

ment for money to help to extend it. We have no doubt, a considerable sum in aid of it could be raised from the people having property in its vicinity.

Leaving Summerside at 121, we made a very fair trip to Shediac in four hours. This place is one of the most beautiful in the place, and has plenty of hotels. On previous occasions when we have been there we have been unable to find a single hotel open, and we thus again for some time at least we have had to do for the evening for the Bend, or as it is now called Moncton, and before this will be read, it will be found with credit to the city, and the officers being to be elected on Monday the 14th inst. In prospect of the railway project being carried out, this place has rapidly filled up, and the most beautiful view of the city is not having been proceeded with as expected and the shipping interest declining, commercial affairs are proceeding at a languid pace, and a few ships are in a state of slow progression, but very little business is doing in the stores. Unless the Railway Company could pay Jackson & Co. to go on with their contract immediately, we think many of them will be obliged to shut up. The railway at present is at a stand still, and it is hard to find out what is the reason, and we naturally find that we have had plenty of other contracts on hand, and finding that this is not going to be so lucrative a job, we have repaired to the city, and as they could find a mistake in the contract. It is said that some mistake has occurred in paying the interest on the Bonds, but nothing founded on the facts of the matter. It is said that they give a different opinion. The solicitor of the Company, Mr. Ritchie, has been sent to Britain and nothing worth reliance can be obtained and it has been heard from, and it is to be hoped they will not let the summer go without completing that portion between Shediac and Moncton: is great part of it has been levelled, and the sleepers are being laid to be laid. Moncton is certainly in want of an incorporation, or some act of Parliament to be passed, and it is to be hoped that it will be used in building the houses, they are set at nearly every angle of the compass, the streets if there be more than one, are without drainage, and the suburbs are in such a state that a vehicle can hardly approach the town without upsetting. We think the Mayor whoever he may be, and the Council, are in a very bad way, and present of his salary for the first year, for we are sure it will take all that can be raised to make the place in any way respectable. A. M. While in the place we visited a very good stean mail will recently erected by Mr. Salter, and we have seen a number of the same class, and would not pay on Island. He has an engine of about 25 horse power driving a gang of 8 saws, and several circulars, he is also making a circular mill in the upper part of the building. Our Island can never prosper like other places until our government takes more pains to encourage the importation of machinery, and at least until it withdraws the impediments to its importation. Moncton has a printing office, Book-store, and reading room, and a good travelling library, and a fine library, but will not be altogether, as formerly, destitute of literary food or amusement. Had the Lady Le Marchant sailed direct to Shediac, we should have seen her Moncton at the time of the Steamer and in all probability arrived at that place within the twenty-four hours, as it is, we are a few hours too late, and will have either to wait until Saturday, or take the steamer this (Thursday) evening—the latter at this season being any thing but pleasant—but as we have no business to do, and as the steamer will not be another, as formerly, destitute of literary food or amusement. DR. McLANE'S VERMIFUGE. ALWAYS REMEDY FOR WHEN EVERY OTHER REMEDY FAILS.

New York, September 15, 1852. This is to certify that my child, three years old, was troubled with worms since six months. I had tried several kinds of medicine, but none of them gave any good; and it was not until I tried Dr. McLane's celebrated Vermifuge that I found any relief. I gave her the contents of one bottle, which brought from her a very large quantity of worms, but they were so small as to pass it was impossible to count them. My daughter is now healthy; indeed she is completely restored to health, therefore I feel bound in recommending it to parents. I would say, by all means keep a supply of this valuable medicine constantly in your house, and be careful to examine the rats and mice from the effects of worms. It is also not unfrequently happens that children are treated for cough, when the coughing and coughing is caused altogether by the irritation of worms. Therefore, we say again, keep it always in the house; it costs but little, and may be the means of saving life; and at any rate it will save physicians' bills.

Mrs. LANE, No. 323 Eighth street. Use the above valuable preparation, also Dr. McLane's Celebrated Liver Pills, can now be had at all respectable Drug Stores in this city. Beware of cheap imitations. Be careful to ask for and take none but Dr. McLane's Vermifuge! All others, in comparison, are worthless.
