Here We Are Again!

—(x)—

McLEOD & McKENZIE,

STAR MERCHANT TAILORS,

The Original and Peerless Artists of Our Day.

—(x)—

THE ABOVE HAS BEEN A SETTLED FACT FOR YEARS, and to keep before the public what is so well known to every good dresser in this Province, may seem superfluous. But as a good dinner tends to give a quietus to the disturbing influences within the inner man, so a thorough knowledge of our capabilities will give a quietus to anyone who may have had the good fortune of being dressed by us. The sun rises and sets, and it appears to the ordinary judgment that the sun revolves around the earth instead of the earth revolving around the sun; so we, through the immense strides we have taken in our art, would appear to the uneducated to be moving around our many friends, instead of they moving around us; like the sun imparts its warm rays to revive drooping nature, so we are the benefactors of our people, by aiming high and attaining to a STYLE and FINISH in our Garments, which cannot but commend us as the MERCHANT TAILORING PHILANTHROPISTS of our day.

Are you anxious to test the foregoing? Come in, then, and see our line of Goods, which are superior, in every sense of the word, and we will fit you out with a Suit which will doubtless draw the loving remark from your best girl that she has "the best dressed young man in town." Call early, if you must have it before 1st July.

HATS and FURNISHING GOODS in the LATEST STYLES.

Local and Other Items.

THE DIFFERENCE.—Children cry for the moon. Men want the earth

A BRILLIANT IDEA.—The Paris *Star Democrat* says: "It seems to us there should be a big convention called together to try to induce every one to mind his own business.

THE REGION OF EARTHQUAKE.—Seventy-five earthquake shocks have been felt at Susanville, near San Francisco, within the past two weeks. Some of them have been very severe.

MORE ISLAND HORSES.—Says the St. John *Sun* of yesterday: Mr. W. S. McKee has arrived with a carload of good drivers and heavy draught horses at Smith's stables, Germain Street.

EMPHASIZING THEIR REMARKS.—Two members of the French Chamber of Deputies, from calling names the other day, got into a clinch, scratching and pulling hair. One of the combatants drew a revolver and was expelled from the house.

THE LOSS ESTIMATED.—*Bradstreet* estimates the loss of property in the recent flood in Pennsylvania at $44,258,000. When the loss of life is reckoned with it the disaster is the most overwhelming of any that has ever occurred in America.

PORT OF MONTREAL.—Full returns show the amount of duties collected at the port of Montreal during the fiscal year just ended to be $9,264,310, being an increase of $715,573 over last year, and nearly four hundred thousand dollars ahead of the best year Montreal has ever seen.

HAS A GREAT HEAD.—A Pennsylvania editor has discovered that everything in nature is playful. He says: "The lightning plays, the wind whistles, the thunder rolls, the snow flies, the waves leap, and the fields smile. Even the trees shoot and the rivers and streams run."

STRIKES ON THE DECLINE.—Thus far there have been fewer strikes this year than during the same period of the last two years. *Bradstreets* tells us that since January there have been reported 296 strikes, involving 75,100 strikers, against 385 strikes and 111,201 strikers in 1888, and 511 strikes and 312,317 strikers in 1887.

A NEW POTATO BUG.—A new style of potato bug, coming from no one knows where, has started into business in the neighborhood of Winnipeg. The beetle is small and dark, and does not bear any resemblance to the Colorado bug. But it is quite as disastrous. It attacks the potato plants at the root and cuts the plant down. Many of the market gardens are infested with them, and they are doing a great deal of damage.

FREAK OF NATURE.—Mrs. Henry Jones, who lives near Kokoma, Ind., had twin girls born to her last week, which are inseparably connected at the hips and lower abdomen. No vital organs are connected except the spinal column, which is continuous from one end to the other. Each breathes and pulsates quite independently of the other, and both are perfectly formed and have the free use of their limbs. The infants appear to be healthy.

RUSTICO CROSS SCHOOL.—The closing examination of the Rustico Cross School came off on Friday last in the presence of about twenty-three parents of pupils and other visitors. The examination was conducted by Dr. Gallant, James Flemming and Moses Gallant, and was highly satisfactory. At the close a high compliment was paid their teacher, Mr. Peter D. McGuigan, who has carefully conducted this school for the past two years.

SIZING UP STUDENTS.—An exchange says that Professor Richards, of Yale College, has made a study of the records of 2,425 students, in order to determine, if possible, the relations of athletics in Yale to scholarship. The general result is that the athletes fall slightly behind the non-athletes in scholarship, but not so much as to demand a suppression of such exercises. In some branches of athletic exercises the students who engage in the sports are above the average of the non-athletes in scholarship.

THE NORTH-WESTERN MASONIC AID ASSOCIATION.—The largest Masonic Aid Association in the world. It stands at the head in its fifteenth year—safe, sound and reliable insurance—furnishes insurance pure and simple, unmixed with banking or investment. As safe as law, science and conservative management can make it. Forty-seven thousand members—$5,000,000 paid to widows and orphans. All certificates paid in full. Now is the time for the Masonic fraternity of this Province to insure in a solid, reliable, vested Association. For further particulars apply to Dr. McNeill, Solicitor for this Province, at Stanley Bridge. No expense to the members, but death assessment after joining. At age of 41 to 49 average cost to members per $1,000—$8.50 per annum.

