little daughter of Greenwood, N.S. are spending the Christmas holidays with the former's parents

IN MEMORIAM

MR. JAMES DYMENT

The death occurred at his home in Northam on Friday, November 23rd, 1956 of Mr. James Dymont at the age of 95 years. Mr. Dymont was a well-known farmer and had lived all his life on the old homestead at Northam. He was a kind neighbor, a good friend and will long be remembered for his honesty, pleasant sense of humor and unassuming manner.

He took an active part in everything pertaining to the betterment and advancement of the community and was always ready to assist with any worthy cause. In spite of his advanced years he retained all his faculties and will therefore, be greatly missed especially in the home by his son Russell, and daughter-in-law and grandchildren.

He leaves to cherish his memory, eight sons, all of whom were present at the funeral Reverend A. Hatfield, Hillsborough, N.B., Edward, Margate Williams, Rochester, N.Y., Clifford, Popelife, Massachusetts, Roy, Hilton, N.Y., Herman and Spurgeon, Northam, and Russel at home. Also three daughters (Eleanor) Mrs. George March bank, Truro, N.S., (Laura) Mrs. David Finlayson, Ottawa Ont., (Annie) Mrs. Bruce Crozier, Baltic.

His wife, the former Laura Belle MacArthur predeceased him, also a son Wilfred and a daughter,

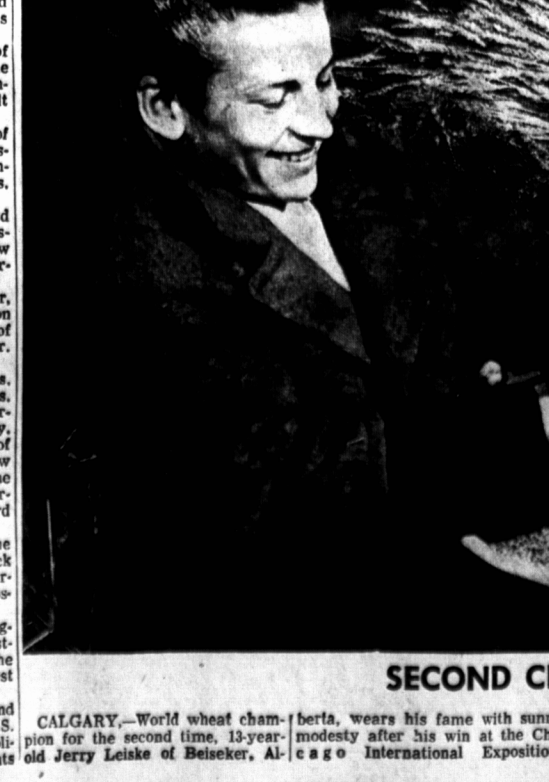

PLACE HUGE ORDERS

GLASGOW (Reuters)—Orders worth more than 130,000,000 have been placed with Clydeside Shipyards for 1957, it was announced here Tuesday. The new contracts are for 85 ships—26 of them tankers—of more than 500,000 gross tons.

SECOND CHAMPIONSHIP

CALGARY—World wheat champion for the second time, 13-year-old Jerry Leiske of Beiseker, Alberta, wears his fame with sunny modesty after his win at the Chicago International Exposition.

Jerry pulled off his success with Chinook wheat grown on his father's 1,700-acre farm and it was only his second crop.

R.C.A.F. Station Remembers The Two Orphanages

Representatives of R.C.A.F. Station, Summerside visited the two orphanages on Friday, December 21st, and presented television chairs to each for the use of the children. Each orphanage was presented last year with a television set by R.C.A.F. Station, Summerside and the ten chairs were a further gift this Christmas.

The money to purchase the chairs came from the entertainment fund which was used in this manner instead of providing a Christmas party for the children of station personnel.

Orphanages visited were the St. Vincent's Orphanage on the Malpeque Road and the P.E.I. Protestant Orphanage at Mt. Herbert.
