

Dear Cadre

Is there something you do or don't like on campus? This is the place to complain or encourage. All submissions very much welcomed.

Dear Cadre:

Who-ever the music director of CIMN is, he should have cigarette butts extinguished on his naughty bits. Since the beginning of the semester there has been a marked decline in the quality of CIMN programming. They seem to be trying to compete with the private Charlottetown radio stations for broad general audience. It is my opinion that CIMN

should reassess its priorities. Instead of trying to steal the 30 to 50 year old market from the other stations, they should redirect their primary (indeed total) focus back to the university student audience. There are too many repetitive commercials, too much small talk, and too much unacceptable music. I would like to see CIMN return to the status of an un-radio station. They should end their attempts at 'slick' radio broadcasting, and begin again to play music that would be more acceptable to the student population, which they claim to be catering to.

Signed,
Richard Bruce

Girls start looking around for the guy you are going to ask **NOW!** (SPONSORED BY CLASS of 77)

Engineering is one thing. Engineering for us is quite another.

There's nothing dull about engineering your own challenge. And that's where your Engineering career in the Canadian Armed Forces begins. From there, your career possibilities are unlimited. In the Canadian Forces, the different engineering disciplines are divided into 5 major classifications:

- Maritime Engineering
- Military Engineering
- Land Ordnance Engineering
- Aerospace Engineering
- Electronic and Communications Engineering.

You'll work with varied and sophisticated equipment on challenging projects in many parts of the world, face the responsibilities of leadership entrusted to you as an officer in the Canadian Armed Forces, and you'll enjoy the opportunity of working in all fields of engineering without being overly limited to any one.

Accepted qualified applicants will be given officer rank on entry, and an excellent salary along with many benefits. Security, promotions and opportunities for post-graduate training all add up to a worthwhile and personally rewarding career. If that's what you're looking for, it's time we got together.

Write, including your engineering qualifications to date, to the Director of Recruiting and Selection, National Defence Headquarters, Ottawa, Ontario, or visit your nearest Canadian Armed Forces Recruiting Centre, listed under "Recruiting" in the Yellow Pages.

ASK US ABOUT YOU.  THE CANADIAN ARMED FORCES.

ONE SOLITARY LIFE

Here is a man who was born of Jewish parents the child of a peasant woman. He never wrote a book. He never held an office. He never owned a home. He never had a family. He never went to college. He never put foot inside a big city. He never travelled two hundred miles from the place where he was born.

He never did one of the things that usually accompany greatness. He had no credentials but himself...

While still a young man, the tide of popular opinion turned against him. His friends ran away. One of them denied him... He was nailed to a cross between two thieves. His executioners gambled for the only piece of property he had on earth...his coat. When he was dead he was taken down and laid in a borrowed grave through the pity of a friend.

Nineteen wide centuries have come and gone and he is the centerpiece of the human race and the leader of the column of progress. I am far within the mark when I say that all the armies that ever marched, and all the navies that were ever built... have not affected the life of man upon earth as powerfully as has that One Solitary Life.