Personal.

Evangelist Meikle is in Halifax.

Mr. P. Blake, M. P. P., returned home on Monday evening.

Prof. C. F. Fraser, of the Halifax School for the Blind, has been elected President of the Alumni Association of the Perkins Institution and the Massachusetts School for the Blind.

It is reported that Miss Sherman, the eldest unmarried daughter of General Sherman, is about to take the veil. Her eldest brother wes lately ordained to the priesthood at the Jesuit College in Rome.

On Sunday morning last Bishop Cleary announced that he had no desire to be promoted to the Archbishopric of Waterford and Lismore, and had requested the Pope to permit him to remain in Kingston.

President Harrison's private secretary, Mr. Elijah W. Halford, receives a salary of $5,000. He was, before his appointment, the editor of a daily journal in Indianapolis. Next to his own relations, the President prefers newspaper men for office.

BE WISE in time. You have too many gray hairs for one so young looking. Use Hall's Hair Renewer, the best preparation out, to cure them. Try it.

Georgetown School.

THE closing exercises of this school took place on Friday last. A large number of visitors were present. An interesting feature of the examination was the public competition in reading for a prize presented by Lieut. Governor Macdonald. Equally interesting was the prize for the best reciter, by D. A. McKinnon, Esq. The former was won by Parmeanus McLeod, and the latter by Matilda McDonald. The judges were Rev. Mr. Mason, Dr. McIntosh, and D. A. McKinnon, Esq., L.L. B. Mrs. A. J. McDonald's prize for Reading in the second department was won by Mabel Byrne. Rev. Mr. Mason's prizes for Grammar were won as follows: In Mr. Stewart's department, Benj. Glover; in Mr. McDonald's department, Lily Parker; in Miss McDonald's department, Josephine Morrison. Captain Malcolm McDonald's prizes for Arithmetic and Geography were won by Benj. Glover. Mr. McKinnon's prize for History in 2nd Department was won by Glen McDonald, and his prize for Reading in 3rd Department by Lizzie Leaman. Principal Stewart's prize for Geography was won by John Owen. The exercises were interspersed with singing by the pupils and music by the Boys' Brass Band in connection with the school. The pupils' calisthenic exercise, performed to music, was much appreciated. Miss McDonald, who resigned her position in the Primary Department, was presented with an address, accompanied by some nice presents from her pupils.

New Perth School Examination.

The annual examination of the New Perth, school took place on the afternoon of the 18th June. Among those present were D. F. McDonald, William McLaren, John McLean, Esq., and many others, including both ladies and gentlemen. It is almost needless to say that the youth of New Perth acquitted themselves in a very creditable and satisfactory manner. The following is the result of the written examinations during the term:—

Agriculture—John McAree, Agnes B. Smith, J. S. Buchanan.

Arithmetic—Patrick Trainor, Abbie Collins, J. McAree.

English, I.—Abbie Collins, W. D. Heron, J. McAree. II.—Maggie McNeill, Robbie McNeill, T. A. McLean.

History, I.—Abbie Collins, P. Trainor, J. McAree. II.—Robbie McNeill, Ebbel Dewar, J. S. Buchanan.

Geometry—L. J. Curran, B. J. McNeill, A. B. Smith.

Latin, I.—W. D. Heron, Abbie Collins, P. Trainor. II.—B. J. McNeill, A. B. Smith, K. K. Dewar.

Algebra—Abbie Collins, P. Trainor, L. J. Curran.

A most agreeable feature of the examination was the singing of "Home, Sweet Home" and the "Song of the Seasons," under the direction of Miss L. A. Cameron, who presided at the organ.

Immediately at the close of the examination the sum of $137 was unanimously appropriated for school purposes for the year ending June 30, 1890.

News Notes.

A pest has appeared in the corn fields of Iowa, which is destroying the crops.

Sixteen carloads, numbering about 500 head, of young steers arrived in Calgary from Ontario a few days ago. They are part of a contract of 5,000 for the Quorn Ranch.

The shareholders of Liebig's Extract of Meat Company rejoice at making last year the largest profits in the history of the company, i. e., £126,678. Cheap cattle was the principal cause of this prosperity.

Manganese ore has been discovered in large quantities, and of splendid quality, near Dunedin, New Zealand, from which a valuable export trade may result. A sample was sent to London, and a cable message has been received, placing a value on it that leaves a large margin for profit.

With the vigorous enterprise characteristic of its management, the Canadian Pacific, the Vancouver *News Advertiser* says, intends to undertake a systematic exploration for coal in the immediate vicinity of Vancouver. Coal is believed to exist there, though previous attempts to find it failed.

Summerside Exports.

Summerside, July 1.—Shipped per steamer St. Lawrence, Cameron, master, for Point du Chene:

DIED.

