

Another Kidnapping Case.

Mrs. Ireland, of Malhaven, reported at the District Attorney's office, New York, on the 23rd, that her husband had been kidnapped by English officials. Robert Ireland was a piper in the English army until 1876, when he deserted. He went to New York and took out naturalization papers. On the 18th inst., one John Shields wrote him from Rochester, N. Y., offering him a position in a concert company. Ireland went west to meet Shields and was induced to step over the border into Canada, when Shields announced he was a detective, and took the naturalized American into custody. Ireland was locked up and was refused permission to write home until the 22nd, when he sent a few lines to his wife, telling her the facts, and adding he would shortly be returned to England for trial. Assistant District Attorney Davis advised Mrs. Ireland to at once communicate with Secretary of State Bayard.

Fish Hatching.

The hatching of lobster and fish is making great progress in Norway. Thus, last year the Association for the Promoting of the Norwegian Fisheries hatched 7,000,000 fish, chiefly cod and haddock, at their establishment of Arendal, in the Christiania fjord, and this winter 60,000,000 more will probably be turned out. The experiments, which were made of placing the ova of lobster in hatching apparatus, have been attended with great success, and show that they may be turned out by the million in this manner. As private enterprise cannot be expected to undertake these operations from year to year on a large scale all along the coast, the Association have petitioned for Government support, which will, it is expected, be readily forthcoming, as the Norwegians now clearly see of what enormous benefit to the nation these operations are.

Pig Iron.

From complete returns to the American Iron and Steel Association, it appears that the total production of pig iron in the United States last year was 4,589,613 tons, against 5,146,972 tons in 1883. The number of furnaces in blast on January 1st, 1885, was 236, against 207 at the beginning of the previous year, and 417 on January 1st, 1883. The number of furnaces out of blast January 1st, 1885, was 433. The production of charcoal pig iron last year was 453,418 tons, against 517,726 tons the previous year; of bituminous coal and coke pig iron, 2,544,742 tons; and of anthracite pig iron, 1,586,453 tons. The stock of pig iron unsold on January 1st, 1885, amounted to 593,000 tons, against 533,000 tons on January 1st, 1884.

Mary Walker.

The Boston Transcript tells the following story of the late mistress of the White House: "At her reception two weeks ago, among others who were presented to her by Marshal McMichael, the master of ceremonies, was Dr. Mary Walker. This nondescript personage, wearing tight trousers and a little coat, and carrying a cane, presented a most grotesque and ridiculous figure, utterly out of keeping with the surroundings. Mrs. McElroy spoke a word or two to her rather unexpected guest; and, as it so happened, the next person that was presented to her was a Miss Mann. To her Mrs. McElroy made the neat remark: 'I have just been presented to a woman who would like to be a man; I am pleased now to meet a man who is content to be a woman.'

A Gloomy Outlook.

The news from the colliery districts is of the gloomiest description. The masters in Yorkshire are cutting down wages in all directions, and the threats on the part of the men to strike have no effect. The masters are largely overstocked, and a wholesale strike as far as they are concerned, would be decidedly advantageous. The men say that their wages are cut down so fine know that a reduction of even five, not to speak of ten or fifteen per cent., which are mentioned, means bringing themselves and families to the verge of starvation. At the present time the distress in the mining towns is very severe. Thousands have been supported through the winter on charity.

The Moslem Population.

Of the 110,000,000 souls peopling the Moslem world—i. e., 40,000,000 in British India, 10,000,000 in Central Asia, 6,000,000 in Afghanistan, 8,000,000 in Persia, 5,000,000 in European Turkey, 2,000,000 in Algeria, 1,750,000 in Tunis and Tripoli, and the rest in Arabia, Asiatic Turkey, and Equatorial Africa—fully one-half are already either directly or indirectly under Christian control, and the remainder, creating a similar fate, are girding themselves for the great conflict upon which hangs the destiny of their race and their religion.

The Handsomest Man

Baron de Fara, the Italian Minister at Washington, is described as "the handsomest man in the Diplomatic Corps." The writer adds: "And he

looks every inch an aristocrat. He is of commanding height, with snow-white hair and mustache, and short tuft whiskers, bright blue eyes, a long, straight nose, and a chin as square as a block. He dresses with the utmost care."

Charlottetown, Dec. 19, 1884

MORRIS & IRELAND'S

NEW IMPROVED PATENT EIGHT-FLANGE FIRE-PROOF SAFE.

THE only Eight-Flange Safe in the world, and containing more improvements than ANY SAFE made, such as: 1st. THE PATENT INSIDE BOLT WORK, which is placing the bolt work with the whole of the filling (six inches) between it and the outside, that is, as far from the fire and thief as it can be. 2nd. THE PATENT-HINGED CAP—the back plate of the door being on hinges, enabling the owner, by turning a thumb-screw, to have easy access to the lock and bolt-work. He can thus easily change the lock, clean, oil, and keep the bolt-work in good order. 3rd. IRON INSIDE LINING, stronger than wood, and which retains the moisture in the filling for an indefinite time. Wood is thicker and weaker, and after a few years absorbs the moisture and "requires filling over again." 4th. FOUR-WHEEL COMBINATION LOCKS, the simplest, strongest, most efficient and easiest to change of any in use. 5th. SOLID ANGLE IRON FRONTS, BACKS AND CORNERS, which prevents warping or injury to safe from falling, or falling walls or timbers. 6th. EIGHT FLANGES—the most important improvement ever made in fire-proof safes, providing eight laps, thus preventing the passage of heat, it having to pass over twelve inches, no injury arises from this source, as in other safes containing one, two or three flanges. THESE SAFES have stood the test of years, and the greatest fires on this continent, and have the CHAMPION RECORD in the Boston, Chicago and Haverhill Fires. We are selling these safes as low as any good safe, and are disposing of large numbers throughout the Dominion. BANK WORK AND VAULT DOORS are specialties of our firm. For prices, testimonials and information, address, JOSEPH JACOBS, GENERAL AGENT, MORRIS & IRELAND, 64 Southbury St., Boston Mass.

DISSOLUTION NOTICE.

THIS is to certify that the partnership heretofore existing between the undersigned, carrying on business under the style and firm of Bremner Brothers, has on this third day of March, A. D., 1885, been dissolved by mutual consent. Dated this 3rd day of March, A. D., 1885, at Charlottetown, in Prince Edward Island, W. H. BREMNER, BENJ. BREMNER.

Referring to the above, I desire on behalf of the late firm to thank the public for the very liberal patronage bestowed in the past, and to inform them that the good will of the business has been transferred to Mr. John Coombs, Queen Street. I would respectfully request all of our former customers to place their patronage with Mr. Coombs, whose facilities for doing the best class of work in Mercantile, Fancy and Book Printing, Book-binding and Blank Book Manufacturing, at the lowest prices, and in the shortest time, are unequalled in the Province. BENJ. BREMNER.

Regarding the Dissolution Notice of Messrs. Bremner Bros., above, I beg to state that I will have, from this date, in my business, the practical assistance of Mr. Benjamin Bremner, who will be pleased to see all his former customers at my office, 15 Queen Street. JOHN COOMBS. March 5, 1885—Two wky 2mo