On June 7th Peter Bruce, aged 3 years, youngest son of William and Matilda J. Webster, Fort Augustus. "Died in the arms of Jesus."

William O'Brien's Arrest.

THE POLICE AND PEOPLE FIGHT AT CLONIKILTY.

A Dublin despatch of the 1st inst., says: William O'Brien, M. P., was arrested again last evening at Clonikilty. An attempt was made to rescue him. The police fired upon the crowd, and two men were wounded A National League meeting was announced to be held at Clonikilty, 25 miles west of Cork. A proclamation was posted up throughout the district, forbidding the meeting, and a large force of police was drafted into the town to suppress it, should any attempt be made to hold it. The vigilance of the police was eluded, and several hundred people assembled in a field outside the town. In defiance of the edict of Dublin Castle, O'Brien delivered one of his stirring addresses, and was cheered to the echo. The police suddenly appeared upon the scene, ordered the crowd to disperse, and charged it, using their clubs freely. The people resisted, and about 40 of them were injured. Among those hurt were Patrick O'Brien, one of the members of parliament for Tipperary. O'Brien was soon on his way to Dublin, escorted by a large force of constabulary. Excited crowds hooted the police all along the route, and at Charleville, a desperate attempt to rescue the prisoner was made. The crowd rushed upon the police and a fierce hand to hand contest ensued. The police were ordered to fire, and the first volley took effect. Two of the crowd were seriously wounded. The police succeeded in getting away with their prisoner, and he was conveyed to Dublin by the first train that left Limerick Junction. The news spread rapidly through Ireland and great excitement prevails.

The "Princess Beatrice."

The Halifax *Herald* of yesterday says:—Another new steamship enterprize will be inaugurated to-day, viz., the departure of the SS. Princess Beatrice for Charlottetown, via eastern Nova Scotia ports. Some time ago Pickford & Black determined to put a steamer on the route that would supply all the requirements of the trade. They organized the Halifax and Prince Edward Island Steamship Company and purchased the Princess Beatrice, a handsome little iron boat of 270 tons net, drawing 13 feet of water, which seems to be admirably adapted for the trade. She will carry twenty first-class passengers. She is commanded by Captain Kelley, formerly of the steamer Electra. Mrs. Fishwick having amalgamated with the new company and withdrawn the M. A. Starr from the route, the Princess Beatrice will now be the only steamer on the route. She sails at 7 o'clock this morning, and will leave every Tuesday morning, making weekly trips to Charlottetown, calling at Sheet Harbor, Isaac's Harbor, Canso, Arichat, Hawkesbury, Mulgrave, Hastings, Bayfield and Port Hood, and calling at the same ports on the return trip. The round voyage can be made for $10, and our merchants have now a first-rate opportunity to combine a coastal sea voyage with the privilege of seeing their customers and opening up a new business. The Princess Beatrice takes a goodly-sized cargo on her first trip, and W. A. Black goes to make personal arrangements with the local agents, etc. The *Herald* wishes success to the new venture.

The Mackerel Fishery a Failure.

A recent Boston despatch says: Mackerel do not appear in any considerable numbers off our coast. It is high time for them and the captains in the fleet are discouraged. Many of them have already sailed for the North Bay. A great deal of effort has been put into the search for mackerel this year off the American coast, and the work has been done by expert captains, but thus far without special results. The trade is discouraged as well as the captains, and the fear is that the mackerel have really left our shores for a series of years, perhaps forever. Still more of the trade will have to go out of the business, provided the catch proves to be the signal failure this year that is promised. There have arrived during the week some 570 barrels of foreign mackerel, but none from the domestic fishermen of any consequence. Last year for the corresponding week the arrivals were 2,109 barrels. The total importations of mackerel from Jan. 1 to date amount to 3,879 barrels; last year, 6,708 barrels; same time in 1887, 16,699 barrels.

Telegraphic Tips.

LONDON, July 1.—Henry George will engage in a public discussion of socialism with Mr. Hyndman, the noted socialist leader, and author of The historical basis of socialism in England. The debates will be held in St. James' Hall, and the first one will take place to-morrow night.

PARIS, July 1.—The names of Boulanger, Laguerre, Naquet, Deroulede and Laisant head the polls in yesterday's election in the department of Herault. The Socialist candidates stand next. No candidate received a majority, and a second ballot will be necessary.

SAN FRANCISCO.—July 1.—Hong Kong advices by steamer say that one of the most disastrous rain storms in the history of Hong Kong occurred May 29 and 30. Hong Kong papers do not venture to estimate the loss of property, such as residences, stores, etc., but estimate the loss of public property at $200,000. All the houses and streets in the colony were turned into mud heaps and dwellings were flooded. Fifteen fatalities were recorded.

CANKER in the mouth can be cured only by expelling the poisonous humor from the system. To do this effectually requires the persistent use of Ayer's Sarsaparilla, together with a good generous diet. One dollar a bottle. Six bottles for $5. Begin at once.

Wheat Germ Meal only 5 cents a pound at Beer and Goff's.—j27 2i
